IRRIGATION AND WATERWAYS DEPARTMENT

NOTIFICATION

No. 33-I.—12th July 1957.—In exercise of the powers conferred by sections 78 and 99 of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876), the Governor is pleased to make the following rules, schedule of rates and appendices for the supply of water under the Aulia Reservoir Scheme in the districts of Bankura and Midnapore.

2. A draft of these rules, schedule of rates and appendices was published in the *Calcutta Gazette* of the 21st February 1957 under notification No. 8-I, dated the 7th February 1957, as required by section 99 of the said Act.

RULES, SCHEDULE OF RATES AND APPENDICES

Leases for a term of years

1. The country served by the canals shall be mapped out into blocks of convenient size in accordance with the features of the ground, natural or artificial. So far as may be practicable, the blocks shall be separated by drainage lines. This shall be done by the Subdivisional Canal Officer under the guidance and control of the Divisional Canal Officer.

2. Each block determined as above shall be numbered and recorded with its gross and irrigable areas in registers to be maintained by the Subdivisional Canal Officer. The blocks shall also be marked on maps to be maintained by the same officer.

3. Leases for not more than six years may be granted for the whole irrigable area of a block or for definite parts of a block under the following conditions:—

I. Ordinarily the whole irrigable area of any village so far as situated within the block must be included in the lease. If the lands of a village within the block are divisible into two or more distinct parts which can be irrigated independently a separate lease may be granted for each part.

II. All leases within one block shall be so granted that they may expire on the same date.

III. No lease shall be granted when the supply of water must of necessity be delivered across an unleased area, unless a channel exists, which, in the opinion of the Subdivisional Canal Officer, will deliver water without waste across the unleased area.

4. The Superintending Engineer shall fix from time to time the gross area for which and the limits of the canal within which, leases for a term of years may be granted.

5. Maps of all villages in which lands have been brought under lease for a term of years, or in which there is any possibility of such leases being taken, shall be kept in the Subdivisional Canal Office. These maps to be at scale 32″=1 mile when such are available and elsewhere at scale 16″=1 mile

6. The preliminary application for a lease for a term of years, either new or renewal, may be of an informal nature, but it must be in writing. It may be presented and shall be received either at the Subdivisional or Sectional Canal Office; in the latter case the Sectional Officer shall forward it immediately to the Subdivisional Canal Officer. The Subdivisional Canal Officer as soon as he has, by personal enquiry or by an enquiry made by the Sectional Officer, satisfied himself that the land in question constitutes a definite block or a definite part of a block, and that it can be irrigated, shall at once inform the Divisional Canal Officer giving such particulars as that officer may direct, and shall ask his formal approval to the lease being proceeded with. On receipt of such approval the Subdivisional Canal Officer shall proceed to make the detailed assessment. The lands to be brought under lease shall be indicated on a copy of the map referred to in rule 5.

7. The Subdivisional Canal Officer on receipt of the application shall depute an amin to prepare the khasra or detailed assessment paper. This shall be done on the ground with the aid of the revenue survey map and khasra. Should the survey map and khasra not be available, the amin shall make a sketch map, and shall measure the areas of the holdings with a chain or measuring-rod.

8. When the amin has completed the khasra he shall forward it to the Subdivisional Canal Officer who shall forward it to the Divisional Canal Officer for approval.

9. As soon as the khasra has been approved by the Divisional Canal Officer, he shall return it to the Subdivisional Canal Officer endorsed with his signature in token of approval.

The Subdivisional Canal Officer shall then prepare a khatian or abstract of the khasra, and shall have the form of application given as Appendix I to these rules, filled up and signed or marked by each of the applicants, in the presence of two witnesses.

When the application has been completely signed, the Subdivisional Canal Officer shall send it to the Divisional Canal Officer, by whom the permit or formal approval of the lease shall be signed and issued in the form given as Appendix III to these rules. The permit shall be made over to the representative of the cultivators by the Subdivisional Canal Officer through his Sectional Officer. The Divisional Canal Officer shall return the application to the Subdivisional Canal Officer with a copy of the permit for record.

10. Should it happen that the cultivators of the block proposed for lease are not unanimous, and that some of them decline to sign the application, the Subdivisional Canal Officer shall report the matter to the Divisional Canal Officer and the Subdivisional Canal Officer shall hold a local enquiry, recording the statements of the persons who decline to sign and recording his personal opinion on the reasons given. He shall then send a report to the Divisional Canal Officer, who shall decide whether the lease may be accepted excluding the fields in the occupation of the persons who decline to sign, or whether the lease shall be declined. The Divisional Canal Officer may grant a lease when not less than 95 per cent. of the net irrigable area of the block has been signed for. In particular cases should it be desirable to grant a lease even though an area larger than 5 per cent. of the block has not been signed for, this may be done on the written order of the Superintending Engineer. The reasons for granting the lease shall be fully recorded.

Covering Leases.

11. Applicants for a lease for a term of years who may require water before the lease has been concluded can obtain a supply on tendering an application for a covering lease in the form given as Appendix II to these rules. This application shall be signed in the presence of the tahsildar or of some other responsible officer nominated for the purpose by the Subdivisional Canal Officer. The signatures shall be those of the leading cultivators in the block in question and they shall represent holders of not less than 75 per cent. of the irrigable land within the block.

As soon as the Subdivisional Canal Officer receives the application duly signed, he shall issue a permit in the form given as Appendix IV to these rules, and shall at once supply water.

Season Leases.

12. Applications for water to irrigate spring rice or other crops between the 16th November and 15th June may be presented at the Subdivisional Canal Office or to the Sectional Officer. They shall be in the form given as Appendix V to these rules.

In the applications the areas for which water is required shall be specified but the rate shall be charged on those areas for which water is actually used as determined by measurement.

The permit in the form given as Appendix VI to these rules shall be granted by the Subdivisional Canal Officer if he is able to supply the water.

Supply of water.

13. The Divisional Canal Officer shall control the supply of water throughout the Division in his charge.

14. No water shall be supplied to any lands except such as have been brought under a lease for a term of years or for the season, or to such as are provided for by a covering lease.

15. Under the forms of irrigation lease in use, no specific supply of water is promised; but the undertaking is to give such a supply to each lessee as may be necessary for the lands leased. The supply shall be given, as may be required for the proper cultivation of the crops under irrigation, according to the exigencies of the season.

16. The Divisional Canal Officer may give the required supply by rotation, should this be advisable for the efficient working of the canals in his charge. In such a case, he is required to give the lessees written notice informing them of the periods when they will be supplied with water.

Collection of water-rates.

17. The rates due for water supplied shall be collected by the Divisional Canal Officer or other officer in charge of the Revenue Division through his staff of tahsildars and peons. All khatians or demand statements shall be signed by the Divisional Canal Officer or other officer in charge of the Revenue Division after scrutiny in his office.

18. At the time of preparation of the khatian in the Subdivisional Canal Office each person assessed shall be furnished with an extract from the assessment paper, showing the particulars of the charge against him. This extract shall be furnished in such form as may from time to time be approved by the Subdivisional Canal Officer for the purpose.

19. Each person on paying the sum due from him shall be given a receipt in the form prescribed for the purpose.

20. For the purposes of account of control over establishment, and of general administration, the Divisional Canal Officer or other officer in charge of the Revenue Division is in the position of an Executive Engineer in charge of a Division, and is directly subordinate to the Superintending Engineer. In regard to any proceedings taken under the Public Demands Recovery Act, 1913 (Bengal Act III of 1913), the Divisional Canal Officer is subject to the control of the Collector of the district.

Unauthorized use of water and waste of water

21. Should it be necessary to take action under the provisions of sections 79 and 80 of the Bengal Irrigation Act, 1876 (Ben. Act III of 1876), proceedings shall be instituted only under the direct and special order of the Divisional Canal Officer. The primary record of the facts regarding the unauthorized use or the waste of water shall be made by the Subdivisional Canal Officer and his subordinates. The parties whom it is proposed to assess shall be informed in writing, and shall be called on to show cause why they should not be assessed. The record of their statements shall be made by the Divisional or by the Subdivisional Canal Officer. The Divisional Canal Officer shall consider the facts and statements recorded, and shall, in deciding the case, give his reasons for or against assessment, both as regards the facts and as regards the law, and he shall determine rate to be charged subject to the provision in the schedule of rates attached to these rules.

22. Should the Divisional Canal Officer decide on making an assessment, he shall have the assessment paper prepared by the Subdivisional Canal Officer and his staff. Each person assessed shall be furnished with a statement of the charge against him, and an abstract of the demand or khatian shall be sent to the officer in charge of the Revenue Division, who shall proceed to recover the sums assessed. The period of one month within which an appeal may be presented to the Collector under section 91 of the Bengal Irrigation Act, 1876 (Ben. Act III of 1876), shall be computed from the date on which the statement of the charge may be furnished to the person assessed, which date shall be endorsed on it.

23. No proceedings shall be instituted if the unauthorized use or the waste of water have occurred through the act or neglect of a Canal Officer or a subordinate officer employed on the canal. During the irrigation of autumn rice, the passing on of surplus water from leased to unleased fields is not an unauthorised use of water.

Complaints and Applications

24. All complaints or applications with respect to the supply of water, to defective drainage, and generally with respect to the administration of the canal, shall be received on presentation at either Divisional or Subdivisional Canal Offices.

Complaints and applications received by a Divisional Canal Officer may be transferred to his Subdivisional Canal Officer for disposal at his discretion.

Any such complaints or applications, if presented to the Sectional Canal Officer or to his staff, shall be returned endorsed with instructions as to the proper office at which to present them. If received by post, they shall be at once forwarded to the Divisional or Subdivisional Canal Officer.

25. Complaints or applications with respect to corrections of the assessment with respect to the actions of the amins in assessing and with respect to the actions of the tahsildars and other staff employed in collections, shall be received at the office of the Divisional Canal Officer or other officer in charge of the Revenue Division.

26. Receipts in the prescribed form shall be given at all offices for complaints or applications presented. The receipt of all complaints and applications shall be recorded in registers to be kept for that purpose.

27. The officer receiving the complaint or application shall either make a personal enquiry into the matter or he shall nominate in writing some responsible person to hold the enquiry.

28. The orders passed on all complaints or applications shall be in writing, and a copy of every order shall be furnished to the complainant or applicant.

The copy of order may be sent by post (registered), if this is convenient.

The period within which an appeal may be presented under section 91 of the Act shall be computed from the date on which the copy of the order is received by the person.

29. When an appeal to the Collector is from the order of a Subdivisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record on them such remarks as he may think desirable, provided that he does not thereby detain the proceedings.

In all cases in which an appeal against an assessment is preferred to the Collector, that officer may, if he thinks fit, direct that the collection of water-rates be suspended till the appeal is heard.

30. The Divisional Canal Officer may revise the proceedings of his Subdivisional Canal Officers and the Superintending Engineer may call for and revise the proceedings of all officers under his control.

Remissions and alterations of demand.

31. Wherever the crop on land entitled to a supply of water suffers material injury from an insufficient supply of water, or from any interruption in the supply of water, remission of the rate due on such crop shall be given by the Divisional Canal Officer, provided that the person claiming remission shall have applied for such not less than fifteen days before the reaping of the crop.

32. On the occasion of lands being brought under a lease for a term of years, the Divisional Canal Officer may remit the rates for the first season on those fields which from the nature of the cultivation then obtaining, or from other causes, have not, in that season, derived any benefit from the supply of canal water.

33. Should the crop on lands under lease for a term of years suffer material injury from excess of water due to deficient drainage, the Divisional Canal Officer may grant remission of the rates due on such lands in whole or in part provided that the person asking for remission shall have applied at least fifteen days before the reaping of the crop.

34. Revisions of the assessment required in consequence of land under lease being left uncultivated or of land being appropriated for purposes other than cultivation shall be made under the orders of the Divisional Canal Officer.

35. Revisions of the assessment required in consequence of incorrect entries of the names of occupants of lands under lease or of incorrect entries of areas or amounts in the assessment papers, or required by changes, in the occupation of lands shall be made under the orders of the Divisional Canal Officer or other officer in charge of the Revenue Division, provided that no change involving any increase or decrease in the total area under lease for a term of years shall be made, without the concurrence of the Divisional Canal Officer.

36. Remissions of water-rates on account of injury to the crops caused by inundation, by blight, by storms or by any extraordinary cause shall only be allowed under the special orders of the State Government.

Irrecoverable demands.

37. The Superintending Engineer may sanction the writing off of those demands which are reported, after due enquiry by the Divisional Canal Officer or other officer in charge of the Revenue Division, as irrecoverable owing to the poverty of the defaulter or of his successors in case of his death, or owing to the defaulter having absconded.

Cultivators' Representatives.

38. Whenever the preliminary application for a lease for a term of years has been approved by the Divisional Canal Officer, the officer in charge of the Revenue Division shall, with concurrence of the Subdivisional Canal Officer, select as representative of the cultivators a suitable person or persons who shall generally be acceptable to the cultivators and who shall each have a direct interest in the land for which the lease is executed.

39. The person or persons so selected shall be required to give assistance to the Canal Officers in respect of the following matters:—

(*i*) in the preparation of applications for leases,

(*ii*) in the measurement of irrigated lands,

(*iii*) in recording the names of the occupiers of the holdings,

(*iv*) in receiving demand statements and distributing to the cultivators the individual notices of assessment,

(*v*) in attending, when required, at enquiries into complaints,

(*vi*) in reporting to the Circle Officer any changes in the occupancy of lands under lease, and

(*vii*) in assisting the tahsildar in collecting rates.

40. For such assistance the cultivators' representative or representatives shall be entitled to free irrigation of the lands in his or in their own occupation, which may lie within the boundaries of the leased area subject to a total limit of 3 per cent. of the area assessed. The Divisional Canal Officer or other officer in charge of the Revenue Division may disallow in whole or in part this free irrigation, and may recover the rates which would otherwise have been payable in whole or in part if the assistance specified in rule 39 has not been efficiently rendered. The reasons for such disallowance shall be recorded in writing.

41. The Divisional Canal Officer shall maintain in his office a register containing a record of the names of all representatives and of the areas of free irrigation allowed to each.

42. Applicants for season leases shall be required to nominate one of their number who must have a substantial interest in the land to be irrigated as their representative. The representative so nominated shall perform the same duties as stated in rule 39 and shall receive remuneration on the same scale as in rule 40.

Power to decline or cancel leases.

43. Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted or used for the irrigation of lands not under lease, it shall be competent for the Superintending Engineer to direct that the lease shall be cancelled with effect from the 16th of June next following. The order to cancel a lease shall be passed before the 1st of April of the year in which it is to take effect.

44. The Superintending Engineer may give directions to the Divisional Canal Officer to decline applications for irrigation leases of lands in villages where there has been persistent difficulty in realising the water-rates, until all arrears have been paid.

He may further suspend, or altogether cancel, any lease for a term of years, if on the 1st June of any year water-rates to the extent of half the demand for one year are in arrears. Previous notice of intention to put this rule in force shall be given not later than the 15th April preceding.

Miscellaneous.

45. Tanks may be supplied with canal-water without charge, when water can be made available without injury to the cultivation dependent on a canal, under the following conditions:—

(*i*) that the water is to be exclusively used for domestic purposes, or for watering cattle;

(*ii*) that a channel exists through which water can pass without waste;

(*iii*) that the water shall only be supplied on the written order of the Subdivisional Canal Officer;

(*iv*) that any new outlet or sluice which may be required to allow of the supply being given shall be provided at the cost of the persons who ask for the water; and

(*v*) that the supply of water may be stopped at any time if it is found that it is being misused.

46. Except when a public right-of-way exists, no person shall, without the permission expressed in writing of the Divisional or Subdivisional Canal Officer, pass himself, or cause any animal or vehicle to pass, on or across any of the works, banks or channels of a canal, or drainage work which is part of the canal system except by means of such bridges, fords and ferries as may have been provided for the purpose.

Any person who, after due warning, commits a breach of this rule may be proceeded against under clause (9) of section 93 of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876).

47. The use of any part of the banks or berms of any canal, drainage work which is part of the canal system, or flood embankment which is subject to the provisions of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876), as a place for answering the calls of nature, is prohibited. Any person who, after due warning, commits a breach of this rule may be proceeded against under clause (9) of section 93 of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876).

48. Should water be required for purposes other than irrigation it may be supplied, when available, at a rate of two rupees per 10,000 cubic feet of water.

49. No officer employed on the canals, unless especially exempted by the State Government from the operation of this rule, shall have any interest in the distribution of water from any of the canals or purchase or bid for any Government property sold thereon either in his own name or in the name of another, or jointly, or in shares with others.

Venus Battery Mfg. Co., Ltd., 3 Mangoe Lane, Calcutta-1, and their employee Shri Sushanta Kumar Das, represented by the Federation of Metal & Engineering Workers' Union, 249 Bowbazar Street, Calcutta-12, regarding the matters specified in the schedule to the Third Industrial Tribunal constituted under section 7 of the Industrial Disputes Act, 1947, by notification No. 592Dis./D/12L-5/52, dated the 23rd February 1953, for adjudication.

2. After usual summons the parties put in appearance and filed their written statements. The pleadings were completed on 26th October 1956. The parties were thereafter directed to file lists of documents. Then after adjournments the dispute was heard and award was reserved.

3. The matter of dispute as stated in the schedule to the order of reference is as follows:

> Whether the Management was justified in discharging Shri Sushanta Kumar Das from his service? What relief is he entitled to?

DECISION

The controversy between the parties arose in the following circumstances: Venus Battery Manufacturing Co., Ltd., is a small engineering concern having office and workshop at 3 Mangoe Lane, Calcutta. It manufactures battery and battery parts. The concern employed about 25 workers. Shri Sushanta Kumar Das joined the concern as a battery assembler. On 10th March 1956 he was discharged with immediate effect by a notice of that date (Ext. 1) on the ground that the business was running at a loss for more than 2 years. He had by then served for a little over 5 years. On 15th March 1956 the workman, Shri Sushanta Kumar Das obtained a certificate from the Managing Director of the concern on putting signature on the duplicate (Ext. A). In the said certificate the Managing Director stated besides testifying to his ability and character that Shri Sushanta Kumar Das left the concern of his own accord for better prospect. On 16th March 1956 the workman Shri Sushanta Kumar Das addressed a registered letter with acknowledgment due to the Managing Director of the concern demanding payment of (i) one month's wages in lieu of notice, (ii) retrenchment benefit equivalent to 2½ months' wages for his service for 5 years, and (iii) 6 months' pay as damage without prejudice to his right for reinstatement (Ext. 2).

In the letter it was also complained that in retrenching him the principle of last come first go was not observed in that men junior to him were retained in service (*vide* Ext. 2). Copy of the said letter was sent by the workman to the Labour Commissioner for favour of immediate intervention. As no action was taken on the said letter the Assistant Secretary of Federation of Metal and Engineering Workers' Union wrote to the Labour Commissioner on 17th April 1956 to take immediate steps on the above letter of the workman so that the workman was either reinstated or paid his dues as demanded by him therein. After such letter the Conciliation Officer wanted comments from the Company. The Company wrote to him to say that as there was no Union for the workmen of the Company and as no workmen of the Company took up the cause of the workman, it was not obliged to talk about the matter with an outside Union As thus no settlement was possible, the dispute was referred to the Tribunal for adjudication on 3rd August 1956.

Against this background the Company in its written statement before this Tribunal took preliminary objection that what had been referred to was not an industrial dispute within the meaning of section 2(k) of the Industrial Disputes Act but pure and simple individual dispute and the reference was, in consequence, bad.

It was, on the other hand, urged on behalf of the workman that when the Federation of the Metal and Engineering Workers' Union intervened on his behalf the dispute became an industrial dispute.

On giving careful consideration to the materials on record and arguments advanced on either side it seems to me that the contention on behalf of the Company must prevail. In the case of State of Madras *vs.* C. P. Sarathi reported in (1952) 4 F.J.R. 431, the Supreme Court held *inter alia* that the question about the factual existence of the dispute is only immune from being challenged before any judicial or quasijudicial body and the question as to the subject-matter of an order of reference, namely, whether it is an industrial dispute or not would be decided by the Industrial Tribunal to whom the industrial dispute is referred for adjudication. Then in the case of Central Provinces Transport Service

Ltd. *vs.* Raghunath reported in (1956) 11 F.J.R. 298, the Supreme Court observed that preponderance of the judicial opinion was clearly in favour of the view that a dispute between an employer and a single employee would not *per se* be an industrial dispute but it might become one if it was taken up by the Union of which the workman is a member or a number of workmen. In the present case the evidence shows that there was and is no Union for workmen of the concern. There is also no evidence to show that the workmen of the concern made grievance about discharge of Shri Sushanta Kumar Das or espoused his cause. There is also nothing to show that the workman Shri Sushanta Kumar Das was or is a member of the Federation of Metal and Engineering Workers' Union. There is also nothing to show that any other workman of this Company was or is a member of the Union. An officer of a Union may represent a workman under clause (c) of section 36 when he is not a member of a registered Union. But there is nothing to show that the Union actually took up the cause of the workman and made it its own. The letter which it wrote to the Labour Commissioner does not show that the Union adopted the cause of the workman and made it its own. It merely invited attention of the Labour Commissioner to the previous letter of the workman, dated 16th March 1956 and requested the Labour Commissioner to get the employer to accede to the demands of the workman at an early date. The conciliation proceedings revealed that after writing such letter the Union took no further step. The Company, on the other hand, it appears from the record of the conciliation proceedings' declined to attend the conference called by the Conciliation Officer as the Union was not a Union of their workmen, and as it had nothing to do with the said Union. As the Company did not attend the conference on that ground, it appears, that the reference was made. It cannot, therefore, be said that the Union took up the dispute of the workman, made it its own dispute and secured the reference for adjudication. The plain language of the order of reference shows that the dispute arose between the Company on one hand and their employee Shri Sushanta Kumar Das on the other, regarding his discharge. From the description of the parties to the dispute and from the nature of the subject-matter of the dispute, it also appears that there was only one employee who was party to the dispute, namely, Shri Sushanta Kumar Das and no other employee or workman. From the fact that in the order of reference Federation of Metal & Engineering Workers' Union was stated as representing Shri Sushanta Kumar Das, it cannot be said that the said Union took up the dispute of the workman and made it his own dispute. The materials on record, on the contrary, show that the said Union did not raise any dispute but the workman himself. The meaning of the word "represent" according to Chambers's Twentieth Century Dictionary is "to personate or act the part of or to stand in the place of". Therefore, the order of the reference by Government can only mean that the Union was personating or acting the part of or standing in place of Shri Sushanta Kumar Das. The import is that the Federation of Metal & Engineering Workers' Union undertook the vicarious duty of looking after the interest of Shri Sushanta Kumar Das in the proceeding before this Tribunal. The language does not lend itself to the construction that the Union entertained a grievance on account of discharge of Shri Sushanta Kumar Das and raised dispute with the Company on its own and agitated for reference. So, the Union was only agent or representative of the workman to the dispute within the plain language of the Government order. In the case of Newspapers Ltd. *vs.* State Industrial Tribunal, U.P. and others reported in (1957-58) 12 F.J.R. 129, the Supreme Court has held that "where the appropriate

Government had referred a dispute on the assumption that a dispute exists between the employer and his workman but the points of dispute in the reference comprised the wrongful termination of the service of only workman whose case was not taken up by any Union of the workers of the establishment in which he was employed, nor by any Union of workman employed in similar or allied trades, but by a Trade Union with which he had no connection whatsoever, the reference of the dispute was bad." The materials on record, as already indicated, do not show that the individual dispute had got transformed into an industrial dispute. It, therefore, follows that the reference is bad.

It is awarded accordingly.

The Government of West Bengal, in the Department of Labour by order No. 1214I.R./IR/4L-10/57, dated the 17th April 1957 referred under sections 7 and 10 of the Industrial Disputes Act, 1947 (XIV of 1947) the industrial dispute between Messrs. N. M. Sircar, 12/1/1 Monoharpukur Road, Calcutta, and one of their workmen Sarder Teja Singh, represented by the Bus Workers' Union, 249 Bowbazar Street, Calcutta-12, regarding matters specified in the second schedule of the Act to this Court for adjudication.

SCHEDULE

Is the discharge of Sardar Teja Singh justified? To what relief is he entitled?

AWARD ON PRELIMINARY POINT

Decision.

The case of the Union is that Shri Teja Singh was in the employment of Messrs N. N. Sircar as a bus-driver for the last 8 years. He used to work as a driver in bus route No. 12 plying between Esplanade and Rajabagan and *vice versa*. Teja Singh went on leave for 10 days from 4th June 1957 with the permission of the Management. On 14th June 1957 when Teja Singh reported himself for duty, the Management asked him to come after two or three days as the bus was not in proper running condition. Shri Teje Singh again offered to join his duties on 17th June 1957 while he was told to seek employment elsewhere. He therefore wanted to know the reasons which led to the termination of his services and a letter was addressed accordingly on 3rd July 1957 by the General Secretary, Bus Workers' Union, which remained unreplied to. The Union therefore urges that Teja Singh was summarily dismissed without any justification and, as such, his dismissal was improper, unjustified and illegal and he should be reinstated in his job.

The Comnany put in a written statement denying the relationship of employer and employee between Messrs. N. N. Sircar and the workman Sardar Teja Singh at any time. It is further urged that Shri N. N. Sircar is neither the owner of the bus, nor did Teja Singh ever work under him. Thus there is no industrial dispute, nor is there any valid reference. The other allegations in the complaint are traversed.

Notices were issued to both the parties. Before the trial was taken up the Union prayed for adding one J. N. Sircar as a party which is opposed by the Company.

The preliminary point raised is whether there is any relationship of employer and employee between Messrs. N. N. Sircar and Teja Singh. Is it industrial dispute?

Should Shri J. N. Sircar, the alleged present owner of the bus, be made a party?

On behalf of the Company, it is emphatically urged that Messrs. N. N. Sircar was not the owner of the bus which Teja Singh used to drive in bus route No 12, and so, there was never any relationship of employer and employee between Messrs. N. N. Sircar and Teja Singh at the date of the dispute. As is well known the existence of the relationship of employer

and employee is *a sine quanon* to constitute an "industrial dispute". The term "Industrial Dispute" is defined in section 2(k) as follow:

> 'industrial dispute' means any dispute or difference between employers and employers, or between employers and workmen, or between workmen and workmen, which is connected with the employment or non-employment or the terms of employment or with the conditions of labour, of any person".

Under section 10 the appropriate Government can refer an *Industrial Dispute* to a Court for enquiry. So in order that there should be a valid reference, the condition precedent is the existence of an industrial dispute. In this case, there being no relationship of employer and employee between Messrs. N. N. Sircar and Teja Singh at any material date there is no industrial dispute and the non-existence of the industrial dispute renders this reference incompetent under section 10 of the Act.

On behalf of the Union it is urged that Shri N. N. Sircar was the owner of the bus at the time of the employment of Shri Teja Singh but the Union would not produce the letter of appointment to support this contention. If the Union could produce the letter of appointment showing that N. N. Sircar was the owner of the bus at the date of appointment, and at some subsequent stage the ownership of the bus was transferred to his brother Shri J. N. Sircar, there would have been some force in the argument for the Union to add J. N. Sircar as a party. If the buses were transferred to J. N. Sircar during the continuance of employment of Teja Singh, of course, this Court would have validly added N. N. Sircar, a party to this case under section 18, clause (b) of the Industrial Disputes Act; but as there was no valid reference at the beginning at all, the prayer of the Union cannot be acceded to legally. The Union has failed in bringing to the Court any such fact. On the other hand, it is contended that Messrs. N. N. Sircar by a letter addressed to the General Secretary, Bus Workers' Union as early as 14th July 1957, intimated to him that the bus No. WBS 526 did not stand registered in his name and he should report himself to the real owner of the bus. The learned Advocate for the Company called upon the Union to produce the letter addressed to the General Secretary by Messrs. N. N. Sircar which also the Union did not comply with. The Company has further produced the Motor Insurance Policy, showing that this bus No. WBS 526 stands insured in the name of Shri N. N. Sircar of 12/1/1 Monoharpukur Road, Calcutta, and the period of insurance is stated as from 14th October 1955 to 3rd October 1956. Thus it is established beyond doubt that WBS 526 stands insured in the name of J. N. Sircar wherein Lili Ghose is described as the Agent and the policy number is given as C.V.A7135. In the circumstances, it is held that there is no valid reference before this Court because the essential ingredient, namely, the existence of relationship between employer and employee is absent between the parties concerned. In a recent appeal C.A No. 85 of 1956, Dhrangadhra Chemical Works *vs.* State of Saurashtra [1957 (1) M.L.J. Sh notes 1=1957—I L.L.J. 477], it was held by the Supreme Court of India that the essential condition for a person being a workman within the terms of the definition in the Industrial Disputes Act was that he should be in the employment of his employers and that there should be the relationship between the employer and him as between master and servant. It may be that then such a relationship had existed at one time and there was a termination subsequently of that relationship, the person who was once in employment would come within the definition of "workman". But as in this case the person concerned was never employed by

Messrs. N. N. Sircar, such person cannot be deemed to be a workman. And therefore this Court cannot assume the power to add J. N. Sircar and retrospectively validate the reference which is bad in limine. On behalf of the Union, reliance is placed upon a ruling reported in (Madras L.L.J. 1953, Vol. II, page 1, P. G. Brookes and the Industrial Tribunal, Madras, and others) wherein at the time of reference, the petitioner, P. G. Brookes, was the Managing Director of the Company and in that capacity he took part in the proceedings before the Tribunal. On 30th March 1953, i.e., three months after the reference and during the pendency of the proceedings before the arbitrator, he tenderd his resignation of his office as Managing Director of the Company from 1st April 1953. His resignation was accepted by the Board of Directors of the Company on 9th April 1953. The trustees in pursuance of the powers conferred on them by the aforesaid indenture deed and the supplemental deed appointed him as a receiver of the properties of the Company from 1st April 1953. Herein the receiver was held to be a proper party to the dispute and he was allowed to be added as a party to the pending dispute between the Company and the employees. In regard to this, I think, it is necessary to only observe that in the above case there existed a valid industrial dispute in the beginning and as the appointment of the receiver intervened during the pendency of the industrial dispute, he was obviously added as a party for the effectual determination of the dispute. It is therefore held that there was never any relationship of employer and employee between Messrs. N. N Sircar and Shri Teja Singh. As such, it is not an industrial dispute, nor is there a valid reference to this Court. So J. N. Sircar can not be legally added as a party to this reference. The reference is therefore bad and untenable.

The workman is not left without any remedy as he may, if so advised, approach Government again for a fresh valid reference.

ANNEXURE

In the matter of an industrial dispute existing between Messrs. Macfarlane & Co., Ltd., 18 Tangra Road, Calcutta-15, having their Head Office at 25 Netaji Subhas Road, Calcutta, and their 16 workmen represented by Macfarlane & Co. Staff and Workers' Union, 2/C Tangra Road, Calcutta-15. (Case No. VIII-93 of 1956.)

BEFORE THE SIXTH INDUSTRIAL TRIBUNAL, WEST BENGAL

PRESENT:

SHRI SAILESH SENGUPTA, *Judge, Sixth Industrial Tribunal.*

Appearances.

For the Company: Shri S. C. Sen, Advocate, assisted by Shri S. N. Ghosh, Pleader.

For the Union: Shri Patit Paban Pathak.

The short point involved in this reference made by Government order No. 4008Dis./D/11L-138/56, dated Calcutta, the 7th September 1956, is whether the workmen named in the schedule of the order of reference are entitled to gratuity and, if so, at what rate.

The point for adjudication has been formulated as follows:—

Whether the 16 workmen whose names are given below, are entitled to receive gratuity and, if so, at what rate?—

(1) Shri Lalit Mohan Ghose.
(2) Shri Shib Narayan Ghose.
(3) Shri Sudhamay Mitra.
(4) Shri Sukumar Ghose.
(5) Shri Amulya Kumar Ghose.
(6) Shri Surendra Nath Gupta.
(7) Shri Sukram Chowdhury.
(8) Shri Md. Ibrahim.
(9) Shri Md. Orsali Mia.
(10) Shri Daboo Mahato.
(11) Shri Md. Golam Nabi.
(12) Shri Md. Garpati Mia.
(13) Shri Md. Altab Hossain.
(14) Shri Lalai Jasoora.
(15) Shri Ram Udit Murai.
(16) Shri Bhabo Das.

After the reference was made two out of the 16 employees have been re-employed by the Company. Their case accordingly goes out of the scope of this adjudication.

These workmen had submitted a letter to the Company which received the construction that they had tendered resignation voluntarily. Gratuity was one of the retiring benefits due to the workmen under the prevailing

conditions of service. The company did not however discharge its obligation so far as gratuity is concerned. The workmen tried to secure redress through the Labour Department but the attitude of the Management was not at all helpful. This reference was accordingly made.

In the Company's written statement an objection was taken that the applicants were not workmen and necessarily the dispute was not an industrial dispute. Gratuity according to the Company did not form part of the conditions of service. The claim in that respect was wholly untenable.

DECISION

Learned Advocate for the Company propounded an argument that these workmen having resigned ceased to be "workmen" as defined in the Industrial Disputes Act. In some reported cases the view was no doubt taken that the term workman could not be applied to a former employee who had been discharged otherwise than during an industrial dispute. A dispute arising on the dismissal or discharge of an employee or workman who by that time had ceased to be such could not be a dispute between the employer and a workman so as to be an industrial dispute as defined in the Act. That phase is however over. The tide has turned in the opposite direction. In the case reported in 1957, 1, L.L.J. page 27, their Lordships of the Supreme Court held that a dismissed employee falls within the definition. In another case decided by the Bombay High Court, reported in 1956, 1, L.L.J. page 492, their Lordships have definitely held that it is not correct to state that a workman means a person who was employed on the date of reference of the dispute by the Government. The definition of "workman" does not indicate that the workman must be employed at a particular point of time. What is emphasized is that he must be employed in any industry to do any skilled or unskilled, manual or clerical work for hire or reward. So long as the workman is employed by an employer against whom he wishes to raise an industrial dispute and the dispute is of the nature required by the definition he must be held to be a workman. I find no substance in the argument that these employees are not workmen within the meaning of the definition.

The learned Advocate submitted that no dispute had been raised by the workmen at the time of termination of service. A stale and moth-eaten claim raised long after the cessation of relationship would not be a dispute as contemplated by the Act. The Company has put in receipts granted by these workers on payment of their wages and dearness allowance. Exhibits A(14) to A(27) are the receipts from which it can be seen that the workers while receiving their dues took care to mention that this acceptance would not prejudice their claim to gratuity. The receipts are dated 25th and 26th March 1953. The resignation was tendered to be operative from 1st March 1953. So it is apparent that the claim to gratuity was not a belated conception. The argument that this was an afterthought and did not crystallise as an industrial dispute carries no weight.

The Company denied that gratuity was payable as one of the conditions of service. It however appears that in 1950, disputes between this Company and its employees were referred to an industrial tribunal presided over by Shri G. Palit. The award was published in the *Calcutta Gazette*, dated 15th June 1950, at page 1206. The finding of the Tribunal in regard to Issue No. 5 clearly shows that the Union demanded payment of gratuity

as one of the retirement benefits. As the rate of contributions to the Provident Fund was raised, the learned Tribunal did not make any provision for gratuity. When the matter went up in appeal (Appeal No. 33 of 1950) a compromise was arrived at by the terms of which rates of contributions to the Provident Fund were reduced and gratuity scheme was introduced. From the Appeallate Award (Ext. 1) it appears that gratuity at the rate of half month's basic wages for each completed year of service subject to a maximum of 15 months' basic wages was made payable on retirement after continuous service for not less than 16 years. On retirement before completion of 15 years' service by reason of superannuation on medical grounds or owing to any other sufficient cause approved by the employer, gratuity at the same rate for each completed year of service was agreed upon. Gratuity was thus engrafted on the terms and conditions of service by the Appellate award. According to the learned Advocate for the Company, on a proper construction of the Appellate award gratuity might be claimed only in the event of retirement. Resignation is not synonymous with retirement. In the case of retirement, there is consenus of wishes of the two parties. Resignation, on the other hand, is unilateral and against the wishes of the employer. The two cannot be treated as identical. Since by the award gratuity might be due on retirement the present claim is unsustainable since the workers terminated their services not by retirement but by resignation. This is a plausible argument but on close scrutiny it is found unworthy of acceptance. The dictionary meaning of the word "retire" is to give up office or profession or employment or candidature. Resignation has the same implication. Gratuity is a retiring benefit which is provided in recognition of past services of an employee. The word retirement used in this context in the award means no more than termination of service otherwise than by punishment or retrenchment. Resignation, to my mind, is indistinguishable from voluntary retirement. The term retirement as used in the award includes voluntary retirement. As in my estimation resignation is equivalent to voluntary retirement the workers who resigned are not outside the category of workers to whom this provision was intended to be applicable. My conclusion therefore is that the 14 workers whose case is under adjudication are entitled to gratuity as they have rendered more than 15 years' continuous service according to the chart attached to the Union's written statement which has not been shown to be incorrect. Gratuity was payable for the period before the Provident Fund was created. No evidence has been placed before me as to when the Provident Fund came into being. The issue as framed requires the Tribunal only to decide whether these workmen are entitled to receive gratuity and, if so, at what rate? The Tribunal is not called upon to ascertain the amount or the period for which gratuity can be claimed. Only one of the workmen under reference had to his credit 15 years' service. All the others had been in service for more than 15 years. They are entitled to receive gratuity at the rate of half month's basic wages for each completed year of service, subject to a maximum of 15 months' basic wages. The Union's chart be made part of the award as annexure.

(Case No. VIII-78 of 1956.)

BEFORE THE SECOND INDUSTRIAL TRIBUNAL, WEST BENGAL

PRESENT:

SHRI G. P. MUKHERJEE, *Judge, Second Industrial Tribunal.*

Appearances:

For the employee: Shri Parimal Das, President, Shew Shakti Oil Mills Mazdoor Congress.

For the Company: Shri S. C. Sen, Advocate.

The Government of West Bengal, Labour Department, by its order No. 774-I.R./D/15L-12/56, dated 9th March 1957, referred the above dispute to this Tribunal for adjudication.

The issue as contained in the schedule to the order of reference stands as follows:—

Whether the dismissal of Shri Puranmal Kayal is justified? What relief (including reinstatement) is he entitled to?

AWARD

The case of Shri Puranmal Kayal was taken up by the Union. The Union in its written statement has stated that Shri Puranmal Kayal was serving in Messrs. Shree Shew Shakti Oil Mills, Ltd. (hereinafter to be called the Company) since July 1952 as a cashier. In November 1954 he was transferred to the factory from the Head Office, and worked there as cashier till 19th February 1955, when he made over charge to Shri Raj Narayan Sharma, who returned to resume his duties on the expiry of leave. On 14th February 1955 while Shri Kayal was acting as cashier in the

factory, a Jamadar of Messrs. Jalan & Co., came to the factory with a bag said to contain Rs. 530 in loose coins during the late hours in the day, and wanted to tender the same in payment of certain bill of the Company. As the question of counting and checking of such a big amount of loose coins was there, Shri Kayal refused to accept the same on that date, and asked the Jamadar to come on the following day. At this, the said Jamadar approached the Secretary, Shri Onkarmal Saraf. Shri Kayal was told by the Secretary to accept the bag and keep it with him intact and unaccounted for without giving any receipt of the same to the Jamadar of Jalan & Co. till such time when the said Jamadar would call upon him again in order to tender the amount formally and supervise the counting. Accordingly, the said bag of loose coins was kept by Shri Kayal in the safe inside the cash room. But the Jamadar did not turn up within 19th February 1955, when Shri Puranmal Kayal handed over charge of the cash including the said bag of loose coins to Shri Raj Narayan Sharma. Shri Kayal gave all connected information of the said bag of loose coins to Shri Sharma. But on 14th March 1955 Shri Kayal was charge-sheeted and suspended for 3 days on the alleged ground that Rs. 530 was found in excess and unaccounted for in the cash, while he was working in the Mills as cashier. Shri Kayal gave due reply to the said charge-sheet. In spite of this, he was dismissed from service. This action of the Company has been stigmatised to be unjustified, vindictive and *mala fide*. It was alleged that Shri Kayal was victimised because of his membership and allegiance to the Union. Labour Directorate was moved in the matter and conciliation proceedings followed. As the conciliation proceedings yielded no result, the matter has been referred to the Tribunal. Reinstatement with full wages for the period of his forced unemployment has been claimed.

The Company in its written statement has denied most of the allegations as made by the Union. In the first place, it is contended by the Company that the order of reference is bad in law, inasmuch as it is not an industrial dispute, as it is a dispute between the Company and one single workman. It has further been contended that the Union by championing the cause of the dismissed workman cannot convert an individual dispute into an industrial dispute, because on the date of reference none of the workmen in service was a member of the said Union. Regarding the merits of the case, the Company has stated that on or about the second week of March 1955 Messrs. Jalan & Co., complained that although they made payment of Rs. 530 in cash against one bill to the Mill cashier Shri Puranmal Kayal, the Company's collecting Jamadar came to them again for collection against the said bill. At this, an enquiry was made and it was found that the said amount of Rs. 530 was not entered into the cash book. Shri Kayal who was the then cashier was asked about this, and he admitted the acceptance of the money, and said that as the Jamadar of Messrs. Jalan & Co., brought the amount in loose coins, he did not count the same and kept the bag said to contain the loose coins in the iron safe. The money in question was found in the iron safe. The Management, therefore, on 14th March 1955 issued a charge-sheet for gross negligence of duty on the part of Shri Puranmal Kayal, inasmuch as he did not send the said amount to the Head Office with a note on the day following its receipt by him. Shri Kayal replied to this charge-sheet on 15th March 1955. He stated in his reply that the Secretary, Shri Onkarmal Saraf, asked him to accept the money in question without counting the same. This allegation, on enquiry from Shri Onkarmal Saraf, was found to be totally false. The Management after considering the case fully, decided to dismiss him from service, and a notice of dismissal was given to him on 19th March 1955. He was permitted to prefer an appeal to the Board of Directors, if he so desired.

Shri Kayal preferred such an appeal to the Board of Directors, who considered the matter thoroughly. But the appeal was dismissed, and the decision of the Board was duly communicated to Shri Kayal. The Company finally denied that Shri Kayal was victimised because of his membership and allegiance to the Union.

Admittedly, Shri Puranmal Kayal was working as cashier in the Mills on 14th February 1955. It is also an admitted fact that on that date, a Jamadar of Messrs. Jalan & Co., came to deposit Rs. 530 in loose coins in a bag to the cashier of the Mills Shri Puranmal Kayal against payment of certain bill of the Company. It also stands admitted that Shri Kayal at first refused to accept the said bag from the Jamadar, and that on Jamadar's approaching the Secretary, Shri Onkarmal Saraf, Shri Kayal had to receive the same at the direction of Shri Saraf. That Shri Kayal kept that bag inside the safe in the cash room on that very date, and that it was subsequently found intact there stand also admitted. Shri Kayal did not misappropriate the money kept in that bag, nor did he remove that bag from the cash room. The bag was found intact inside the safe in the cash room, and it was recovered from that very cash room. It is not also the case of the Company that Shri Kayal misappropriated the said money or removed the same elsewhere at any time. Shri Kayal admittedly acted as cashier in the Mill till 19th February 1955, when he made over charge to Shri Raj Narayan Sharma. The dispute between the parties centres round the question as to whether Shri Kayal was asked by Shri Onkarmal Saraf, Secretary, to accept the bag and keep the same with him intact and unaccounted for till such time when the Jamadar of Messrs. Jalan & Co., called upon him again to tender the amount formally. It is the Union's case that Shri Kayal was asked so by the Secretary Shri Onkarmal Saraf. But the Company's version in the written statement is that this allegation, on enquiry from Shri Saraf, was found to be totally false. Before the Tribunal, both Shri Puranmal Kayal and Shri Onkarmal Saraf have deposed. Shri Kayal is P.W. 1, while Shri Saraf is O.P.W. 3. Shri Kayal has deposed on oath that as he refused to accept the amount of Rs. 530 in loose coins, the Jamadar of Messrs. Jalan & Co., approached the Secretary Shri Onkarmal Saraf, who asked him to keep the bag intact. He has further said that the Secretary also told him that the Jamadar would come on the following day, when he would count the coins and deposit the same, and that at this he accepted the said bag of loose coins and kept it inside the safe in the cash room. Shri Onkarmal Saraf, who is O.P.W. 3, has admitted that he told Shri Kayal to accept the money from the Jamadar of Messrs. Jalan & Co. But he has denied that he had asked Shri Kayal to keep the money unaccounted for till the said Jamadar came again in order to deposit the amount formally. He went to the length of saying even that there was no such talk between him and Shri Puranmal Kayal that the Jamadar of Messrs. Jalan & Co., would come next day for counting of the loose coins kept in the bag. I have given my due consideration to the statements as made by Shri Puranmal Kayal and Shri Onkarmal Saraf. I am prepared to accept the statement of Shri Kayal in preference to that of Shri Saraf. In my view, Shri Saraf did not speak the truth in this respect. The Labour Commissioner's file was called for by the Tribunal. It appears from the said file that Shri Saraf, Secretary of the Company, admitted before the Conciliation Officer that on 14th February 1955 when Shri Kayal refused to accept the money brought by a Jamadar of Messrs. Jalan & Co. he asked him to keep the bag in his custody so as to avoid trouble for the Jamadar, who was asked to come within a day or two when the money would be counted and deposited. In the face of such admission by Shri Onkarmal Saraf before the Conciliation Officer, his version before

the Tribunal that he had no such talk with Shri Puranmal Kayal, cannot at all be believed. It is the Union's case that no Jamadar from Messrs. Jalan & Co., came till 19th February 1955 made over charge as cashier of the Mill. The Company has not succeeded in showing that any man from Messrs. Jalan & Co. came for counting the loose coins kept in that bag before 19th February 1955. It is also the case of the Union that Shri Kayal at the time of his transfer on 19th February 1955 to the Head Office handed over complete charge of the cash including the said bag of loose coins with all its connected information to the new cashier Shri Raj Narayan Sharma, and that Shri Sharma took charge of the cash with his full satisfaction and after due signature on the cash book and daily cash abstract, which were also signed by the Mill Manager and the Secretary of the Company. Shri Kayal has also stated on oath that on 19th February 1955 he handed over charge of the cash including the said bag of loose coins together with all the registers to the new cashier, and that the cash books were duly signed by the new cashier and the Secretary. Shri Raj Narayan Sharma has been examined in this case on behalf of the Company. He is O.P.W. 2. He has admitted in his examination-in-chief that while taking over charge from Shri Kayal, the latter made over the cash that was written in the book. But he had the temerity of saying that Shri Kayal did not point out to him any bag containing loose coins in the cash room, and that he saw the said bag a few days after he took over charge. He has further stated that he asked Shri Kayal about the bag, who told him that some party had kept that bag containing loose coins. To my mind, the version of Shri Raj Narayan Sharma (O.P.W. 2) that Shri Kayal did not tell him anything about the said bag of loose coins or did not point out it to him in the cash room while making over charge on 19th February 1955, is unworthy of credit. I am prepared to believe the statement of Shri Kayal that he made in this respect. The cash book and other documents relating to the cash account on 19th February 1955 on which date the new cashier Shri Raj Narayan Sharma took over charge were material for the purpose. But it is strange indeed that the Company failed to produce the same before the Tribunal and also before the Conciliation Officer. On a consideration of the materials placed before the Tribunal, I am disposed to hold that Shri Puranmal Kayal had to accept the bag containing loose coins on 14th February 1955 at the direction of Shri Onkarmal Saraf, Secretary, and that he was asked by Shri Saraf to keep the bag with him intact and unaccounted for till such time when the Jamadar who brought the said bag containing loose coins called upon him again in order to tender the amount formally. Shri Kayal carried out the orders of the Secretary, and kept the bag of loose coins in the safe in the cash room. But as the Jamadar did not turn up within 19th February 1955, and as he was to make over charge on that date, he had to leave that bag where it was and tell only the new cashier Shri Raj Narayan Sharma about it at the time of making over charge as cashier of the factory. As the Secretary was in the know of the thing, he did not think it worthwhile to report in writing about the said bag before he made over charge. I wonder also how the new cashier could take over charge from Shri Kayal on 19th February 1955 without receiving or noticing the bag containing Rs. 530 in loose coins, which was kept inside the safe in the cash room. I must confess that there was an error of judgment on the part of Shri Kayal in not reporting in writing either to the superior officers of the Mill or to the Head Office about this bag containing loose coins. As cashier, he should have done this. But in my view, this lapse on his part was not so serious as to merit his dismissal from service. He had no dishonest intention whatsoever. What he did, he did in full faith. He accepted the bag containing loose coins and

kept the same intact and unaccounted for till 19th February 1955 at the direction of the Secretary Shri Onkarmal Saraf in the expectation that the Jamadar from Jalan & Co. would come to deposit the same formally after counting. But unfortunately, no one from Jalan & Co. did come till 19th February 1955, when Shri Kayal was to make over charge. But the stubborn fact remains that the bag was kept in the cash room and was found intact by the new cashier Shri Raj Narayan Sharma even on 14th March 1955. Shri Kayal did not touch the same or remove it elsewhere. So, his honesty and integrity cannot be questioned in any way. Looking at the case from all stand-points, I find that the dismissal of Shri Puranmal Kayal, who had been serving this Company since July 1952, was absolutely unjustified. The decision of the Management in this respect cannot be supported or upheld. In my view, there was want of bona fides on the part of the Management, and its decision in dismissing Shri Kayal was perverse and prompted by extraneous considerations. It has transpired from the evidence that Shri Kayal became a member of the Union some time in November 1954, that is while he was working in the Mills of the Company. This, in my view, enraged the Company, and the Management was on the look-out to victimise him on some pretext or other.

So, on a consideration of the matter, I direct that Shri Puranmal Kayal be reinstated. He must be reinstated within one month of the award coming into operation. He be granted in this circumstances half pay and allowance, if any, from the date of his dismissal till the date of his reinstatement. No other compensation is called for or allowed. Be it further noted that the period of his forced unemployment should not be regarded as a break in service for the purpose of benefits, to which he may be entitled.

Before I part with the case, I should dispose of one or two objections set up by the Company. The Company has pointed out that this was an individual dispute. Individual dispute *per se* is not an industrial dispute. But such individual dispute can be converted into an industrial dispute, if the cause of the employee concerned is espoused by a Union or a number of workmen. Here in the present case, it has been satisfactorily proved that the case of Shri Kayal was taken up by the Union, of which he is a member So, it can no longer be held to be an individual dispute. Furthermore, it appears from the file of the Labour Commissioner that the Secretary of the Union along with Shri Kayal appeared before the Conciliation Officer and took part in the conciliation meeting. Before the Tribunal also, the Union represented the case of Shri Kayal. In view of the fact that the cause of Shri Kayal was taken up by the Union, the dispute which was originally between an employer and a single employee, was converted into an industrial dispute. The recent decision of the Hon'ble Supreme Court of India on this point in the case of Newspapers, Ltd., *versus* State Industrial Tribunal, U.P., and others, has been reported in (1957-58) 12 F.J.R., page 129.

At the time of trial, evidence was led on behalf of the Company that the business of this Company was transferred to Messrs. Kashi Ujjak Ltd. with effect from 1st July 1956 by lease. At the very outset, I may say that the Company has not stated the fact of the alleged transfer of its business in its original written statement, nor did it specifically state about the transfer of its business to Messrs. Kashi Ujjak Ltd., in the additional written statement also that was filed on behalf of the Company on 22nd August 1956 before the Tribunal. The Tribunal must not and should not depart from the pleadings—the written statements filed by the parties. If the Tribunal does so, it will misdirect itself. Such a practice has been

severely condemned by the Supreme Court of India in its decision in the case of J. K. Iron & Steel Co., Ltd. [1956(i) L.L.J. 227]. Their lordships in that case observed: "It is not open to the Tribunals to fly off into a tangent disregarding the pleadings and reaching any conclusion they think just and proper". Furthermore, in the present case no document of lease as alleged has been produced before the Tribunal, nor anybody on behalf of Messrs Kashi Ujjak Ltd., has been examined. Then again, it has transpired from the evidence of the witnesses examined by the Company that the old employees of this Company are also working in Messrs. Kashi Ujjak Ltd. O.P.W. 1 Shri D. K. Bhattacharjee, who is the Mill Manager, was also constrained to admit in his cross-examination that no notice of the alleged transfer of the Company's business to Messrs. Kashi Ujjak Ltd. was given to any of the employees. Under the circumstances, the Tribunal is not prepared to take any note of the alleged transfer. Even if it be assumed that there has been any document for such transfer of business, I would say that it was *mala fide* and was made with some ulterior motive and purpose. The legal objections are thus disposed of.

This is my award in the present case.

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to pubulish the said award as shown in the annexure hereto.

ANNEXURE

In the matter of a complaint under section 33A of the Industrial Disputes Act, 1947, filed by one Shri Ram Singh, Peon No. 70, of the Statesman Private Limited, Chowringhee, Calcutta, against the aforesaid Company.

BEFORE THE FIFTH INDUSTRIAL TRIBUNAL, WEST BENGAL

PRESENT:

SHRI G. PALIT, *Judge, Fifth Industrial Tribunal.*

Present for the petitioner: SHRI D. L. Sen Gupta, Advocate.

Present for the Company: SHRI J. K. Ghosh, Advocate.

The original reference out of which this case has arisen was made under Government order No. 4202Dis./D/13L-7(A)/55, dated the 19th September 1956.

2. It is the contention of the petitioner that the Tribunal has already given a finding in the main case that it is an individual dispute, and that it is not tenable legally. Section 33, the contravention of which gives rise to a case under section 33A of the Industrial Disputes Act, contemplates that there should be an industrial dispute pending. It is only during the pendency of an industrial dispute that alteration of service conditions has been put under a ban subject to the written permission of the Tribunal. But if there is no industrial dispute, then the case under section 33A cannot lie. In this view of the matter, the learned Advocate of the petitioner wants to withdraw the case under section 33A of the Act. The learned Advocate of the Company opposes such withdrawal and contends that it should be dismissed, and that no fresh permission should be reserved to bring a fresh reference on such a cause of action. I am afraid, there is some confusion regarding the precise scope of a case under section 33A of the Act. If a case under section 33A is dropped for non-prosecution, or

even if it is dismissed on contest, still a reference under section 10 of the Act is not manifestly barred. Section 33A provides for an expeditious remedy, and that without the intervention of elaborate proceeding in securing the permission of the Government for a reference under section 10. But this does not mean that the alternative relief under section 10 of the Act is barred simply because the case under section 33A is found to be untenable. When law provides a remedy under section 10, it is redundant on the part of the aggrieved party under section 33A to ask for the permission from the Tribunal to enable it to bring a case under section 10 on the same cause of action. Similar provision was inserted in the Civil Procedure Code because the second case on the same cause of action could not lie without such permission being reserved consequent upon the withdrawal of the case. So here the permission sought for is not given as being superflous or uncalled for. I, however, accept the contention of the petitioner that the case under section 33A cannot lie in the circumstances, and so I permit the application under section 33A of the Act to be withdrawn. This is my award.

BEFORE THE SIXTH INDUSTRIAL TRIBUNAL, WEST BENGAL.

PRESENT:

SHRI SAILESH SENGUPTA, *Judge, Sixth Industrial Tribunal.*

In this reference made by Labour Department order No. 4013Dis./D/13L-13/56, dated Calcutta, the 7th September 1956, Government has called for an adjudication on the points mentioned below:—

(1) Whether Shri Ramacharya Pandey worked as a journalist in the Vishwamitra?

(2) Is canvassing for advertisement a part of journalists' duty?

(3) Whether Shri Ramacharya Pandey has been a victim of unfair labour practice?

(4) To what relief is he entitled in any of the circumstances aforesaid?

Parties presented their respective cases in the written statements filed and got prepared to fight out the issues. Thereafter an attempt to reach agreement was made. Negotiations started with that end in view bore fruit. The employee accepted adequate compensation and filed a petition that his grievances were set at rest. The reference is accordingly disposed of on the finding that parties have settled the differences and the employee has obtained satisfaction.

ANNEXURE

In the matter of an industrial dispute between Messrs. Dey & Co., Ltd., 56 Netaji Subhas Road, Calcutta-1, and one of their employees Shri Harendra Krishna Ghosh, represented by the Shop Assistants' Association, 7 Padmapukur Road, Calcutta-20. (Case No. VIII 286/56.).

BEFORE THE SECOND INDUSTRIAL TRIBUNAL, WEST BENGAL.

PRESENT:

SHRI G. P. MUKHERJEE, *Judge, Second Industrial Tribunal.*

Appearances:

For the employee: Shri Nikunja Behari Dutta, General Secretary, Shop Assistants' Association.

For the Company: Shri Satyendra Kumar Dey, one of the Directors of the Company.

This reference made by the Government of West Bengal, Labour Department, under order No. 4296Dis./D/11L-311/56, dated 26th September 1956, relates to the amount of compensation which Shri Harendra Krishna Ghosh is entitled to get for his dismissal from service.

AWARD

Shri Harendra Krishna Ghosh was an employee of Messrs. Dey & Co., Ltd., and he worked there as a typist-*cum*-clerk from 21st June 1954 to 10th April 1956. His services were all on a sudden terminated on 10th April 1956. On that date the employer firm asked him to go out of the office, which he did forthwith, and he was never asked to attend his duties again. He was asked to go out of the office on a frivolous charge of late attendance which led to exchange of hot words, giving provocation by some unpleasant utterance of the Managing Director. He made repeated prayers for his legal dues, but the employer firm paid no heed to the same. So, he approached the Labour Commissioner, and in a conciliation meeting a proposal of settlement was made. But as it was not acceptable to Shri Ghosh, no settlement could be arrived at. Ultimately, the matter was

referred to the Tribunal for adjudication. One month's notice pay and retrenchment relief together with pay for 10 days from 1st April 1956 to 10th April 1956 were claimed.

The employer's case is that Shri Harendra Krishna Ghosh was taken as a temporary assistant on 21st June 1954 on a salary of Rs. 53, per month and that he was employed on that basis till 10th April 1956. He was a habitual late comer, for which he was warned several times, but he did not mend his ways. On 10th April 1956 when he came late to the office, he was asked about the delay, but he lost his balance and began to reply most insolently, and left the office saying that he would not attend office from next date.

In this case, Shri Harendra Krishna Ghosh has deposed, while on behalf of the employer, one of the Directors—Shri Satyendra Kumar Dey has been examined. I have perused the evidence of these two witnesses. On a consideration of the evidence, I am prepared to believe the version of Shri Ghosh that on 10th April 1956 the employer asked him to get out of the office for his late attendance on that date. I am not prepared to accept the version of O. P. W. 1 Shri Satyendra Kumar Dey that Shri Ghosh left the office of his own accord on that date saying that he would no more attend office from next day. I cannot persuade myself to believe that an employee like Shri Ghosh in the present hard days would himself throw up the job and go way willingly from the office. Shri Ghosh has deposed that he was occasionally late in attending the office, but he has denied that he was a habitual late comer. He has also stated on oath that he was never warned either verbally or in writing for his late attendance. The employer has not also succeeded in substantiating that he was a habitual late comer by any evidence worth the name and credit. The attendance register has not also been produced by the employer. That document would have shown whether this employee was a habitual late comer or not. O. P. W. 1 Shri Satyendra Kumar Dey has stated that they did not maintain any attendance register. This can hardly be believed. No material has been produced before the Tribunal to show that the work of Shri Ghosh was unsatisfactory. On a consideration of the matter, I hold that Shri Harendra Krishna Ghosh was discharged from service on 10th April 1956, and that he did not voluntarily give up his job as alleged by the employer. I am satisfied that on 10th April 1956 while he came to the office late, he was rudely treated by the Management and was asked to clear out. Accordingly, it can be safely concluded that Shri Ghosh was sacked capriciously. It is also strange that he was neither charge-sheeted nor was any opportunity given to him to explain his conduct before terminating his services. Even no notice of discharge was given to him. In the circumstances, I am of the view that Shri Harendra Krishna Ghosh is entitled to get compensation for abrupt termination of his service by the employer. That he used to get Rs. 53 as his pay per month is an admitted fact. It also stands admitted that he worked in this Company from 21st June 1954 to 10th April 1956, that for 1 year and 10 months. I, therefore, award him (i) compensation equivalant to 15 days' average pay for every completed year of service or any part thereof in excess of 6 months, which will be one month's pay, that is Rs. 53 and (ii) one month's pay, that is Rs. 53 in lieu of notice. He will also get his pay for 10 days from 1st April 1956 to 10th April 1956 when he actually worked, as the employer has admitted that the pay for that period is due to him. From this amount, Rs. 16 should be deducted, which Shri Ghosh took by way of advance. No other compensation is called for in this case. The payments as directed above be made

to Shri Harendra Krishna Ghosh within one month from the date of publication of this award in the *Calcutta Gazette*.

This is my award.

ANNEXURE

In the matter of an industrial dispute existing between Messrs. General Electric Co. of India, Ltd., Magnet House, 6 Chittaranjan Avenue, Calcutta-13, and their workmen represented by the G.E.C. Staff Union, Magnet House, 6 Chittaranjan Avenue, Calcutta-13. (Case No. VIII-208 of 1955.)

BEFORE THE SIXTH INDUSTRIAL TRIBUNAL, WEST BENGAL

PRESENT:

SHRI SAILESH SENGUPTA, *Judge, Sixth Industrial Tribunal*

This reference made by Government order No. 2866Dis./D/10L-38/55, dated Calcutta, the 28th June 1955, centres round some of the cardinal items of the conditions of service as well as a claim for bonus for 1953 and 1954.

The points for adjudication are in the following terms:—

(1) Grade and scales of pay.

(2) Leave.

(3) Retiring benefits.

(4) Medical aid.

(5) Bonus for the years ending March 1953 and March 1954.

Parties filed written statements and got ready for final hearing. At this stage negotiations carried on for reaching an amicable settlement of the disputes were crowned with success. Terms of agreement were recorded in a petition of compromise presented to the Tribunal for an award on the basis thereof. Having considered the terms, I am satisfied that these would allay the disputes and would ultimately prove advantageous for securing industrial peace. The compromise is therefore accepted and an award is made on the basis thereof. The petition of compromise will form a part of the award as Annexure "A".

Judge, Sixth Industrial Tribunal.

AWARD

Decisions

Issue No. 1.—The Union states that the First Jute Textile Industry Tribunal by its award, dated 20th August 1948, laid down certain rules with regard to the recruitment of permanent and *budli* workers in paragraph 12(7), under Issue No. 11 of the award, directing that all appointments of permanent and temporary workers should be made, as far as practicable, in accordance with the recommendations of the Labour Officer-in-charge of the Labour Bureau of the Mill. It is further stated that rules and regulations relating to recruitment and appointment of

permanent workers, registration and appointment of *budlis* have been incorporated in the Standing Orders prescribed for the Jute Mill Companies in the said award. The Union states that the Company has been flouting these directions to the prejudice of the workmen causing discontent amongst the workers of the Company. The Union, therefore, prays that the Tribunal should direct the Management to follow the directions of the First Jute Textile Tribunal Award relating to recruitment of permanent and *budli* workers.

The Company in its written statement states on this point that the Management has fully implemented the First Jute Textile Tribunal Award in regard to the recruitment of permanent and *budli* hands and has for this purpose a well-established Labour Office at the Mill which is governed by elaborate rules and procedure for the recruitment and general service conditions of all the workers in the Mill. The Labour Office was established in 1939, and continues to function under the guidance and supervision of the Senior Labour Officer of the Mill, with the help of the Junior Labour Officer and the Welfare Supervisor and an establishment of 10 clerical staff. The recruitment of workers is generally done through the Labour Office in accordance with the Labour Bureau Rules introduced in the Industry according to the spirit of the recommendations of the First Jute Textile Tribunal.

Evidence was adduced by both parties on the issues referred to the Tribunal for adjudication. P.W. 1 Md. Safiuddin, Joint Secretary of the Victoria Mill Committee of the Union, and P.W. 2 Khedu, a *budli* Weaver of the Mill, deposed for the Union. Documents Exts. 1, 2 and 3 were marked for the Union. O.P.W. 1 Mr. W. H. Jacks, the Chief Labour Officer of the Managing Agents, Messrs. Thomas Duff & Co., deposed for the Company. Documents Exts. A to D were marked for the Company.

P.W. 1 Md. Safiuddin, states that the dispute started in 1955, and he had correspondence with the Assistant Labour Commissioner, and Exts. 1, 2 and 3 are those letters. Exhibit 2, dated 2nd September 1955, relates to a complaint of the Union on the present issue. This letter was addressed to the Labour Commissioner, Government of West Bengal. It states that although the award of the First Jute Textile Tribunal in 1948, directed that the employment of Sardars for recruitment of labour should be abolished forthwith, the evil of recruitment of workers by Sardars has not been yet eliminated from this Mill. The evidence of P.W. 1 Mr. Jacks, shows that the directions of the First Jute Textile Tribunal Award that recruitment of labour should be made as far as possible through the Labour Department of the Mill and not through other agencies, as for example, Sardars, etc., is scrupulously followed in this Mill and all appointments are made through the Labour Office.

Some instances of employment of labour through the agencies of Departmental Sardars have been mentioned in Ext. 2. P.W. 1 did not adduce any evidence to prove the contents of the letter, Ext. 2, by his personal testimony. In consideration of the fact that O.P.W. 1, Mr. Jacks, the Chief Labour Officer, denies that any recruitment of labour was made except through the Labour Bureau, I do not lay any importance on the allegations mentioned in the letter, Ext. 2, regarding recruitment of labour through Sardars. The First Jute Textile Tribunal Award made in August 1948, after a detailed consideration of the matter, directed that the employment of Sardars for recruiting labour or of vesting Sardars with powers of interfering with the appointment or discharge of workers, permanent or temporary, should cease. The Indian

Jute Mills Association agreed to the immediate abolition of the Sardari system of recruitment or discharge of labour. I do not believe that the system of employment of Sardars for recruitment or discharge of workers is resorted to in the Victoria Jute Mills. Even then, I repeat here the directions of the First Jute Textile Tribunal Award made in 1948, that the system of employment of Sardars for recruiting labour or vesting Sardars with powers of interfering with the appointment or discharge of workers, permanent or temporary, should not come into existence in the Victoria Jute Mills. There is a Labour Bureau functioning in the Victoria Jute Mills, since 1939, under the supervision of a Senior Labour Officer, who is assisted by a Junior Labour Officer, the Welfare Supervisor and an establishment of 10 clerical staff. O.P.W. 1, Mr. Jacks, states that recruitment of permanent and *budli* workers is made by the Labour Bureau in accordance with the directions of the First Jute Textile Tribunal Award incorporated in paragraph 12(7), at page 55. I accept the statement and direct that this system of appointment of permanent and temporary workers should continue.

Issue No. 2.—The complaint of the Union in regard to this Issue is as follows.

The Management has been for a long time refraining from filling up the vacancies in the Weaving Department and reducing the permanent cadre. Looms in respect of which there have been permanent vacancies are being worked by temporary hands and *budlis* for indefinite periods without filling up the vacancies according to the directions of the First Major Jute Textile Tribunal.

The Company, in its written statement, states that the permanent cadre in the Weaving Department is fixed, but the number of looms operating vary frequently due to the sealing and unsealing of looms depending on the trading condition of the Industry. The Company is not in a position to increase their permanent cadre in the Weaving Department only for temporary vacancies created by the unsealing of looms for a short period. The need to absorb surplus workers of other departments of the Mill due to modernisation plans has made it necessary to keep a number of permanent vacancies in the Weaving Department for this purpose. In addition to this factor, the Company has been considering for some time past, the modernisation of the hessian side of the Weaving Department, under which by the introduction of the automatic shuttle, it would be possible for a worker to work two narrow hessian looms.

The letter, Ext. 1, dated 11th October 1955, written by the Joint Secretary of the Union to the Assistant Labour Commissioner, shows the complaint that a number of looms were being continuously operated by *budli* weavers. The letter shows that there are 17 such looms in Mill Nos. 1 and 26, such looms in Mill No. 2. The Union wants the looms to be worked by permanent workers. The claim is for appointment of permanent weavers for these vacant looms. O.P.W. 1 Mr. Jacks states that there are 1,331 looms installed in the Victoria Jute Works. Twelve-half per cent. of this loomage is lying sealed, and the working loomage is 1,165. The working complement of weavers is 1,165, as the looms work singly. Of these 1,165 looms, 1,144 looms are attached to permanent weavers. The witness, however, states that the permanent cadre of the weavers in the Mill is only 965. The basis of his calculation is as follows: In addition to the sealing of 12½ per cent. of the total looms, the Company also takes account of a further 7½ per cent. of the total loomage as sealed to allow them to adjust the loom hours permitted

under the Industries Working Time Agreement so as to adjust a 48-hour working week against a short working week of 42½ hours. It is further stated that the Company is to take account of its plans to introduce double operation throughout the narrow hessian looms. Exhibit B shows the statement of the permanent complement in the Weaving Department of the Victoria Jute Works. It shows the total number of looms as 1,331 and the total number of looms working leaving 12½ per cent. of the looms sealed, as 1,165. It further shows that 965 is the basic fixed loomage required according to the Working Time Agreement of the Industry based on 42½ hours working week converted to 48 hours with 12½ per cent. of looms at present sealed and a further sealing of 7½ per cent. It is also stated here that rationalisation plans in the Weaving Department itself by the introduction of double operation on the narrow fabric hessian looms requiring 50 weavers against 100 at present employed on these fabrics is under immediate consideration. It also appears on this statement that modernisation plans in the Mill would render an unspecified number of workers surplus who have been absorbed in permanent vacancies throughout the Mill including the Weaving Department, of whom 50 of such surplus workers from other departments have been absorbed in the Weaving Department as permanent weavers. This statement also shows that the present working complement of weavers is 1,165, of whom there are 1,144 permanent workers. The statement states further that the excess over permanent cadre is 179. The evidence of Mr. Jacks also states that the permanent cadre is really 965 and inasmuch as there are 1,144 permanent weavers working in the Mill, there is an excess of 179 permanent weavers. The present picture, therefore, is that out of 1,165 working looms, there are 1,144 permanent weavers and 21 *budli* weavers. The cross-examination of Mr. Jacks shows that in the beginning of 1956, there were 47 looms manned by temporary workers and therefore 47 vacancies, although they were not in reality vacancies, as explained above. At the present time, there are 21 looms worked by 21 *budli* workers. He states further that he has transferred 50 permanent workers of other departments to the Weaving Department and of these, 15 were from Calendering Section, 10 from the Batching and 10 from the Spinning Department. Thirteen *budli* weavers were also confirmed during the last year.

The learned Advocate for the Union does not admit the calculations deducing the permanent cadre of the weavers at 965. This calculation is questioned as hypothetical and imaginary. I am not prepared to lay much stress on the plea that the basic fixed loomage required according to the Working Time Agreement of the Industry is 965. 42½ hours is not the basic working week of the Industry according to the Working Time Agreement of the Industry, which is in force for five years from 12th December 1954. This new Working Time Agreement which is in force for five years from 12th December 1954, provides for a minimum working week of 45 hours (*vide* award of the Third Jute Textile Industry Tribunal, page 54). I do not find any necessity for making a provision of further sealing of 7½ per cent. of the loomage. It is unnecessary for me in this proceeding to state what the permanent cadre of the Weaving Department of the Victoria Jute Works should be. I find, however, that the permanent cadre which is current at the present time in the Weaving Department of the Mill is 1,165, of which 1,144 have been filled up by permanent workers and 21 vacancies are in the occupation of *budli* weavers. In the beginning of 1956, there were 47 such vacancies and many other vacancies also cropped up since then. According to the evidence of Mr. Jacks, 50 vacancies in the Weaving Department were filled up by permanent workers who were surplus to other departments and 13 *budli* weavers were confirmed during the same period. After absorption of 63 permanent hands, there

still remained 21 vacancies which are being temporarily filled up by *budli* weavers. The claim of the Union is that the Management should fill up the vacancies in the Weaving Department permanently as soon as possible after the creation of vacancies. The learned spokesman for the Company stated that all the vacancies were not filled up for very good reasons and this was to avoid retrenchment of permanent workers in case there was a contraction of the volume of employment on account of rationalisation plans. The learned spokesman for the Company referred me to the recommendations of the First Five-Year Plan at page 590 where it is stated as follows amongst other things:—

"(a) Wherever rationalisation is contemplated, fresh recruitment should be stopped and vacancies due to death and retirement should not be refilled;

(b) Surplus workers should be offered work in other departments wherever possible without causing a break in service and without bringing down their emoluments as far as possible."

The recommendation of the Second Five-Year Plan at page 581 states as follows:—

"The First Five-Year Plan mentioned a number of principles evolved as a result of agreement between the representatives of employers and workers for facilitating the progress of rationalisation. In all cases of rationalisation these principles should be strictly adhered to and should be applied in the spirit in which they were arrived at."

It was also stated by Shri V. V. Giri, the Union Minister of Labour, in the House of the People on 23rd November 1955, that to avoid retrenchment, new vacancies should not be filled up (Ext. D).

The learned spokesman for the Company also referred me to the Press Note of the Government of West Bengal, dated 13th June 1957. In this Press Note, it is emphasised that no rationalisation should be introduced in any unit of the Jute Industry without prior consultation with Government and Government would not countenance any scheme of rationalisation in any industrial unit which might cause involuntary retrenchment of even a single worker. On these authorities, the learned spokesman for the Company stated that the Company should not fill up all vacancies as they crop up, because in such a case, retrenchment of workman is bound to occur when there is a contraction of the volume of employment consequent on sealing of looms or of the reduction of the weekly working hours on account of unfavourable trading conditions. The learned Advocate for the Union pointed out that the weavers of this Mill were working as *budli* for a long time and P.W. 2 Khedu is a *budli* worker for the last 6 or 7 years. In the presence of *budli* workers of such a long standing, permanent workers from other departments, as for example, Batching, Spinning and Calendering Departments, should not be brought into the Weaving Department and appointed as permanent weavers to the exclusion of the long standing *budli* weavers. It was pointed out that such a system results in deterioration of the production of the department. O.P.W. 1, Mr. Jacks, states in evidence that he transferred permanent workers from other departments to the Weaving Department, because these were surplus to their own departments and also because they had previous knowledge of weaving. It has been noted above that the recommendations of the First Five and the Second Five-Year Plans show that surplus workers should be offered work in other departments wherever possible. I cannot, therefore, question the appointment of surplus permanent workers from

Calendering, Batching and Spinning Departments to the Weaving Department of the Victoria Jute Works. It is claimed by the Company that the 21 vacancies which are in the temporary occupation of *budli* weavers were not permanently filled in, in view of the recommendations of the Five-Year Plans that where rationalisation is contemplated, fresh recruitment should be stopped and vacancies due to death and retirement should not be refilled. The learned Advocate for the Union stated that in regard to these 21 vacancies, the appointments of *budli* weavers are made in such a manner that no incumbent can work for a reasonably substantial period of time, as a result of which no *budli* weaver in this Company can qualify himself for Provident Fund benefits.

I have given my most anxious considerations over the question of filling up of these 21 vacancies by *budli* weavers permanently, as was claimed by the Union. I cannot persuade myself to refuse the claim of the Company that these 21 vacancies out of a cadre of 1,165 in the Weaving Department, should be left unfilled to provide for a margin for rationalisation of work in this department by introduction of double operations in narrow hessian looms. Such a conclusion is justified by the recommendations of the authorities mentioned above. The proportion of unfilled vacancies out of a cadre of 1,166, which appears to be the present effective cadre in the Weaving Department of the Victoria Jute Works, is not unreasonably high. I would, however, direct that these 21 vacancies should be filled up by such *budli* weavers who would have been appointed to these vacancies if they were permanently filled up, and they should not be removed from these vacancies until the vacancies disappear or are filled up permanently. This arrangement is necessary, because these 21 vacancies are not leave vacancies, but for the present are permanent vacancies and the incumbents appointed to these vacancies should not be unnecessarily changed from time to time. They will continue as *budli* weavers, but will work under conditions as mentioned above, i.e., should not be removed till the vacancies disappear or are permanently filled up. This issue is accordingly answered.

Issue No. 3.—The Union states in its written statement on this Issue that the Management without any reason or justification has classified the *budli* weavers in three grades, viz., (A), (B) and (C), although the rules and regulations governing the *budlis* do not provide for any such classification. With regard to the cadre of *budlis*, it has always been the custom that the registered *budlis* would constitute 10 per cent. of the total complement of the Mill, and that they would be given work by strict rotation. The Management by classifying the *budlis* have defeated the principle of giving work to *budlis* in strict rotation, and as a result of that, there is unfair discrimination on the part of the Management in giving work to the *budlis*. The Management is also violating the provision of registration of *budlis* and recruiting unregistered *budlis*. The Union claims that the Management should abolish the classification of *budlis* and give work to *budlis* in strict rotation.

The Company, in its written statement, states that in order to improve production efficiency to compete effectively in manufacturing costs, detailed production records of individual weavers are being maintained. The Company has classified the *budlis* into (A), (B) and (C) classes according to their efficiency. Although the system of rotational employment is ensured for all *budlis*, naturally (A) class *budlis* are given priority in filling long-term vacancies and chances of permanency as and when this is necessary. With regard to new workers in the department, such workers before being taken on, have to pass a trade test and be approved by the Overseer concerned, and if proved satisfactory, may be

registered as a *budli* and offered *budli* employment as and when this arises. In peak leave seasons when there is a great shortage of weavers, it is necessary to meet the requirements of the Company by taking on casual and outside workers as are available to keep the Mill running at normal efficiency.

The letter, Ext. 3, dated 11th October 1956, questions the classification of registered *budli* weavers of this Mill. The Union wants (B) and (C) class workers to be classified as (A) class. O.P.W. 1 Mr. Jacks in his evidence states that the method of classification of *budli* weavers is fairest possible in the circumstances, that they classify the *budlis* into four classes, viz., A class, B class, C class and not classified. The classification statement of *budli* weavers appears in Ext. C. The witness states that the Company requires a *budli* force of 10 per cent. of permanent workers which, in this Mill, would be approximately 120. As the weavers take very heavy leave during the peak leave season in April, May and June, and as many as one-third of the weavers go away, to meet this emergency, the Company maintains a large number of *budli* weavers in excess of normal requirments, with the result that about 400 *budli* weavers have been registered in the department to meet this contingency. It is further stated that the Company has classified the *budli* weavers to maintain the standards of efficiency. In cross-examination, the witness states that there is no provision against the classification of *budlis* in the Standing Orders. The rules for registration and appointment of *budlis* will appear in Rules 4 and 5 of the "Other Rules of Service", at pages 166 and 167 of the First Jute Textile Tribunal Award and which have been made part of the Standing Orders of the Jute Mills in West Bengal. The classification of *budlis* into four categories as stated by O.P.W. 1 is inconsistent with the provision that they shall receive employment in strict rotation. Provision for maintenance of efficiency in a *budli* worker has been made in Rule 5(b)(ii). I do not consider that any classification of the *budlis* for maintenance of standards of efficiency is at all necessary, in view of the Rules made in pages 166 and 167 of the First Jute Textile Tribunal Award. There is no objection to casual workers being introduced in the peak leave season, when such recruitment of workers is necessary in the interest of the Industry, but such a contingency happens only for a short period in the year. I consider that the objection of the Union against classification of *budlis* into four categories as shown in Ext. C is justified and the Company should strictly follow Rule Nos. 4 and 5, at pages 166-167 of the First Jute Textile Tribunal Award in regard to registration and appointment of *budli* workers. The rotational employment of *budli* workers should not be disturbed by a classification of the *budlis* into categories. This Issue is accordingly answered.

Issue No. 4.—Issue No. 4 was not pressed by the Union at the time of the hearing and it is not, therefore, answered.

STATEMENT OF OBJECTS AND REASONS

The Ancient Monuments Preservation Act, 1904 at present applies only to ancient historical monuments and records and archaeological sites and remains declared by or under law made by Parliament to be of national importance. But there is no provision for the preservation of historical monuments and objects and for the excavation of archaeological sites in respect of which no such declaration has been made. As the State Legislature has power to legislate on the subject, it is desirable to eliminate this lacuna and remove a long-felt necessity. The Bill has been prepared with this object in view.

ANNEXURE

In the matter of an industrial dispute between Messrs. Khaitan Sons & Co., 2 Dalhousie Square East, Calcutta, and their workman, Shri Khusiman Gurung, represented by the Hindusthan Drivers' Union, 5/1 Russell Street, Calcutta, referred under C.O. No. 1115-I.R./IR/11L-162/57, dated 10th April 1957. (Case No. VIII-C 5 of 1957.)

BEFORE THE FIRST LABOUR COURT, WEST BENGAL

PRESENT:

SHRI N. C. CHATTERJEE, *Judge.*

Appearances:

For the Union: Shri M. A. Quoraishi, Secretary, Hindusthan Drivers' Union.

For the Company: None.

The Government of West Bengal, in the Department of Labour, by order No. 1115-I.R./IR/11L-162/57, dated 10th April 1957, referred under sections 7 and 10 of the Industrial Disputes Act, 1947 (XIV of 1947), the industrial dispute between Messrs. Khaitan Sons & Co., 2 Dalhousie Square East, Calcutta, and their workman, Shri Khusiman Gurung, represented by the Hindusthan Drivers' Union, 5/1 Russell Street, Calcutta, regarding matters specified in the second schedule of the Act, to this Court for adjudication:—

Schedule

Whether the termination of services of Shri Khusiman Gurung was justified? To what relief is he entitled?

AWARD

Decision

The case of the Union is that Shri Khusiman Gurung was appointed as a driver under the Company in the month of October 1952 at an aggregate salary of Rs. 120 per month. He was required to work from 4 a.m. till 8 at night without any overtime allowances and that also on

Government and Public Holidays. In August 1954, Khusiman Gurun demanded overtime allowances for the longer hours of work but the Company suddenly dispensed with his services without any notice, charge-sheet or enquiry for no fault of his. The dismissal of Khusiman Gurung is therefore unjustified, *mala fide* and opposed to the principles of natural justice. Therefore, for the workman, the arrear of his salary for 26 days of the month of August, 1954 and Puja bonus for 1954 and his wages for the period of forced unemployment from the date of his dismissal up to 3rd July 1955, are claimed.

The Company put in a written statement denying that Khusiman Gurung was ever appointed as a driver under the Company and further denies that his pay was Rs. 120 as alleged. All other allegations in the written statement of the Company are denied.

For the Union, the workman was examined and he stated that he was employed in October 1952 and continued in the services of the Company till 26th August 1954 when he was discharged. He has further denied the allegation of his non-employment under the Company. The Company has not adduced any evidence and let the case go undefended on their behalf. I have no reason to disbelieve the testimony of the driver who has generally proved his case excepting that relating to his claim for bonus. As the evidence stands, the driver was dismissed without any fault on his part and there was no charge-sheet and no enquiry. This is a case of arbitrary and capricious dismissal and is not supported by any reason whatsoever and falls nothing short of unfair labour practice. The normal relief in such cases is reinstatement but as the driver has since found a job elsewhere and has not prayed for reinstatement that relief is not granted. No adequate proof of payment of bonus is adduced, so the claim for bonus is rejected. He is found entitled to his wages for 26 days of August 1954 and one month's pay in lieu of notice and he is further found entitled to the retrenchment benefit at the rate of 15 days' pay for the two completed years of service, i.e., Rs. 120 equivalent to one month's pay + Rs. 100-10-3 as his 26 days' pay + Rs. 120 as one month's pay in lieu of notice; thus in all he is entitled to recover Rs. 340-10-3 from the Company which must be paid by the Company to the workman within a month of the publication of this award.

This is my award.

Typed to my dictation and corrected by me.

This is an application under section 33A of the Industrial Disputes Act, presented by Sukdeo Beldar on the ground that he was dismissed by Messrs. Hamirmull Champalal without the leave of the Tribunal during the pendency of a reference proceedings.

Sukdeo Beldar's case is that he was an Assorter (Jachandar) under Messrs. Hamirmull Champalal. The Head Mate used to levy illegal toll from him every fortnight out of his earnings. After having submitted to this form of exaction for sometime Sukdeo Beldar revolted and refused to pay. He also demanded a receipt for money he had so long paid to the Head Mate. Thereupon he was dismissed on 19th July 1956.

The Firm resisted the application on the ground that Sukdeo Beldar was never employed by it. Assorting work is done by a contractor, Bachcha Pandey, who engages his own labourers and draws his dues on bills made out by him. The Firm has no control over the workers engaged by him.

When the case was taken up Sukdeo Beldar did not turn up. The Firm led evidence in support of its case that the applicant was not employed by it. There was no relationship of master and servant between the Firm and the applicant. On this evidence the Tribunal must hold that the application under section 33A of the Industrial Disputes Act is not maintainable inasmuch as Sukdeo Beldar was not a workman serving under Messrs. Hamirmull Champalall. The application is accordingly rejected.

Schedule.

What are the effects of non-employment of Shri Divakar Paul and Shri Durgadas Roy? To what relief are they entitled?

AWARD

DECISION

The case of the National Union of Jute Workers on behalf of the two concerned workmen, viz., (1) Shri Divakar Paul and (2) Shri Durgadas Roy is as follows:

These two workmen were employed in the Labour Office of Messrs. Clive Jute Mills Co., owning two mills, the old and the new Mill. Labour Office had under it the Welfare Department for about 25 years long prior

to the introduction of the ration system in 1944 when the Welfare shop used to serve the Company's employees and the Ration shop served the dependants of the employees. These two departments formed component parts of the same establishment and there were transfers of employees *inter se* between them. The Company maintained a common list of employees of all departments including the Ration Department and the Welfare Department. These departments were not watertight and confirmation of clerks in their posts was made from all departments pooled together.

Dibakar was appointed on 1st January 1944 as an assistant in the Accounts Department of Labour Office. The Ration shop was started in March 1944. Dibakar also kept accounts of the Welfare shop. The Welfare shop and Ration shop were amalgamated in 1947 or thereabout and derationalisation took place in the mid-year of 1954.

Durgadas Roy was appointed on or about July 1947 as a clerk in the Labour Office. He kept records and maintained the attendance register and also collected rents, worked out wages of certain sections of workmen, kept leave roster for labour, etc. He was made permanent on 1st October 1952.

On 3rd August 1954 both Dibakar Paul and Durgadas Roy were refused employment during the pendency of the proceedings of the Major Jute Tribunal. On 4th August 1954 the Manager crossed their names in the attendance register and prevented them from recording their attendance as from that date onwards. No discharge letters were issued to these two workmen, nor was their wages for August 1954 paid. Their non-employment during the pendency of the proceedings of the Major Jute Tribunal contravened the provisions of section 33 of the Industrial Disputes Act. On 29th October 1954, these two workmen put in applications under section 33A of the Industrial Disputes Act where the Company as a counter-blast came forward with applications under section 33 of the Act and took the plea that these workmen were served with notices of lay off on August 1954 which were not in conformity with the standing orders. These workmen have been unjustly kept out of employment and the action of the Company amounts to wrongful discharge.

The Union therefore prays for reinstatement of these two workmen with full wages for the entire period of their non-employment since 3rd August 1954.

The Company put in a written statement contending that this dispute has been adjudicated upon by a previous award published in the *Calcutta Gazette* on 18th August 1955 which is still binding on the parties. In fact, the two workmen were laid off *bona fide* on account of the fact that they became surplus as a result of derationing and the decision of the Tribunal was upheld in appeal. These two workmen are entitled to the benefit of the lay off as laid down under section 25(c) of the Industrial Disputes Act and they cannot be reinstated.

Admittedly there was an award on their applications under section 33A. The awards are published in the *Calcutta Gazette*, dated 18th August 1955 and in the *Extraordinary* issue of the *Calcutta Gazette*, dated September 6, 1955. The former relates to the case of Durgadas and the latter to Divakar Paul. These awards may be referred to and need not be reiterated here. The points referred to by Government in this reference are what are the effect of non-employment of these two workmen and what relief they may lawfully get. It will appear from the aforesaid awards that the Tribunal held that these two workmen will get their full pay up

to 3rd August 1954 and thereafter their lay off commenced as from 4th August 1954. It may also be pointed out that during the pendency of the proceedings of the Major Jute Tribunal, the Company came forward with applications under section 33 subsequent to the filing of the applications under section 33A and these applications under section 33 were rejected by the Tribunal which did not grant permission to the Company to dismiss these two workmen. These awards are also on record. There was an appeal against the award which, however, was rejected. In this connexion it is pertinent to refer to the observations of the learned Appellate Tribunal relating to the prayer and reinstatement on behalf of these two workmen, but as there was no appeal on their behalf this aspect of the matter was not gone into. So there has been no final decision on the effect of the lay off as found by the Tribunal as per awards already referred to.

Now let us look into the attitude of the Company towards these two workmen. The Company practically kept them hanging in the air. The Company passed no orders either dismissing or retrenching them. All that is apparent is that their names were penned through since after 3rd August 1954 (*vide* attendance register Ext. A and Ext A1). Durgadas addressed a letter (copy Ext. 1) on 24th February 1956 asking for Manager's advice as to the date and hour when he could report for duty. This letter remained unreplied to. The attitude of the Company is really inexplicable. It would have been fair on the part of the Company to apprise the workmen of their real position as to whether they stood dismissed or retrenched or laid off. It is really inconceivable that the Company would adopt so unjustified an attitude towards these workmen and keep mum to their great prejudice. The effect of Company's obstinate silence for this long period of over 3 years was to deprive them of their means of subsistence. Owing to Company's not granting any discharge certificate or not dismissing them by express orders they could not seek for fresh employment elsewhere. The Company by their long silence cannot lay them off for an indefinite length of time. Such long period of lay off did not retain its character of lay off as their names were penned through in the attendance register and the Company had no *bona fide* intention to re-employ them at a future stage though they were always willing and agreeable to be re-employed. Therefore, the lay off is virtually tantamount to dismissal. It is not retrenchment either. It will be useful to refer to a ruling reported in 1955 Factories Journal Report, page 449 (M. A. Veiyra *vs.* C. P. Fernandez and others) wherein it is laid down as follows:—

> "It is not open to the employer, and under the cloak of the provision with regard to lay off, to keep his employees in a state of suspended animation and not to make up his mind whether the industry or business would ultimately continue or there would be a permanent stoppage. The very essence of a lay off is that it is a temporary stoppage. It is equally the essence of lay off that within a reasonable period of time the employer expects that the business or the industry would continue and his employees who have been laid off will be restored to their full rights as employees. It is not open to the employer although he knows that the Company are not such that it is possible to resume the work or the business, just to postpone coming to a conclusion and just to put off the evil by continuing with the lay off and not retrench the workmen who have been laid off or whose services would no longer be required. In the definition of lay off there is no indication whatever that it should continue for a particular period of time."

It is also in evidence that the Company did not observe the principle of "last come and first go" in this case as junior assistants, viz., Arabinda Ghosh and Indra Mohan Dey have been retained in service and Dibakar thrown out of employment and Indra Mohan Dey and Prithiraj Keria junior to Durga Das are retained in service while Durga Das is kept out of employment. The evidence in this behalf is not contradicted by any tangible evidence on behalf of the Company. Shri Durgadas Roy was undisputedly a permanent assistant in the Labour Office since 1952 and it has been nothing short of an extremely unfair labour practice to thus throw them out without any reason or justification whatsoever. The present action of the Company in throwing out of employment the two workmen can never be held to be *bona fide* and the normal relief is reinstatement in a case of this type which must be granted.

I must therefore hold that the effect of the indefinite lay off in the case of these two aggrieved employees, circumstanced as they are, is tantamount to dismissal and they must be reinstated by the Company within a month of the publication of the award. They must in all fairness be awarded their outstanding pay for August 1954 and two months' further pay as compensation for the entire period of unemployment within the aforesaid period of the publication of the award.

This is my award.

INTERIM AWARD

The Government of West Bengal, in the Labour Department, by order No. 4452Dis./D/7L-40(A)/56, dated 5th October 1956, referred, under sections 7 and 10 of the Industiral Disputes Act, 1947 (XIV of 1947), the industrial dispute between Messrs. Clive Mills, Co., Ltd., 43/1 Garden Reach Road, Calcutta, and their workmen represented by National Union of Jute Workers, 3 Commercial Buildings, 1st floor, 23 Netaji Subhas Road, Calcutta-1, and Bengal Chatkal Mazdoor Union, 1/1 Garden Reach Road, Calcutta-24, regarding the matters specified in the following schedule to this Tribunal, for adjudication.

Schedule

(1) Whether the refusal of the Management to allow the undermentioned persons to resume work is justified? To what relief are they entitled?—

(a) Kalachand Chatterjee, Head Clerk, Old Mills, Spinning Department.

(b) Ram Chandra Chowdhuri, Head Clerk, Manager's office.

(c) Shib Chandra Sirkar, Assistant Head Clerk, Manager's office.

(d) Azizul Eshan, Store Clerk.

(e) Sudhakar Paul, Head Clerk, Preparing Department, Old Mill.

(2) Whether the period of stoppage of work in the Mill from 7th July 1956, should be treated as lay-off without compensation for the purpose of enabling the workers to enjoy annual leave with wages under the Factories Act?

DECISIONS

This order of reference relates to two issues. The first issue is in regard to the non-employment of five members of the clerical staff. The second issue is in respect of a period of stoppage of work of the Mill.

The National Union of Jute Workers and the Bengal Chatkal Mazdoor Union are the two Unions, who represented the workmen concerned in this proceeding. The National Union of Jute Workers applied for an interim award in respect of the Issue No. 1 and it is stated that whatsoever be the final award, the employees will be entitled to the amount of retiral benefits by way of Provident Fund contributions and gratuity without prejudice to the merits of the case and further that these five employees are in urgent need of immediate pecuniary relief, in view of their difficult financial circumstances. This Union therefore prays that the Tribunal should pass an order directing the Company to pay each employee half of their salaries inclusive of dearness allowance since the date of non-employment till the date of disposal of the case, or alternatively, pay each of the employees a sum of Rs. 1,500 in lump, subject to the final adjustment in the award.

Heard the learned spokesman for the National Union of Jute Workers and the Manager of the Clive Mills. The Manager of the Mills agrees to pay an advance of Rs. 1,500 to each of the employees from their Provident Fund dues, subject to final adjustment in the award. The learned spokesman for the National Union of Jute Workers accepts this proposal.

It is, therefore, awarded that the Company shall pay to each of the five employees, viz.—

(a) Kalachand Chatterjee, Head Clerk, Old Mills, Spinning Department,

(b) Ram Chandra Chowdhuri, Head Clerk, Manager's office,

(c) Shib Chandra Sirkar, Assistant Head Clerk, Manager's office,

(d) Azizul Eshan, Store Clerk; and

(e) Sudhakar Paul, Head Clerk, Preparing Department, Old Mills,

a sum of Rs. 1,500 from their respective Provident Fund dues, within seven days from this date. These amounts shall be adjusted in the final award.

M. C. BANERJI,

Judge, First Industrial Tribunal.

The 2nd July 1957.

Order No. 17, dated 8th July 1957 in Case No. VIII-307 of 1956

The Company files an application stating that the interim award of the Tribunal for payment of Rs. 1,500 to each of the workers from their Provident Fund dues cannot be complied with on account of the objection of the Provident Fund Commissioner. It is stated that the rules for Provident Fund do not permit of any such payments. The Company prays that the Tribunal may pass an order for payment of such smaller amounts to each of the employees in question as may be permissible under the Provident Fund Rules. The order for payment of Rs. 1,500 from the Provident Fund of each of the five employees was made at the suggestion of the Manager of the Company, who agreed to have the payments made from the Provident Fund dues and to have these payments adjusted in the award. As it appears that the sums as ordered cannot be obtained

from the Provident Fund dues of the clerks in question, it is ordered that a sum of Rs. 1,500 be paid to each of—

(a) Shri Kalachand Chatterjee, Head Clerk, Old Mills, Spinning Department,

(b) Shri Ram Chandra Chowdhuri, Head Clerk, Manager's office,

(c) Shri Shib Chandra Sirkar, Assistant Head Clerk, Manager's office,

(d) Shri Azizul Eshan, Store Clerk, and

(e) Shri Sudhakar Paul, Head Clerk, Preparing Department, Old Mills,

by the Company in seven days from this date. These amounts shall be adjusted in the final award.

This order shall be read as a part of the interim award made on 2nd July 1957.

(ii) Whether the workers of Messrs. Panchkari Biri Factory, Messrs. Moti Biri Factory and Messrs. Bharat Mata Biri Factory are entitled to any retrenchment compensation and/or any other relief?

DECISION

Shri Panchkari Saha, Proprietor of Panchkari Bidi Factory, Shri Moti Lal Das, Proprietor of Moti Bidi Factory and Shri Nikunja Behari Sarkar and three others, Proprietors of Bharat Mata Bidi Factory have, respectively, shops styled as aforesaid at Hili in West Dinajpur, selling tobacco, bidi leaves as also bidis of their own brands. At the relevant time some 100 workers used to prepare bidis for the concern of Shri Panchkari Saha, 287 workers for the concern of Shri Moti Lal Das and 100 workers for the concern of Shri Nikunja Behari Sarkar and others. According to the Proprietors the bidis used to be made by the workers in their respective houses on piece-rates, while according to Paschim Dinajpur Bidi Sramik Union (hereafter called the Union) bidis used to be made in the respective shop premises which therefore constituted the factories.

The case of the Union as made out in the written statement before this Tribunal briefly stated is as follows:

The aforesaid three concerns were factories which together employed about 550 workers in making bidis in the respective shop premises at Hili. Although the concerns were earning handsome profits, these did not improve lots of the workers. For redress of the grievance the Union was formed on 27th August 1955. At about that time the Area Inspector of Factories, Government of West Bengal, came to Hili in course of his routine inspection and detected that although Panchkari Bidi Factory and Moti Bidi Factory were working as factories, the owners thereof did not take license or register them as factories as required under the Factories Act. So at his instance Shri Panchkari Saha, owner of Panchkari Bidi Factory and Shri Motilal Das, owner of Moti Bidi Factory were prosecuted before the Subdivisional Officer, Balurghat, and eventually convicted. As soon as the judgment came out the owners of Panchkari Bidi Factory and Moti Bidi Factory suddenly stopped factory work, without notice and intimation, from the evening of 30th September 1955 and 1st October 1955 respectively. The workers of those factories duly presented themselves for work but they were refused work. The owners intimated them that if they were prepared to work at their respective homes (in place of shop premises) on contract basis on card system, they would be supplied with materials for making bidi. By such change the status of the workers was deliberately reduced from full-fledged factory workers to casual workers resulting in loss in income as well. The workers naturally could not agree to the change and demanded notice to the effect which the Management of the two concerns refused. As a result the workers staged a stay-in-strike which continued for some days. The Union also took up the matter with the authorities as per Annexures A, A1 and A2, B and C to their written statement.

The owners of Bharat Mata Bidi Factory also joined hands with the aforesaid two concerns and introduced card system of work soon after. As a result same type of dispute also cropped up there.

In pursuance of the directions of the Labour Directorate the Union called off the strike on 14th October 1955, and informed the Labour Commissioner accordingly. Notwithstanding the employers did not agree to continue the old system of factory work in the shop premises, the deadlock thus continued. By change in the system of work, all the workers employed in these three factories who had been working for years together, stood retrenched while their work was being carried on by contractors who in their turn were engaging new hands as also some old ones at a much reduced rate. The change in the system of work is illegal and mala fide resorted to in order to terrorise the workers for forming the Union. So, the Union prayed for an award declaring the action of the owners of the three factories as illegal and unfair and directing them to restore the old system of work forthwith and take back the workmen as were on the roll on the day the change was made with full compensation for the period of unemployment. In case if it be found difficult to pass such orders, the workers might be awarded full retrenchment compensation as also compensation for illegal action.

The Proprietors of three concerns resisted the claims of the Union by separate written statements though virtually on same grounds. They denied relation of employer and employee and other material allegations of the union and pleaded among others as follows:

Theirs were not factories but are exclusively shops selling bidi leaves as also bidis of their own brands. For the purpose of making bidis for them, they have all along been supplying bidi leaves and tobacco to independent petty traders and/or contractors who have all along been taking these materials to their respective houses and have been preparing bidis with the said materials there. At the end of a week the bidis prepared and delivered to the concerns during the week are duly paid for. In the middle of the week some advances are given to these petty traders and/or contractors towards the prices of the bidis.

These petty traders and/or contractors have no obligation as to the quantity of bidi leaves and tobacco they may take supply of from the concerns or as to number of the bidis they may deliver at the end of the week nor are they in any way controlled and/or directed in the matter of preparing the bidis by the concerns. The petty traders or contractors are wholly independent in the matter of execution of their work of preparing the bidis. In the circumstances, neither the owners of these concerns are employers nor are the petty traders and/or contractors "workmen" within the meaning of the Industrial Disputes Act.

For some time in 1955 some of the aforesaid petty traders and/or contractors for their own convenience began to prepare bidis at the respective shop premises of Panchkari Saha and Moti Lal Das on conditions as aforesaid instead of taking the materials to their home. They too had absolutely no fixed hours of work and no control or direction whatsoever in respect of the manner of execution of their work or obligation in respect of the quantity of materials they took supply of or of the number of bidis they delivered to the concerns. The number of those who thus worked for some time in 1955 in the shop premises, of Panchkari Saha and Moti Lal Das, were very few while the majority of the traders and contractors of their concerns adhered to the system of taking materials home and preparing bidis there.

While these few workers were thus making bidis in the shop premises of Panchkari Saha and Moti Lal Das, Factory Inspector visited those concerns. Although it was explained to him how these few workers were allowed to make bidis in the shop premises, the Factory Inspector was of opinion that as nonetheless more than 20 were working in the shop this would constitute their shops into factories and accordingly he prosecuted the two Proprietors under the Factories Act which ended in their conviction, as stated by the Union. After such conviction Panchkari Saha and Moti Lal Das were compelled to disallow the said petty traders and/or contractors from working in the shop premises from 1st October 1955 and 2nd October 1955, respectively. In so doing, they did nothing wrong but were within their rights. Apart from working in the shop premises for some time past these workers had never enjoyed any benefit under the Factories Act. After their work in the shop premises was stopped, these persons declined to take supply of materials for making bidis and stopped work and prevented for some days the other petty traders and contractors from taking supply of their materials. Eventually all resumed work except those few who were of late making bidis in the shop premises. The Proprietors did not retrench any one. All the petty traders and contractors who had been in contract with them prior to 1st October 1955 have still been doing same work as before on same terms and conditions. Only the few who had been permitted to work in the shop premises and who were thereafter asked to discontinue work there as aforesaid stopped work and did not rejoin. They were entitled to no relief.

The Proprietors of Bharat Mata Bidi Factory alleged that so far they were concerned, there had been no change in the system of work at any time. They had been carrying on business all along without break in the way already indicated as aforesaid. All the petty traders and/or contractors who had been in contract with them prior to 1st October 1955 have still been carrying on the same work as before on the same terms and conditions and that there had been and there have not been a single case where contract existed from before was terminted.

Besides, the Proprietors of these three concerns took preliminary objection regarding competency of the reference.

In support of their case the Union examined workers P.W. 1 Shri Hare Krishna Mahanta, P.W. 2 Shri Biswanath Kundu, P.W. 3 Shri Phani Bhusan Debnath and Secretary P.W. 4 Shri Manoj Goswami besides proving documents Exts. 1 to 12(e). The Proprietors, on the other hand, examined themselves—D.W. 1 Shri Nikunja Behari Sarkar, D.W. 2 Shri Moti Lal Das and D.W. 3 Shri Panchkari Saha besides proving documents Exts. A to I.

Before entering into the dispute I may state certain facts as are either admitted or established in evidence, and mention about the correspondences as passed before the reference as these will be of help to appreciate the evidence. On 23rd May 1955 area Factory Inspector visited the shop premises of Shri Panchkari Saha and Shri Moti Lal Das at Hili when he found that although more than 20 workers were working in the manufacture of bidis, the owners did not take license thereof or notify their occupation as factories as required under the Factories Act. So, at his instance the said Shri Panchkari Saha and Shri Moti Lal Das were prosecuted before Subdivisional Officer, Balurghat, under section 92 of the Factories Act and were eventually convicted on 26th September 1955 (*vide* Ext. 2). After such conviction the owners of Panchkari Bidi Factory and Moti Bidi Factory prohibited those workers from preparing bidis in their

shop premises and thereby stopped factory work from the evening of 30th September 1955 and 1st October 1955, respectively.

Following such disallowance of work in the shop premises, the workers of the said two concerns started stay-in-strike on 1st October 1955. The Union sent letters and telegram to the Labour Commissioner and Factory Inspector seeking intervention [*vide* Exts. 7(a) and 7(b)]. On 5th October 1955 Union again wrote to the Labour Commissioner complaining that Shri Panchkari Saha and Shri Moti Lal Das stopped factory work and thereby threw all the workers numbering about 400 of those two concerns into unemployment [*vide* Ext. 7(c)]. Then on 8th October 1955 the workers headed by Shri Subodh Chandra Mondal wrote to the Assistant Labour Commissioner that all bidi factory owners closed their factories on 29th September 1955 throwing about 1,000 workers out of employment as the workers objected to work on contract basis on card system. It was also alleged therein that Bharatmata Bidi Factory stopped factory work from 4th October 1955 for which 50 workers resorted to strike [*vide* Ext. 7(d)]. On 11th October 1955 Assistant Labour Commisisoner replied to Shri Subodh Chandra Mondal and others requesting them to withdraw the strike. He also wrote to the owners of Panchkari Bidi Factory and Moti Bidi Factory to maintain *status quo* [*vide* Exts. 7(e), 7(f) and 8 and 8(a)]. On 12th October 1955 the Magistrate of West Dinajpur also informed the Union that he had forwarded their latter to the Labour Department and Factory Inspector for necessary action [*vide* Ext. 8(b)]. On 13th October 1955 Shri Panchkari Saha replied to the Assistant Labour Commissioner saying that work of manufacture of bidis was not closed by him and that the workers were pursuing strike under the evil influence of the Communist Party (Ext. C). On 14th October 1955 Union informed the Officer-in-charge, Hili police-station, that the strike in the Panchkari Bidi Factory and Moti Bidi Factory was withdrawn from that night [*vide* Ext. 7(g)]. On 15th October 1955 Shri Subodh Chandra Mondal and others wrote to the Assistant Labour Commissioner that although strike was withdrawn in the above two factories the owners thereof were still insisting to have work of making bidis done on contract basis on card system [*vide* Ext. 7(h)]. On 20th October 1955 communication in similar terms was made to Assistant Labour Commisisoner. It was also alleged therein that owners of Bharatmata Bidi Factory with which same kind of dispute was going on took uncompromising attitude [*vide* Ext. 7(i)]. Following these correspondences there was conciliation and as the matter could not be settled, the dispute was referred to this Tribunal for adjudication on 3rd March 1956.

Let us turn to the dispute. Firstly, it is contended on behalf of the Proprietors that the dispute referred to is not an industrial dispute as the persons who worked in these concerns were not workmen within the meaning of section 2(s) of the Industrial Disputes Act, 1947, and the reference in consequence is bad in law. The point which so requires determination is, whether the persons engaged in making bidis in these concerns are really workmen within the meaning of Industrial Disputes Act, 1947, or independent contractors. It has been held by the Supreme Court in the case of Dharangadhra Chemical Works, Ltd., vs. State of Saurashtra and others reported in 1957 (I) L.L.J. 477 that—

> "The essential condition of a person being a workman within the terms of this definition is that he should be employed to do the work in that industry, that there should be, in other words, an employment of him by the employer and that there should be relationship between the employer and him as between employer and employee or master and servant. Unless a person is thus

employed there can be no question of his being a workman within the definition of the term as contained in the Act.

The principles according to which the relationship as between employer and employee or master and servant has got to be determined are well settled. The test which is uniformly applied in order to determine the relationship is the existence of a right of control in respect of the manner in which the work is to be done."

Regarding system of work, the evidence and circumstances are more in accord with the version of the Proprietors of the three concerns. At the relevant time 100 workers were engaged in making bidis for the concern of Shri Panchkari Saha (*vide* D.W. 3), 237 for the concern of Shri Moti Lal Das (*vide* D.W. 2) and 100 workers for the concern of Shri Nikunja Behari Sarkar and three others (*vide* D.W. 1). It is admitted on all hands that these workers comprised males and females. In their evidence it was sought to be said on behalf of the workers that on the previous evening they used to get supply of bidi leaves which they used to take to their respective houses and there bidi leaves used to be cut and put into water and then on the next morning they all used to come to the shop premises and prepare bidis in the shop premises on taking tobacco and thread there. So according to the case of the Union in the written statement and the evidence, all workers used to make bidis in the shop premises after taking supply of tobacco and thread on the day. P.W. 2 Shri Biswanath Kundu negatived the case when he admitted in cross-examination that female workers have all along been working in their respective houses for making bidis after taking supply of bidi leaves, tobacco and thread on the previous evening. Regarding the male workers, it is in evidence on the side of the Proprietors that they too used to make bidis like the female members in their own respective houses on getting supply of bidi leaves, tobacco and thread on the previous evening and that only of late some of these male workers were permitted to work in the shop premises of Shri Panchkari Saha and Shri Moti Lal Das in making bidis to suit their convenience. It was on the contrary sought to be said on behalf of the workers during argument that all the male workers were all along permitted to prepare bidis in the respective shop premises. I am unable to accept such case either. Had it been true, it would have been more natural for them not to take supply of tobacco and thread on the day previous. The workers also were conscious about it. So, in their deposition they said that they used to get supply only of bidi leaves in the evening and used to get tobacco and thread on the next day on coming to the shop premises with cut bidi leaves. The "khosra khatas" of Bharatmata Bidi Factory (Ext. B series) wherein admittedly supplies of bidi leaves and other materials are noted go to show that all the materials such as, bidi leaves, tobacco and thread were simultaneously supplied from day to day on the previous evening. This would support the case of the proprietors that the male members too like the female workers used to make bidis in their respective homes. Had it been the practice to make bidis in the shop premises they would not have taken supply of tobacco and threads in the previous evening only to carry them back to the shop premises on the next day. The evidence reveals that there had been no change in the system of work so far Bharatmata Bidi Factory is concerned. P.W. 2 Biswanath Kundu who sought to say to the contrary was shown by unimpeachable document to have worked in the concern throughout even after 4th October 1955 when it was alleged to have been closed. Had Bharatmata Bidi Factory stopped work from 4th October 1955, as alleged, this would have found mention in the Union's letter, dated 5th October 1955. Not only it was not so stated therein, there was also no mention about withdrawal of alleged strike of

workers of this concern in any of the subsequent letters of the Union or workers not even in the letter, dated 14th October 1955 [Ext. 7(g)] whereby O/C was informed about withdrawal of the strike of the two other concerns. Had there been strike in this concern this would have naturally been withdrawn as was done in other two concerns. P.W. 2 admittedly bore No. 80 on 3rd October 1955. The note book relating to his No. 80 which is, therefore, relevant has been suppressed on the convenient plea of its being missing. The positive evidence on the side of the Proprietor on the contrary shows that he had worked even on 4th October 1955 and on subsequent dates and received payment for those days by putting signatures (Exts. A, A1). It also appears that he has still been working in the said concern. The allegations in the previous correspondence against the concern of Bharatmata Bidi Factory, it appears, were made with ulterior motive just as these were made in respect of other concerns doing bidi business. It appears that the workers following conviction of Shri Panchkari Saha and Shri Moti Lal Das wanted, in particular, owners of Bharatmata Bidi Factory to fall in line and allow them to prepare bidies in their shop premises which they did not allow and thus the dispute cropped up. Having regard to the facts and circumstances it cannot be doubted that the system of work in the Bharatmata Bidi Factory has always been as deposed to by D.W. 1 Shri Nikunja Behari Sarkar and has not undergone any change. So, the Union's case that all workers used to work in the shop premises in preparing bidis is anything but true. I rather believe that the system was that the workers both males and females used to make bidis in their respective homes on taking supply of all the materials in this connection on the previous evening.

As to work by males in the shop premises of Shri Panchkari Saha and Shri Moti Lal Das, in making bidis there, the evidence shows that such system of work by males in those shop premises was not the general rule but an exception. According to Shri Panchkari Saha and Shri Moti Lal Das, permission was granted some years ago to these workers for making bidis in the shop premises to suit their convenience. This seems to me more probable and natural as in the concern of Bharatmata Bidi Factory it does not appear that any worker was ever allowed to make bidis in the shop premises. The evidence discloses that not all the male workers but some of them were only permitted to make bidis in the shop premises of Shri Moti Lal Das and Shri Panchkari Saha. Had it been otherwise the workers would have enjoyed the benefits admissible under the Factories Act. Admittedly they had none of them. Claim of the workers during evidence that they used to get eight festival holidays with pay and increments during busy season (from Agrahayan to Magh) from 2 annas to 4 annas in the piece-rate even if true has nothing to do with the Factories Act. The fact that the workers had none of the benefits under the Factories Act would show that the workers, as a general rule, were not making bidis in the shop premises but in their respective houses.

Regarding the concerns having been styled factories and calendars having been issued to that effect (Ext. 1 series), the evidence and circumstances show that this was so done not because the shop premises were used by the workers in making bidis but rather to indicate that the concerns sell bidis of their own make. For so doing it appears that after delivery of prepared bidis in bundles of 25 by the workers, these are treated in the shop premises by paid employees. The prepared bidis after delivery are put over on oven for drying and then these are turned into packets and labels of the concerns are attached to them by paid employees of the concerns. Thus having bidis of their own make it is no wonder that they described themselves as factories. In any case it does not indicate that

the shop premises were used by the workers in making bidis and thus these were termed factories.

Now as to terms of employment it is not disputed that all the workers are paid for making bidis on piece-rates—at the rate of Rs. 1-6 per thousand prepared bidis in the concerns of Shri Panchkari Saha and Shri Nikunja Behari Sarkar and others and at Rs. 1-10 per thousand prepared bidis in the concern of Shri Moti Lal Das; and that advances are given in the middle of a week and payment for the prepared bidis delivered is made at the end of a week on tallying the outturns noted in the note books (styled by workers as cards) with those noted in the books maintained in the concerns. It will not be out of place to mention here that piece-rate system by itself may not lead to an inference of the work being done under contract system as men engaged on such system may as well be employees (workmen). In the present case, however, this fact along with others point more in favour of the work being done on contract system.

As to the working it is sought to be said in evidence by the P.Ws. that the workers were required to attend and work in the shop premises from 8 a.m. to 5 p.m., that if they were late by few minutes they were not allowed to work, that the "karmacharies" of the employers and sometimes the employers themselves used to supervise their work of making bidis and that the Proprietors had full control in the manner of execution of their work. The evidence is afterthought and unreliable. The female workers, it has already been found, admittedly work in their respective houses on taking supplies of bidi leaves, tobacco and thread on the previous evening. It has been admitted in cross-examination by P.W. 2 that they had or have no fixed hours of work, nor had or have obligation to take supply of any fixed quantity of materials for making bidis or deliver any fixed quantity of prepared bidis. It has been admitted that they have full liberty in respect of execution of the work and the Proprietors and their "karmacharies" had or have no supervision or control. As to those of the male members who prepared bidis in their respective homes they had obviously same kind of work as those by the female workers. As to other male workers who worked in the shop premises of Shri Panchkari Saha and Shri Moti Lal Das in making bidis, I prefer to accept evidence on the side of the Proprietors that they too had no fixed hours of work and had no obligation to take fixed quantity of materials for making bidis or deliver fixed quantity of prepared bidis as being more probable and natural in view of what admittedly prevailed for majority of the workers working in their respective homes as aforesaid. It appears to me from the evidence and circumstances that the Proprietors had very little control if not nothing in the manner of execution of the work to be done. All that they were seeing was if the work was being done according to specifications and within the given time. It has been held that "the greater the amount of direct control exercised ever the person rendering the services by the person contracting for them, the stronger the grounds for holding it to be a contract of service, and similarly the greater the degree of independence of such control the greater the probability that the services rendered are of the nature of professional services and that the contract is not one of service". The test as aforesaid suggests more in favour of the workers employed in this industry being independent contractors than being workmen working within the meaning of section 2(s). The evidence that the workmen were getting eight festival holidays with pay is also an afterthought and unreliable. When they were working at home there was no question of grant of festival holidays. It was for the workers to abstain from taking supply of materials on festival occasions. The evidence of D.W. 3 reveals that some "karigars" of which Ashutosh is one, have been working in the matter of preparing bidis for two concerns

(*vide* Exts. H3 and I). This would not have been possible, had not the workers been working on contract system. So, on a consideration of all the facts in the light of the principles enunciated by the Supreme Court in the case already referred to, I am of opinion that the workers are not workmen within the meaning of section 2(s) of the Industrial Disputes Act, but independent contractors. As the dispute referred to is thus not about workmen within the meaning of the Industrial Disputes Act, it is obvious that there cannot be any industrial dispute within the meaning of section 2(k) and as such the reference is incompetent and bad.

Even assuming that they are workmen as defined in the Industrial Disputes Act it appears that no relief whatever can be granted. It cannot be disputed that it is the fundamental right of the owners to close down their factories. It will, therefore, be obvious that the proprietors of Shri Panchkari Bidi Factory and Shri Moti Bidi Factory were within their rights to stop factory system of work, more so, when the workers had previously none of the benefits admissible under the Factories Act. Claim would have been intelligible had the workers enjoyed certain privileges under the Factories Act and were thereafter deprived of them. Social justice cannot be invoked in their aid in order to compel the owners to work on factory system so that the workers may henceforth derive benefits under the Factories Act when they had none previously. It is purely management's function whether they would carry on the work on contract system or otherwise.

Besides, the evidence shows that not all the workers were affected as alleged by stoppage of factory work after conviction of Shri Moti Lal Das and Shri Panchkari Saha but only few who had been working in the shop premises and were thereafter disallowed to continue making bidis in those shop premises. It further appears that after leaving work in these concerns they started to make bidis under the style "Sramik Bidi" (Ext. D) and when said venture was not successful, it appears, P.W. 1 who was worker in the Moti Bidi Factory, joined the concern of Shri Panchkari Saha, and have since been working on card system on contract basis in the concern of said Shri Panchkari Saha (Ext. H2). P.W. 1 in a way admitted this when he said that female members have been working at home on card system under Panchkari Saha. P.W. 3 who was a worker in the concern of Panchkari Saha, it appears from the evidence, has been working in the name of his Bhognipati Shri Ramjoy Debnath and receiving payments by putting signatures (Exts. F1, F2 and H1).

Be that as it may, when not all but only few ceased to work, it is obvious no relief could have been granted to them, had they been eligible as their names were not disclosed. So, to be precise, I find that the Tribunal has no jurisdiction to proceed with the reference or to adjudicate upon the issues.

It is awarded accordingly.

OFFICE OF THE ACCOUNTANT-GENERAL, WEST BENGAL

NOTIFICATIONS

No. TM/Fund1/623.—15th July 1957.—The attention of all Heads of Offices and Departments (both Central and Provincial) under the audit control of the Accountant-General, West Bengal, is drawn to the relevant provision of the existing Rules of the Provident Funds regarding the right of a subscriber to renew his Provident Fund subscription after he has discontinued his subscriptions more than three times except while on leave. Renewal of subscription after discontinuance for more than three times is in contravention of the rules and such subscriptions will carry no interest.

The relevant provisions of the Provident Fund Rules should be scrupulously observed as it is in the interest of the subscribers themselves that irregular deductions are not made from their pay bills.

Subject: Liberalisation of the New Pension Rules in the matter of pension, death-cum-retirement gratuity and family pension.

No. TM/624.—15th July 1957.—In continuation of this office circular letter Nos. TM/309, dated the 30th June 1950 and TM/1125, dated the 1st February 1951, all Heads of Offices of the Central Government under the audit control of this office are requested to refer to the Government of India, Ministry of Finance, Office Memorandum No. 20(2)-EV/56, dated the 22nd May 1957, on the subject indicated above (copy enclosed) and to take necessary action in the matter.

In view of the considerable liberalisation in the provisions of New Pension Rules it has now been decided that a Central Service Officer [a pre-1938 entrant as defined in paragraph 9 of the Government of India, Ministry of Finance, Office Memorandum No. F.3(1)-Est(Spl)/47, dated the 17th April 1950] who had elected to remain under the old pension rules, in whole or in part, pursuant to the provisions in paragraph 2(b) of the said Ministry's Office Memorandum No. F.3(16)-Est(Spl)/50, dated the 2nd January 1951 (instructions thereupon already issued in this office circular letter No. TM/1125, dated the 1st February 1951) and who was in service or on leave preparatory to retirement (including refused leave) on the 17th April 1956, shall be allowed to exercise a fresh option in favour of the New Pension Rules. The option shall be exercised within *six months* from the date of issue of the order i.e., 22nd May 1957 and once exercised, will be regarded as final. In case of failure to exercise a fresh option within the stipulated period it will be treated that the original option, if any, subsists. The option shall be exercised in writing and shall be communicated by the officer concerned to the Head of his Office if he is a Non-Gazetted Officer and to his Accounts Officer if he is a Gazetted Officer.

Steps may now please be taken to obtain such declaration from the said category of Central Government servants under your control. The declaration, when received from a Non-Gazetted Government servant should be countersigned by you and pasted in the service book of the officer concerned. Declarations of the Gazetted Officers are to be submitted to this office for necessary action. Arrangements may also be taken to bring the content of the Office Memorandum to the notice of (i) all concerned persons employed under your administrative control, including those on leave or foreign service and (ii) employees who retired on or after the 17th April 1956.

(*Vide* Dy. India 2275 of 57-58, copy received in TM as per Dy. TM/937, dated 21st June 1957. Filed in Bl TM/23-16.)

[Copy of Office Memorandum No. 20(2)-EV/56, dated 22nd May 1957, from the Government of India, Ministry of Finance, New Delhi.]

Subject: Liberalisation of the New Pension Rules in the matter of pension, death-cum-retirement gratuity and family pension.

The Government of India have had under consideration the question of further liberalising the pensionary and family benefits admissible under the New Pension Rules promulgated with this Ministry's O. M. No. F.3(1)-Est(Spl)/47, dated the 17th April 1950. The President has now been pleased to take the decisions embodied in the following paragraphs. Modifications necessitated in the New Pension Rules consequential to the decisions reached are also indicated below.

PENSION

2. It has been decided to increase the maximum amount of superannuation, invalid and compensation pension from Rs. 6,750 to Rs. 8,100 per annum. Proportionate increases will be made in the amounts of such pension admissible for completed years of qualifying service between 10 and 30.

The entries in column (3) under the heading "(b) Pensions" in the Annexure to the O. M. referred to will accordingly be substituted by those in column (3) of the Annexure to this O. M.

The amount of retiring pension specified in sub-paragraph (3) of paragraph (2) of the said O. M., viz., "Rs. 6,750", will also be modified to "Rs. 8,100".

DEATH-cum-RETIREMENT GRATUITY

3. According to sub-paragraph (3) of paragraph 3 of Section II of the O. M. under reference, the amount of death-*cum*-retirement gratuity will be 9/20ths of the emoluments of an officer for each completed year of qualifying service subject to a maximum of 15 times the "emoluments". It is also provided in sub-paragraph (5) of the same paragraph that the "emoluments" for the purpose of Section II will be subject to a maximum of Rs. 1,500 per mensem. It has now been decided that the maximum limit of emoluments for the purpose referred to shall be raised to Rs. 1,800 per mensem and that the amount of death-*cum*-retirement gratuity shall be 9/20ths of the emoluments of an officer for each completed year of qualifying service subject to a maximum of 15 times the "emoluments" provided that in no case shall it exceed Rs. 24,000.

4. The orders in paragraphs 2 and 3 above will take effect from the 17th April 1956.

FAMILY PENSION

5. It has been decided that a family pension should be admissible to the family of an officer if he dies while in service after completion of 20 years' qualifying service instead of 25 years' service as at present, that the family pension on the existing scale should be payable for a period of ten years, provided that payment does not extend beyond a period of five years from the date on which the deceased officer actually retired or the date on which he would have retired on superannuation pension in the normal course, according as death takes place after retirement or while still in service. The minimum family pension admissible will be Rs. 30 per mensem, subject, however, to the condition that in no case it should exceed the full pension which the deceased officer would have been entitled to had he retired on a superannuation pension on the date following the date of his death.

In order to give effect to the above decisions and the decisions on certain connected matters, it has been decided that sub-paragraphs (1) and (2) of paragraph 5 under Section III of the O. M. referred to, governing the conditions, etc., for the award of family pension, shall be substituted as follows:—

"(1) A family pension not exceeding the amount specified in sub-paragraph (2) may be granted to the family of an Officer who dies, whether while still in service or after retirement, after completion of not less than 20 years' qualifying service, for a period of ten years:

Provided that the period of payment of family pension will in no case extend beyond a period of 5 years from the date on which the deceased officer retired or on which he would have retired on a superannuation pension in the normal course, according as the death takes place after retirement or while the officer is in service.

Note.—(i) In the case of an officer who dies while on extension of service, the expression 'date on which he would have retired on superannuation pension in the normal course' in the said proviso shall mean the date up to which extension of service had been sanctioned to him before his death.

(ii) In the case of a person governed by clause (b) (i) of F. R. 56 in the matter of age of compulsory retirement, the expression 'date on which he would have retired on superannuation pension in the normal course' in the above proviso means the date on which he would have attained the age of 55 years in case death takes place before the officer attained that age, and the date up to which his continuance in service had been sanctioned at the time of his death, if death takes place while in service at any time after attaining the age of 55 years.

(2) The amount of family pension will be—

(a) In the event of death while in service, one-half of the superannuation pension which would be admissible to the officer had he retired on the date following the date of his death; and

(b) In the event of death after retirement, half the pension sanctioned for him at the time of retirement.

Provided that the amount of family pension will be subject to a maximum of Rs. 150 per month, and a minimum of Rs. 30 per month subject to the further condition that the minimum pension will not in any case exceed the full amount of the pension that would have been admissible to the deceased officer if he had retired on a superannuation pension on the date following the date of his death.

In cases where an officer mentioned in clause (b) had commuted a part of his pension before his death the uncommuted value of that part of pension will be deducted from the family pension calculated as above".

6. (i) The orders in paragraph 5 above will take effect from the 1st April 1957. The amount and the total period of availability of all family pensions which had been already sanctioned or become due before the 1st April 1957 shall be readjusted in accordance with these orders so, however, that no arrears in respect of any period prior to the 1st April 1957 shall be payable.

(ii) Cases of any officers who may have died during the period of three years prior to 1st April 1957 and whose families would have become eligible for a family pension if the modifications of the existing rules embodied in paragraph 5 above had been in force on the date of death of the officers concerned will be considered ad-hoc on merits. All such cases should be referred to Government through the appropriate channels, giving all relevant particulars.

7. Government will also be prepared to consider, in exceptional circumstances, the award of family pension to families of officers who may die after completing less than 20 years' qualifying service but not less than 10 years' qualifying service.

8. In view of the considerable liberalisation which the above decisions involve in the provisions of New Pension Rules, it has been further decided that a Central Service Officer who had elected to remain under the old pension rules, in whole or in part, pursuant to the provisions of this Ministry's office Memorandum No. F.3(16)-Est(Spl)/50, dated the 2nd January 1951, and who was in service or on leave preparatory to retirement (including refused leave) on the 17th April 1956, shall be allowed to exercise a fresh option in favour of the New Pension Rules as modified by the decisions referred to. The option shall be exercised within six months from the date of issue of these orders and, once exercised, will be regarded as final. In case of failure to exercise a fresh option within the stipulated period, it will be treated that the original option, if any, subsists. The option shall be exercised in writing and shall be communicated by the officer concerned to the Head of his Office if he is a Non-Gazetted Officer and to his Accounts Officer if he is a Gazetted Officer. The option when received from a Non-Gazetted Officer should be countersigned by the head of Office and pasted in the Service Book of the Officer concerned.

9. In so far as the persons serving in the Indian Audit and Accounts Department are concerned, these orders have been issued after consultation with the Comptroller and Auditor-General.

10. Administrative authorities are requested to take urgent steps to bring the contents of this O. M. to the notice of (i) all concerned persons employed under their administrative control, including those on leave or foreign service and (ii) employees who retired on or after the 17th April 1956.

Subject: Postal Life Insurance—Discontinuance of Premium Receipt Books to insurants whose premia are deducted from pay bills.

No. TM/625.—16th July 1957.—The supply of premium receipt books to the insurants whose premia are deducted from pay bills have been discontinued with effect from the 5th June 1953 as a measure of economy. To enable the insurants in the event of their quitting Government service by resignation, removal or retirement, etc., to pay their premia in cash at a Post Office, it has since been decided by the Government of India that the following procedure should be observed.

(a) The respective Disbursing Officer should issue, without avoidable delay, to the insurant concerned a certificate in the following form:—

MINISTRY OF.....

Government of...../Department of...../
Office of the..... No..... (Name of station)
dated the .....

Certificate of the Disbursing Officer regarding premium deduction on account of P. L. I.

Certified that a sum of Rs..... (in words)..... being the amount of premium/premia on Postal Life Insurance policy (policies) No....., dated..... of Shri..... (with office address) for the month(s) (name of the month with year), was last deducted from his salary for the month(s) (name of the month with year) paid on .....

Office Seal.

Signature.....
(with full name in Block Capital and Designation of Disbursing Officer).

(b) As soon as the connection of the insured person with Government ceases, he should select a Post Office at which future premia will be paid by him in cash and advise the Post Master General of the Circle of the fact. Every change in the Post Office at which the payments are made should be communicated by him to the Post Master General(s) of both the old as well as the new Post Office. The last Disbursing Officer will advise the insurant accordingly. He will also intimate the Post Master General in whose custody the Postal Life Insurance Ledger Card of the insurant is kept, of the fact of the relief of the official from Government service and his address after relief together with the name of the Post Office selected by the insurant for cash payment of premia, if known.

(c) The next premium after quitting Government service, will be paid by the insurant in cash at a Post Office by producing the above certificate from his Disbursing Officer. The Post Office will grant a receipt in form "A.C.G. 67". All subsequent premia will be accepted by the Post Office in cash on the insurant producing the previous month's receipt obtained from the Post Office.

(d) When the Postal Life Insurance Premia cannot temporarily be deducted from the pay bills, e.g., in the circumstances detailed in Notes 1 to 3 below rule 28 of the Post Office Insurance Fund Rules, the procedure for cash recovery of premium as stated above will apply *mutatis mutandis*. In the case covered by Note (1) ibid, the Disbursing Officer should keep a note of the particulars of cash recovery in the register maintained by him for watching and posting the deductions through pay bills. In other cases recovery through pay bills would be resumed on production by the insurant of the Post Master's receipt in form "A.C.G. 67" for the previous month.

2. As the facility of the deduction of premia amounts from the pension bills of pensioners in terms of "Note" below rule 36 of the Post Office Insurance Fund Rules has not been withdrawn, payment of premia by such deduction will continue to be made if so desired by the pensioners. Those insurants who, however, wish to make cash payments of the premiums should, in their own interest, obtain a certificate from the Disbursing Officer in the form mentioned in (a) above and select a Post Office at which further premiums will be paid by them in cash and advise the Post Master General of the Circle of the fact. The first premium paid by such insurants, after quitting Government service, will be paid by them at the Post Office selected, by producing the certificate obtained from their Disbursing Officer.

3. The above instructions may be followed by all Heads of Departments, Drawing and Disbursing Officers of the Union and State Governments under the audit control of this office and all the Treasury Officers of West Bengal.

Dy. Accountant-General (C.T.A.D.).

IRRIGATION AND WATERWAYS DEPARTMENT

NOTIFICATION

No. 341.—16th July 1957.—In exercise of the powers conferred by sections 78 and 99 of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876), the Governor is pleased to make the following rules, schedule of rates and appendices for the supply of water from the Fichong river of the projected Jateswar Irrigation Scheme in the district of Jalpaiguri.

2. A draft of these rules, schedule of rates and appendices was published in the *Calcutta Gazette* of the 23rd May 1957, under notification No. 261., dated the 16th May 1957, as required by section 99 of the said Act.

RULES, SCHEDULE OF RATES AND APPENDICES

Leases for a term of years

1. The country served by the canals shall be mapped out into blocks of convenient size in accordance with the features of the ground, natural or artificial. So far as may be practicable, the blocks shall be separated by drainage lines. This shall be done by the Subdivisional Canal Officer under the guidance and control of the Divisional Canal Officer.

2. Each block determined as above shall be numbered and recorded with its gross and irrigable areas in registers to be maintained by the Subdivisional Canal Officer. The blocks shall also be marked on maps to be maintained by the same officer.

3. Leases for not more than six years may be granted for the whole irrigable area of a block or for definite parts of a block under the following conditions:—

I. Ordinarily the whole irrigable area of any village so far as situated within the block must be included in the lease. If the lands of a village within the block are divisible into two or more distinct parts which can be irrigated independently a separate lease may be granted for each part.

II. All leases within one block shall be so granted that they may expire on the same date.

III. No lease shall be granted when the supply of water must of necessity be delivered across an unleased area, unless a channel exists, which, in the opinion of the Subdivisional Canal Officer, will deliver water without waste across the unleased area.

4. The Superintending Engineer shall fix from time to time the gross area for which and the limits of the canal within which, leases for a term of years may be granted.

5, Maps of all villages in which lands have been brought under lease for a term of years, or in which there is any possibility of such leases being taken, shall be kept in the Subdivisional Canal Office. These maps to be at scale 32″=1 mile when such are available and elsewhere at scale 16″=1 mile.

6. The preliminary application for a lease for a term of years, either new or renewal, may be of an informal nature, but it must be in writing. It may be presented and shall be received either at the Subdivisional or Sectional Canal Office; in the latter case the Sectional Officer shall forward it immediately to the Subdivisional Canal Officer. The Subdivisional Canal Officer as soon as he has, by personal enquiry or by an enquiry made by the Sectional Officer, satisfied himself that the land in question constitutes a definite block or a definite part of a block, and that it can be irrigated, shall at once inform the Divisional Canal Officer giving such particulars as that officer may direct, and shall ask his formal approval to the lease being proceeded with. On receipt of such approval the Subdivisional Canal Officer shall proceed to make the detailed assessment. The lands to be brought under lease shall be indicated on a copy of the map referred to in rule 5.

7. The Subdivisional Canal Officer on receipt of the application shall depute an amin to prepare the khasra or detailed assessment paper. This shall be done on the ground with the aid of the revenue survey map and khasra. Should the survey map and khasra not be available, the amin shall make a sketch map, and shall measure the areas of the holdings with a chain or measuring-rod.

8. When the amin has completed the khasra he shall forward it to the Subdivisional Canal Officer who shall forward it to the Divisional Canal Officer for approval.

9. As soon as the khasra has been approved by the Divisional Canal Officer, he shall return it to the Subdivisional Canal Officer endorsed with his signature in token of approval.

The Subdivisional Canal Officer shall then prepare a khatian or abstract of the khasra, and shall have the form of application given as Appendix I to these rules, filled up and signed or marked by each of the applicants, in the presence of two witnesses.

When the application has been completely signed, the Subdivisional Canal Officer shall send it to the Divisional Canal Officer, by whom the permit or formal approval of the lease shall be signed and issued in the form given as Appendix III to these rules. The permit shall be made over to the representative of the cultivators by the Subdivisional Canal Officer through his Sectional Officer. The Divisional Canal Officer shall return the application to the Subdivisional Canal Officer with a copy of the permit for record.

10. Should it happen that the cultivators of the block proposed for lease are not unanimous, and that some of them decline to sign the application, the Subdivisional Canal Officer shall report the matter to the Divisional Canal Officer and the Subdivisional Canal Officer shall hold a local enquiry, recording the statements of the persons who decline to sign and recording his personal opinion on the reasons given. He shall then send a report to the Divisional Canal Officer, who shall decide whether the lease may be accepted excluding the fields in the occupation of the persons who decline to sign, or whether the lease shall be declined. The Divisional Canal Officer may grant a lease when not less than 95 per cent. of the net irrigable area of the block has been signed for. In particular cases should it be desirable to grant a lease even though an area larger than 5 per cent. of the block has not been signed for, this may be done on the written order of the Superintending Engineer. The reasons for granting the lease shall be fully recorded.

Covering Leases

11. Applicants for a lease for a term of years who may require water before the lease has been concluded can obtain a supply on tendering an application for a covering lease in the form given as Appendix II to these rules. This application shall be signed in the presence of the tahsildar or of some other responsible officer nominated for the purpose by the Subdivisional Canal Officer. The signatures shall be those of the leading cultivators in the block in question and they shall represent holders of not less than 75 per cent. of the irrigable land within the block.

As soon as the Subdivisional Canal Officer receives the application duly signed, he shall issue a permit in the form given as Appendix IV to these rules, and shall at once supply water.

Season Leases

12. Applications for water to irrigate spring rice or other crops between the 16th November and 15th June may be presented at the Subdivisional Canal Office or to the Sectional Officer. They shall be in the form given as Appendix V to these rules.

In the applications the areas for which water is required shall be specified but the rate shall be charged on those areas for which water is actually used as determined by measurement.

The permit in the form given as Appendix VI to these rules shall be granted by the Subdivisional Canal Officer if he is able to supply the water.

Supply of water

13. The Divisional Canal Officer shall control the supply of water throughout the Division in his charge.

14. No water shall be supplied to any lands except such as have been brought under a lease for a term of years or for the season, or to such as are provided for by a covering lease.

15. Under the forms of irrigation lease in use, no specific supply of water is promised; but the undertaking is to give such a supply to each lessee as may be necessary for the lands leased. The supply shall be given, as may be required for the proper cultivation of the crops under irrigation, according to the exigencies of the season.

16. The Divisional Canal Officer may give the required supply by rotation, should this be advisable for the efficient working of the canals in his charge. In such a case, he is required to give the lessees written notice informing them of the periods when they will be supplied with water.

Collection of water-rates

17. The rates due for water supplied shall be collected by the Divisional Canal Officer or other officer in charge of the Revenue Division through his staff of tahsildars and peons. All khatians or demand statements shall be signed by the Divisional Canal Officer or other officer in charge of the Revenue Division after scrutiny in his office.

18. At the time of preparation of the khatian in the Subdivisional Canal Office each person assessed shall be furnished with an extract from the assessment paper, showing the particulars of the charge against him. This extract shall be furnished in such form as may from time to time be approved by the Subdivisional Canal Officer for the purpose.

19. Each person on paying the sum due from him shall be given a receipt in the form prescribed for the purpose.

20. For the purposes of account of control over establishment, and of general administration, the Divisional Canal Officer or other officer in charge of the Revenue Division is in the position of an Executive Engineer in charge of a Division, and is directly subordinate to the Superintending Engineer. In regard to any proceedings taken under the Public Demands Recovery Act, 1913 (Bengal Act III of 1913), the Divisional Canal Officer is subject to the control of the Collector of the district.

Unauthorized use of water and waste of water

21. Should it be necessary to take action under the provisions of sections 79 and 80 of the Bengal Irrigation Act, 1876 (Ben. Act III of 1876), proceedings shall be instituted only under the direct and special order of the Divisional Canal Officer. The primary record of the facts regarding the unauthorized use or the waste of water shall be made by the Subdivisional Canal Officer and his subordinates. The parties whom it is proposed to assess shall be informed in writing, and shall be called on to show cause why they should not be assessed. The record of their statements shall be made by the Divisional or by the Subdivisional Canal Officer. The Divisional Canal Officer shall consider the facts and statements recorded, and shall, in deciding the case, give his reasons for or against assessment, both as regards the facts and as regards the law, and he shall determine rate to be charged subject to the provision in the schedule of rates attached to these rules.

22. Should the Divisional Canal Officer decide on making an assessment, he shall have the assessment paper prepared by the Subdivisional Canal Officer and his staff. Each person assessed shall be furnished with a statement of the charge against him, and an abstract of the demand or khatian shall be sent to the officer in charge of the Revenue Division, who shall proceed to recover the sums assessed. The period of one month within which an appeal may be presented to the Collector under section 91 of the Bengal Irrigation Act, 1876 (Ben. Act III of 1876), shall be computed from the date on which the statement of the charge may be furnished to the person assessed, which date shall be endorsed on it.

23. No proceedings shall be instituted if the unauthorized use or the waste of water have occurred through the act or neglect of a Canal Officer or a subordinate officer employed on the canal. During the irrigation of autumn rice, the passing on of surplus water from leased to unleased fields is not an unauthorised use of water.

Complaints and Applications

24. All complaints or applications with respect to the supply of water, to defective drainage, and generally with respect to the administration of the canal, shall be received on presentation at either Divisional or Subdivisional Canal Offices.

Complaints and applications received by a Divisional Canal Officer may be transferred to his Subdivisional Canal Officer for disposal at his discretion.

Any such complaints or applications, if presented to the Sectional Canal Officer or to his staff, shall be returned endorsed with instructions as to the proper office at which to present them. If received by post, they shall be at once forwarded to the Divisional or Subdivisional Canal Officer.

25. Complaints or applications with respect to corrections of the assessment with respect to the actions of the amins in assessing and with respect to the actions of the tahsildars and other staff employed in collections, shall be received at the office of the Divisional Canal Officer or other officer in charge of the Revenue Division.

26. Receipts in the prescribed form shall be given at all offices for complaints or applications presented. The receipt of all complaints and applications shall be recorded in registers to be kept for that purpose.

27. The officer receiving the complaint or application shall either make a personal enquiry into the matter or he shall nominate in writing some responsible person to hold the enquiry.

28. The orders passed on all complaints or applications shall be in writing, and a copy of every order shall be furnished to the complainant or applicant.

The copy of order may be sent by post (registered), if this is convenient.

The period within which an appeal may be presented under section 91 of the Act shall be computed from the date on which the copy of the order is received by the person.

29. When an appeal to the Collector is from the order of a Subdivisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record on them such remarks as he may think desirable, provided that he does not thereby detain the proceedings.

In all cases in which an appeal against an assessment is preferred to the Collector, that officer may, if he thinks fit, direct that the collection of water-rates be suspended till the appeal is heard.

30. The Divisional Canal Officer may revise the proceedings of his Subdivisional Canal Officers and the Superintending Engineer may call for and revise the proceedings of all officers under his control.

Remissions and alterations of demand.

31. Wherever the crop on land entitled to a supply of water suffers material injury from an insufficient supply of water, or from any interruption in the supply of water, remission of the rate due on such crop shall be given by the Divisional Canal Officer, provided that the person claiming remission shall have applied for such not less than fifteen days before the reaping of the crop.

32. On the occasion of lands being brought under a lease for a term of years, the Divisional Canal Officer may remit the rates for the first season on those fields which from the nature of the cultivation then obtaining, or from other causes, have not, in that season, derived any benefit from the supply of canal water.

33. Should the crop on lands under lease for a term of years suffer material injury from excess of water due to deficient drainage, the Divisional Canal Officer may grant remission of the rates due on such lands in whole or in part provided that the person asking for remission shall have applied at least fifteen days before the reaping of the crop.

34. Revisions of the assessment required in consequence of land under lease being left uncultivated or of land being appropriated for purposes other than cultivation shall be made under the orders of the Divisional Canal Officer.

35. Revisions of the assessment required in consequence of incorrect entries of the names of occupants of lands under lease or of incorrect entries of areas or amounts in the assessment papers, or required by changes, in the occupation of lands shall be made under the orders of the Divisional Canal Officer or other officer in charge of the Revenue Division, provided that no change involving any increase or decrease in the total area under lease for a term of years shall be made, without the concurrence of the Divisional Canal Officer.

36. Remissions of water-rates on account of injury to the crops caused by inundation, by blight, by storms or by any extraordinary cause shall only be allowed under the special orders of the State Government.

Irrecoverable demands

37. The Superintending Engineer may sanction the writing off of those demands which are reported, after due enquiry by the Divisional Canal Officer or other officer in charge of the Revenue Division, as irrecoverable owing to the poverty of the defaulter or of his successors in case of his death, or owing to the defaulter having absconded.

Cultivators' Representatives

38. Whenever the preliminary application for a lease for a term of years has been approved by the Divisional Canal Officer, the officer in charge of the Revenue Division shall, with concurrence of the Subdivisional Canal Officer, select as representative of the cultivators a suitable person or persons who shall generally be acceptable to the cultivators and who shall each have a direct interest in the land for which the lease is executed.

39. The person or persons so selected shall be required to give assistance to the Canal Officers in respect of the following matters:—

(*i*) in the preparation of applications for leases,

(*ii*) in the measurement of irrigated lands,

(*iii*) in recording the names of the occupiers of the holdings,

(*iv*) in receiving demand statements and distributing to the cultivators the individual notices of assessment,

(*v*) in attending, when required, at enquiries into complaints,

(*vi*) in reporting to the Circle Officer any changes in the occupancy of lands under lease, and

(*vii*) in assisting the tahsildar in collecting rates.

40. For such assistance the cultivators' representative or representatives shall be entitled to free irrigation of the lands in his or in their own occupation, which may lie within the boundaries of the leased area subject to a total limit of 3 per cent. of the area assessed. The Divisional Canal Officer or other officer in charge of the Revenue Division may disallow in whole or in part this free irrigation, and may recover the rates which would otherwise have been payable in whole or in part if the assistance specified in rule 39 has not been efficiently rendered. The reasons for such disallowance shall be recorded in writing.

41. The Divisional Canal Officer shall maintain in his office a register containing a record of the names of all representatives and of the areas of free irrigation allowed to each.

42. Applicants for season leases shall be required to nominate one of their number who must have a substantial interest in the land to be irrigated as their representative. The representative so nominated shall perform the same duties as stated in rule 39 and shall receive remuneration on the same scale as in rule 40.

Power to decline or cancel leases

43. Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted or used for the irrigation of lands not under lease, it shall be competent for the Superintending Engineer to direct that the lease shall be cancelled with effect from the 16th of June next following. The order to cancel a lease shall be passed before the 1st of April of the year in which it is to take effect.

44. The Superintending Engineer may give directions to the Divisional Canal Officer to decline applications for irrigation leases of lands in villages where there has been persistent difficulty in realising the water-rates, until all arrears have been paid.

He may further suspend, or altogether cancel, any lease for a term of years, if on the 1st June of any year water-rates to the extent of half the demand for one year are in arrears. Previous notice of intention to put this rule in force shall be given not later than the 15th April preceding.

Miscellaneous

45. Tanks may be supplied with canal-water without charge, when water can be made available without injury to the cultivation dependent on a canal, under the following conditions:—

(*i*) that the water is to be exclusively used for domestic purposes, or for watering cattle;

(*ii*) that a channel exists through which water can pass without waste;

(*iii*) that the water shall only be supplied on the written order of the Subdivisional Canal Officer;

(*iv*) that any new outlet or sluice which may be required to allow of the supply being given shall be provided at the cost of the persons who ask for the water; and

(*v*) that the supply of water may be stopped at any time if it is found that it is being misused.

46. Except when a public right-of-way exists, no person shall, without the permission expressed in writing of the Divisional or Subdivisional Canal Officer, pass himself, or cause any animal or vehicle to pass, on or across any of the works, banks or channels of a canal, or drainage work which is part of the canal system except by means of such bridges, fords and ferries as may have been provided for the purpose.

Any person who, after due warning, commits a breach of this rule may be proceeded against under clause (9) of section 93 of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876).

47. The use of any part of the banks or berms of any canal, drainage work which is part of the canal system, or flood embankment which is subject to the provisions of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876), as a place for answering the calls of nature, is prohibited. Any person who, after due warning, commits a breach of this rule may be proceeded against under clause (9) of section 93 of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876).

48. Should water be required for purposes other than irrigation it may be supplied, when available, at a rate of two rupees per 10,000 cubic feet of water.

49. No officer employed on the canals, unless especially exempted by the State Government from the operation of this rule, shall have any interest in the distribution of water from any of the canals or purchase or bid for any Government property sold thereon either in his own name or in the name of another, or jointly, or in shares with others.

DEPARTMENT OF IRRIGATION AND WATERWAYS

NOTIFICATIONS

No. 351.—16th July 1957.—In exercise of the powers conferred by sections 78 and 99 of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876), the Governor is pleased to make the following rules, schedule of rates and appendices for the supply of water from the Jhiku khal and its tributaries of the projected Jhiku khal Irrigation Scheme in the district of Bankura.

2. A draft of these rules, schedule of rates and appendices was published in the *Calcutta Gazette* of the 23rd May 1957 under notification No. 271, dated the 16th May 1957, as required by section 99 of the said Act.

RULES, SCHEDULE OF RATES AND APPENDICES

Leases for a term of years

1. The country served by the canals shall be mapped out into blocks of convenient size in accordance with the features of the ground, natural or artificial. So far as may be practicable, the blocks shall be separated by drainage lines. This shall be done by the Subdivisional Canal Officer under the guidance and control of the Divisional Canal Officer.

2. Each block determined as above shall be numbered and recorded with its gross and irrigable areas in registers to be maintained by the Subdivisional Canal Officer. The blocks shall also be marked on maps to be maintained by the same officer.

3. Leases for not more than six years may be granted for the whole irrigable area of a block or for definite parts of a block under the following conditions:—

I. Ordinarily the whole irrigable area of any village so far as situated within the block must be included in the lease. If the lands of a village within the block are divisible into two or more distinct parts which can be irrigated independently a separate lease may be granted for each part.

II. All leases within one block shall be so granted that they may expire on the same date.

III. No lease shall be granted when the supply of water must of necessity be delivered across an unleased area, unless a channel exists, which, in the opinion of the Subdivisional Canal Officer, will deliver water without waste across the unleased area.

4. The Superintending Engineer shall fix from time to time the gross area for which and the limits of the canal within which, leases for a term of years may be granted.

5. Maps of all villages in which lands have been brought under lease for a term of years, or in which there is any possibility of such leases being taken, shall be kept in the Subdivisional Canal Office. These maps to be at scale 32″=1 mile when such are available and elsewhere at scale 16″=1 mile.

6. The preliminary application for a lease for a term of years, either new or renewal, may be of an informal nature, but it must be in writing. It may be presented and shall be received either at the Subdivisional or

Sectional Canal Office; in the latter case the Sectional Officer shall forward it immediately to the Subdivisional Canal Officer. The Subdivisional Canal Officer as soon as he has, by personal enquiry or by an enquiry made by the Sectional Officer, satisfied himself that the land in question constitutes a definite block or a definite part of a block, and that it can be irrigated, shall at once inform the Divisional Canal Officer giving such particulars as that officer may direct, and shall ask his formal approval to the lease being proceeded with. On receipt of such approval the Subdivisional Canal Officer shall proceed to make the detailed assessment. The lands to be brought under lease shall be indicated on a copy of the map referred to in rule 5.

7. The Subdivisional Canal Officer on receipt of the application shall depute an amin to prepare the khasra or detailed assessment paper. This shall be done on the ground with the aid of the revenue survey map and khasra. Should the survey map and khasra not be available, the amin shall make a sketch map, and shall measure the areas of the holdings with a chain or measuring-rod.

8. When the amin has completed the khasra he shall forward it to the Subdivisional Canal Officer who shall forward it to the Divisional Canal Officer for approval.

9. As soon as the khasra has been approved by the Divisional Canal Officer, he shall return it to the Subdivisional Canal Officer endorsed with his signature in token of approval.

The Subdivisional Canal Officer shall then prepare a khatian or abstract of the khasra, and shall have the form of application given as Appendix I to these rules, filled up and signed or marked by each of the applicants, in the presence of two witnesses.

When the application has been completely signed, the Subdivisional Canal Officer shall send it to the Divisional Canal Officer, by whom the permit or formal approval of the lease shall be signed and issued in the form given as Appendix III to these rules. The permit shall be made over to the representative of the cultivators by the Subdivisional Canal Officer through his Sectional Officer. The Divisional Canal Officer shall return the application to the Subdivisional Canal Officer with a copy of the permit for record.

10. Should it happen that the cultivators of the block proposed for lease are not unanimous, and that some of them decline to sign the application, the Subdivisional Canal Officer shall report the matter to the Divisional Canal Officer and the Subdivisional Canal Officer shall hold a local enquiry, recording the statements of the persons who decline to sign and recording his personal opinion on the reasons given. He shall then send a report to the Divisional Canal Officer, who shall decide whether the lease may be accepted excluding the fields in the occupation of the persons who decline to sign, or whether the lease shall be declined. The Divisional Canal Officer may grant a lease when not less than 95 per cent. of the net irrigable area of the block has been signed for. In particular cases should it be desirable to grant a lease even though an area larger than 5 per cent. of the block has not been signed for this may be done on the written order of the Superintending Engineer. The reasons for granting the lease shall be fully recorded.

Covering Leases

11. Applicants for a lease for a term of years who may require water before the lease has been concluded can obtain a supply on tendering an application for a covering lease in the form given as Appendix II to

these rules. This application shall be signed in the presence of the tahsildar or of some other responsible officer nominated for the purpose by the Subdivisional Canal Officer. The signatures shall be those of the leading cultivators in the block in question and they shall represent holders of not less than 75 per cent. of the irrigable land within the block.

As soon as the Subdivisional Canal Officer receives the application duly signed, he shall issue a permit in the form given as Appendix IV to these rules, and shall at once supply water.

Season Leases

12. Applications for water to irrigate spring rice or other crops between the 16th November and 15th June may be presented at the Subdivisional Canal Office or to the Sectional Officer. They shall be in the form given as Appendix V to these rules.

In the applications the areas for which water is required shall be specified but the rate shall be charged on those areas for which water is actually used as determined by measurement.

The permit in the form given as Appendix VI to these rules shall be granted by the Subdivisional Canal Officer if he is able to supply the water.

Supply of water

13. The Divisional Canal Officer shall control the supply of water throughout the Division in his charge.

14. No water shall be supplied to any lands except such as have been brought under a lease for a term of years or for the season, or to such as are provided for by a covering lease.

15. Under the forms of irrigation lease in use, no specific supply of water is promised; but the undertaking is to give such a supply to each lessee as may be necessary for the lands leased. The supply shall be given, as may be required for the proper cultivation of the crops under irrigation, according to the exigencies of the season.

16. The Divisional Canal Officer may give the required supply by rotation, should this be advisable for the efficient working of the canals in his charge. In such a case, he is required to give the lessees written notice informing them of the periods when they will be supplied with water.

Collection of water-rates

17. The rates due for water supplied shall be collected by the Divisional Canal Officer or other officer in charge of the Revenue Division, through his staff of tahsildars and peons. All khatians or demand statements shall be signed by the Divisional Canal Officer or other officer in charge of the Revenue Division after scrutiny in his office.

18. At the time of preparation of the khatian in the Subdivisional Canal Office each person assessed shall be furnished with an extract from the assessment paper, showing the particulars of the charge against him. This extract shall be furnished in such form as may from time to time be approved by the Subdivisional Canal Officer for the purpose.

19. Each person on paying the sum due from him shall be given a receipt in the form prescribed for the purpose.

20. For the purposes of account of control over establishment, and of general administration, the Divisional Canal Officer or other officer in charge of the Revenue Division is in the position of an Executive Engineer in charge of a Division, and is directly subordinate to the Superintending Engineer. In regard to any proceedings taken under the Public Demands Recovery Act, 1913 (Bengal Act III of 1913), the Divisional Canal Officer is subject to the control of the Collector of the district.

Unauthorized use of water and waste of water

21. Should it be necessary to take action under the provisions of sections 79 and 80 of the Bengal Irrigation Act, 1876 (Ben. Act III of 1876), proceedings shall be instituted only under the direct and special order of the Divisional Canal Officer. The primary record of the facts regarding the unauthorized use or the waste of water shall be made by the Subdivisional Canal Officer and his subordinates. The parties whom it is proposed to assess shall be informed in writing, and shall be called on to show cause why they should not be assessed. The record of their statements shall be made by the Divisional or by the Subdivisional Canal Officer. The Divisional Canal Officer shall consider the facts and statements recorded, and shall, in deciding the case, give his reasons for or against assessment, both as regards the facts and as regards the law; and he shall determine rate to be charged subject to the provision in the schedule of rates attached to these rules.

22. Should the Divisional Canal Officer decide on making an assessment, he shall have the assessment paper prepared by the Subdivisional Canal Officer and his staff. Each person assessed shall be furnished with a statement of the charge against him, and an abstract of the demand or khatian shall be sent to the officer in charge of the Revenue Division, who shall proceed to recover the sums assessed. The period of one month within which an appeal may be presented to the Collector under section 91 of the Bengal Irrigation Act, 1876 (Ben. Act III of 1876), shall be computed from the date on which the statement of the charge may be furnished to the persons assessed, which date shall be endorsed on it.

23. No proceedings shall be instituted if the unauthorized use or the waste of water have occurred through the act or neglect of a Canal Officer or a subordinate officer employed on the canal. During the irrigation of autumn rice, the passing on of surplus water from leased to unleased fields is not an unauthorized use of water.

Complaints and Applications

24. All complaints or applications with respect to the supply of water, to defective drainage, and generally with respect to the administration of the canal, shall be received on presentation at either divisional or subdivisional canal offices.

Complaints and applications received by a Divisional Canal Officer may be transferred to his Subdivisional Canal Officer for disposal at his discretion.

Any such complaints or applications, if presented to the Sectional Canal Officer or to his staff, shall be returned endorsed with instructions as to the proper office at which to present them. If received by post, they shall be at once forwarded to the Divisional or Subdivisional Canal Officer.

25. Complaints or applications with respect to corrections of the assessment with respect to the actions of the amins in assessing and with respect to the actions of the tahsildars and other staff employed in collections, shall be received at the office of the Divisional Canal Officer or other officer in charge of the Revenue Division.

26. Receipts in the prescribed form shall be given at all offices for complaints or applications presented. The receipt of all complaints and applications shall be recorded in registers to be kept for that purpose.

27. The officer receiving the complaint or application shall either make personal enquiry into the matter or he shall nominate in writing some responsible person to hold the enquiry.

28. The orders passed on all complaints or applications shall be in writing, and a copy of every order shall be furnished to the complainant or applicant.

The copy of order may be sent by post (registered), if this is convenient.

The period within which an appeal may be presented under section 91 of the Act shall be computed from the date on which the copy of the order is received by the person.

29. When an appeal to the Collector is from the order of a Subdivisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record on them such remarks as he may think desirable, provided that he does not thereby detain the proceedings.

In all cases in which an appeal against an assessment is preferred to the Collector, that officer may, if he thinks fit, direct that the collection of water-rates be suspended till the appeal is heard.

30. The Divisional Canal Officer may revise the proceedings of his Subdivisional Canal Officers and the Superintending Engineer may call for and revise the proceedings of all officers under his control.

Remissions and alterations of demand

31. Whenever the crop on land entitled to a supply of water suffers material injury from an insufficient supply of water, or from any interruption in the supply of water, remission of the rate due on such crop shall be given by the Divisional Canal Officer, provided that the person claiming remission shall have applied for such not less than fifteen days before the reaping of the crop.

32. On the occasion of lands being brought under a lease for a term of years, the Divisional Canal Officer may remit the rates for the first season on those fields which from the nature of the cultivation then obtaining, or from other causes, have not, in that season, derived any benefit from the supply of canal water.

33. Should the crop on lands under lease for a term of years suffer material injury from excess of water due to deficient drainage, the Divisional Canal Officer may grant remission of the rates due on such lands in whole or in part, provided that the person asking for remission shall have applied at least fifteen days before the reaping of the crop.

34. Revisions of the assessment required in consequence of land under lease being left uncultivated or of land being appropriated for purposes other than cultivation shall be made under the orders of the Divisional Canal Officer.

35. Revisions of the assessment required in consequence of incorrect entries of the names of occupants of lands under lease or of incorrect entries of areas or amounts in the assessment papers, or required by changes, in the occupation of lands, shall be made under the orders of the Divisional Canal Officer or other officer in charge of the Revenue Division, provided that no change involving any increase or decrease in the total area under lease for a term of years shall be made without the concurrence of the Divisional Canal Officer.

36. Remissions of water-rates on account of injury to the crops caused by inundation, by blight, by storms or by any extraordinary cause shall only be allowed under the special orders of the State Government.

Irrecoverable demands

37. The Superintending Engineer may sanction the writing off of those demands which are reported, after due enquiry by the Divisional Canal Officer or other officer in charge of the Revenue Division, as irrecoverable owing to the poverty of the defaulter or of his successors in case of his death, or owing to the defaulter having absconded.

Cultivators' Representatives

38. Whenever the preliminary application for a lease for a term of years has been approved by the Divisional Canal Officer, the officer in charge of the Revenue Division shall, with concurrence of the Subdivisional Canal Officer, select as representative of the cultivators a suitable person or persons who shall generally be acceptable to the cultivators and who shall each have a direct interest in the land for which the lease is executed.

39. The person or persons so selected shall be required to give assistance to the Canal Officers in respect of the following matters:—

(*i*) in the preparation of applications for leases,

(*ii*) in the measurement of irrigated lands,

(*iii*) in recording the names of the occupiers of the holdings,

(*iv*) in receiving demand statements and distributing to the cultivators the individual notices of assessment,

(*v*) in attending, when required, at enquiries into complaints,

(*vi*) in reporting to the Circle Officer any changes in the occupancy of lands under lease, and

(*vii*) in assisting the tahsildar in collecting rates.

40. For such assistance the cultivators' representative or representatives shall be entitled to free irrigation of the lands in his or in their own occupation, which may lie within the boundaries of the leased area subject to a total limit of 3 per cent. of the area assessed. The Divisional Canal Officer or other officer in charge of the Revenue Division may disallow in whole or in part this free irrigation, and may recover the rates which would otherwise have been payable in whole or in part if the assistance specified in rule 39 has not been efficiently rendered. The reasons for such disallowance shall be recorded in writing.

41. The Divisional Canal Officer shall maintain in his office a register containing a record of the names of all representatives and of the areas of free irrigation allowed to each.

42. Applicants for season leases shall be required to nominate one of their number who must have a substantial interest in the land to be irrigated as their representative. The representative so nominated shall perform the same duties as stated in rule 39 and shall receive remuneration on the same scale as in rule 40.

Power to decline or cancel leases

43. Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted or used for the irrigation of lands not under lease, it shall be competent for the Superintending Engineer to direct that the lease shall be cancelled with effect from the 16th of June next following. The order to cancel a lease shall be passed before the 1st of April of the year in which it is to take effect.

44. The Superintending Engineer may give directions to the Divisional Canal Officer to decline applications for irrigation leases of lands in villages where there has been persistent difficulty in realising the water-rates, until all arrears have been paid.

He may further suspend, or altogether cancel, any lease for a term of years, if on the 1st June of any year water-rates to the extent of half the demand for one year are in arrears. Previous notice of intention to put this rule in force shall be given not later than the 15th April preceding.

Miscellaneous

45. Tanks may be supplied with canal-water without charge, when water can be made available without injury to the cultivation dependent on canal, under the following conditions:—

(*i*) that the water is to be exclusively used for domestic purposes, or for watering cattle;

(*ii*) that a channel exists through which water can pass without waste;

(*iii*) that the water shall only be supplied on the written order of the Subdivisional Canal Officer.

(*iv*) that any new outlet or sluice which may be required to allow of the supply being given shall be provided at the cost of the persons who ask for the water; and

(*v*) that the supply of water may be stopped at any time if it is found that it is being misused.

46. Except when a public right-of-way exists, no person shall, without the permission expressed in writing of the Divisional or Subdivisional Canal Officer, pass himself, or cause any animal or vehicle to pass, on or across any of the works, banks or channels of a canal, or drainage work which is part of the canal system except by means of such bridges, fords and ferries as may have been provided for the purpose.

Any person who, after due warning, commits a breach of this rule may be proceeded against under clause (*9*) of section 93 of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876).

47. The use of any part of the banks or berms of any canal, drainage work which is part of the canal system, or flood embankment which is subject to the provisions of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876), as a place for answering the calls of nature, is prohibited. Any person who, after due warning, commits a breach of this rule may be proceeded against under clause (*9*) of section 93 of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876).

48. Should water be required for purposes other than irrigation it may be supplied, when available, at a rate of two rupees per 10,000 cubic feet of water.

49. No officer employed on the canals, unless especially exempted by the State Government from the operation of this rule, shall have any interest in the distribution of water from any of the canals or purchase or bid for any Government property sold thereon either in his own name or in the name of another, or jointly, or in shares with others.

LABOUR DEPARTMENT

ORDER

No. 2489I.R./IR/11L-193/57.—12th July 1957.—Whereas under the Government of West Bengal, Labour Department, order No. 1828Dis./D/11L-44/56, dated the 5th May 1956, the industrial dispute between Messrs. Plastic Moulders, Ltd., Ghusury, Howrah, with Head Office at 38 Strand Road, Calcutta-1, and their workers represented by Plastic Moulders' Mazdoor Union, 48 Dharmatolla Street (1st floor), Calcutta-13, was referred for adjudication to the Sixth Industrial Tribunal;

And whereas during the pendency of proceedings before the said Tribunal, a complaint in writing was filed by Shri Banku Behari Saha, a worker of the said Company, before the said Sixth Industrial Tribunal against the said Company, alleging that the said Company had altered, to the prejudice of the said worker, the conditions of service applicable to him immediately before the commencement of the said proceedings;

And whereas in exercise of the powers conferred by section 33A of the Industrial Disputes Act, 1947 (XIV of 1947), the said Tribunal has adjudicated upon the said complaint and submitted its award to the State Government;

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto;

ANNEXURE

In the matter of a complaint under section 33A of the Industrial Disputes Act, 1947, as amended by the Industrial Disputes (Appellate Tribunal) Act, 1950, filed by Shri Banku Behari Saha, a workman of Messrs. Plastic Moulders, Ltd., 38 Strand Road, represented by Plastic Moulders' Mazdoor Union, 48 Dharamtolla Street (First Floor), Calcutta, against the aforesaid Company. (Case No. 181 of 1956 under section 33A.)

BEFORE THE SIXTH INDUSTRIAL TRIBUNAL, WEST BENGAL

PRESENT:

SHRI SAILESH SENGUPTA, *Judge, Sixth Industrial Tribunal.*

Appearances:

For the Company: Shri K. K. Guha, B.Com., LL.B., D.S.W. (Cal.).

For the complainant: Shri R. Bose, Official of the Union.

The original reference out of which this present complaint under section 33A of the Industrial Disputes Act has arisen was made under Government order No. 1828Dis./D/11L-44/56, dated Calcutta, the 5th May 1956.

This is an application under section 33A of the Industrial Disputes Act by Shri Banku Behari Saha for relief against suspension order by the employer, The Plastic Moulders, Ltd., during the pendency of a reference proceeding without the permission of the Tribunal. A similar application had been presented by Shri Banku Behari Saha on the same facts which

was rejected on 1st September 1956 by this Tribunal on the finding that suspension in the present instance was not punishment and hence section 33 of the Industrial Disputes Act was not violated.

The case made out by the applicant is that he had found two packets of plastic combs lying near a water tap. The packets were picked up by him for purposes of delivery to the Engineer Arun Babu. Another worker who happened to be nearabout the place charged Banku Behari Saha with theft of the combs. The matter being reported to the Management Banku Behari was charge-sheeted and placed under suspension. Since a reference proceeding was then pending suspension thus ordered was considered to be in contravention of section 33.

The Company's case is that Banku Behari Saha had stolen two dozens of combs and was detected when he was trying to keep them concealed on his person. He was suspended and a charge-sheet was served. An enquiry was held on the basis of the charge-sheet. He was found guilty of the offence of theft. The company intended to apply to the Tribunal for permission to dismiss him but in the meantime an application under section 33A was filed by him. That application was rejected by this Tribunal. In the circumstances the same question is not open for reagitation on the principle analogous to *res judicata*. Further, suspension in the present case was no punishment within the purview of section 33. On both these grounds the Company pleaded that the present application must fail.

DECISION

The occurrence took place on 8th June 1956. Exhibit 1 is the order passed on the same day by the Management calling upon him to submit his explanation by the next day. Suspension was simultaneously ordered for reasons of security. An enquiry was admittedly held on 13th June 1956. Exhibit A is the statement made on the day of enquiry in which Banku Behari stated that he had nothing further to add to what he had already submitted in his explanation on 9th June 1956. The order, Ext. 1, is quite explicit that suspension was directed as a measure of security and not by way of punishment. Since the Company contemplated holding an enquiry it follows as a matter of course that the question of punishment was to be determined on the result of the enquiry. Suspension was an interim measure and not a punishment for the offence. On behalf of the worker reliance was placed on a decision of the Labour Appellate Tribunal reported in 1955, L.A.C. page 495. Their Lordships pointed out at page 500 of the report that suspension may be of two kinds. There may be suspension pending enquiry or for the time that is required for permission from the Tribunal. Suspension pending enquiry or to obtain permission is no punishment. Where it is not so, suspension becomes a substantive punishment. On the facts their Lordships held that in that case suspension was substantive punishment. The facts of that case are far from analogous to the facts of the present case. The notice given to the workers was in the following terms:—

> "Notice is hereby given that the following workers of the Sasamusa Sugar Works Limited have been found to be taking active and leading parts in the present unjustified go-slow and which has been resorted to in contravention of the Industrial Disputes Act, 1947. They are, therefore, suspended from the service until further orders with effect from 1st February 1952."

Their Lordships pointed out that no reservation was made that this suspension was made pending enquiry or until permission was obtained

from the Tribunal. No enquiry was held by the Management. The workers made an application under section 33A of the Industrial Disputes Act. A considerable time thereafter the Company presented an application under section 33. Their Lordships held that the application under section 33 was a counter-move against the complaint made under section 33A. In this view they held that the application of the Company was not *bona fide*. In the present case while placing the worker under suspension the Company made it quite clear in the order that this was a measure of safeguard. Dismissal was, in the estimation of the Management, the most befitting punishment but it necessarily depended on the result of the enquiry. There is thus a good deal of distinction between the case relied on and the one we are called upon to decide. It may be pointed out that the question whether suspension in this instance was punishment or not was not directly or substantially in issue in that case. For, the workers' appeal against the order under section 33A was not pressed. Their Lordships had simply to consider whether the application under section 33 should be allowed and the restrictions on the power of the Management to inflict punishment should be lifted. This case therefore brings little comfort to the worker.

In the Assam Oil Company's case reported in 1954, 2, L.L.J. page 328, the observation finds place that punishment presupposes an offence and in order that a disability imposed by the employer on the workman may be considered to be punishment, the intention of the employee, expressed or implied, is very material. The employers in that case passed order of suspension without pay for the period which was to last till the application for permission to punish was made and the order of the Tribunal was obtained thereon. In another case reported in 1955, 2, L.L.J. page 693, their Lordships pointed out that as the employers were not imposing suspension as punishment for any offence they did not need any permisison of the Industrial Tribunal for this purpose in imposing a suspension for security reasons even though ultimately such reasons may not be found to be justified. Their Lordships further observed that there can be no question that the order of suspension was passed in that case by the employer not to impose any punishment but presumably because the Management considered it safer not to allow the workers to be present in the place of work. That is exactly what happened in the case under consideration. The identical point was fully considered by their Lordships of the Supreme Court in the case of Lakshmi Devi Sugar Mills, Ltd. *versus* Ram Sarup and others, reported in 1957, 1, L.L.J, page 17. Their Lordships upheld the view that suspension without pay pending enquiry as also pending permission of the Tribunal could not be considered a punishment as such suspension without permission would only be an interim measure and would last till the application for permisison to punish the workman is made and the Tribunal had passed orders thereupon. If the permission was accorded the workman would not be paid during the period of suspension, but if the permission was refused he would have to be paid for the whole period of suspension. There is nothing like a contingent punishment of a workman and therefore such suspension could not be deemed to be a punishment. It was further laid down that it could not be contended that suspension without pay even for an indefinite period pending enquiry or pending the permission of the Appropriate Tribunal to dismiss the workmen would be punishment. On behalf of the workman the point was pressed that application for permission was long delayed obviously for the purpose of accentuating the distressed condition in which the worker had been plunged. An earlier application made by this workman under section 33A was rejected on 1st September 1956. The Company did not make any application for three months thereafter. On 4th December 1956, the present application was presented. Thereafter on 10th December 1956, an application under

section 33 was submitted. There was certainly delay on the part of the Company. But if suspension did not partake the character of punishment at the time it was ordered, the delay in coming up to the Tribunal for permission would not change its nature. What was no punishment at the date suspension was ordered could not develop into a punishment because the company let some time to pass.

The decision of this Tribunal in the earlier case is also a stumbling block in the way of the worker. It was held that suspension ordered on 8th June 1956 was not a punishment and section 33 was not infringed. The force of that decision cannot be whittled down. Learned spokesman for the worker argued that there has been change in the circumstances because the Company wasted a lot of time and did not fulfil the assurance given to the Tribunal at that time that an application under section 33 would be filed. Because of this delay the effect of the decision cannot be said to have been nullified. The position must be accepted as final that suspension as ordered did not violate the terms of section 33. Nothing was done since then by the Company to alter the character of the suspension and turn into a punishment. In fact dismissal was contemplated as will appear from the original notice Ext. 1. That was the punishment that the Company had in view. The earlier decision still holds away. No punishment was inflicted by reason of the worker being placed under suspension and nothing happened subsequently to give it a different complexion. I hold therefore that section 33 was not contravened. This application must share the same fate as its predecessor. It is hereby rejected.

ANNEXURE

In the matter of an industrial dispute existing between Messrs. Port Engineering Works, Nazirgunj, Howrah, with Head Office at 8 Clive Row, Calcutta-1, and their workers represented by Port Engineering Mazdoor Union, 164 Andul Road, P. O. Botanic Gardens, Howrah. (Case No. VIII-386 of 1955.)

BEFORE THE FIFTH INDUSTRIAL TRIBUNAL, WEST BENGAL

SHRI G. PALIT, *Judge, Fifth Industrial Tribunal.*

Present for the Company: Shri S. C. Sen, Advocate, with Shri K. L. Chatterji, Pleader, of Messrs. Orr, Dignam & Co., Solicitors.

Present for the Union: Shri Snehangshu Acharyya, Counsel, assisted by Shri Ram Sen of the Union.

1. By Government order No. 6058Dis./D/10L-116/55, dated the 22nd December 1955, the aforesaid dispute has been referred to the Fifth Industrial Tribunal, presided over by me, under section 10 of the Industrial Disputes Act, 1947 (XIV of 1947), for adjudication. The said Fifth Industrial Tribunal was constituted under section 7 of the Act by the notification No. 3581Lab., dated the 9th June 1951.

2. The reference was received here on 29th December 1955. The Union filed written statement on 11th February 1956. The Company filed written objection on 3rd March 1956. Thereafter an addendum No. 1799Dis./D/10L-51/56, dated 2nd May 1956, was received from Government, and in consequence thereof supplementary statements were given by the parties. A date for hearing was fixed. Thereafter, a corrigendum No. 3385Dis./D/10L-51/56, dated 4th August 1956, was received from Government. But no supplementary statement was filed by the Union or the Company. The case was heard on 8th February 1957 and 11th February 1957 when the evidence was concluded. After several adjournments the argument was heard on 23rd May 1957. The award was reserved.

AWARD

4. **Issue No. 1:** According to the Union, this concern is an engineering unit controlled and managed by British capital. It is engaged in ship-building industry, and moulding work in the foundry. The Management withdrew the overtime work benefit prevalent in the concern, and replaced it by a production bonus scheme. That system was also withdrawn without proper trial. The protest of the workmen against all this went unheeded. Over and above this, 11 workmen were suspended, and ultimately the Management took the decision to dismiss them. It is further contended that the Management is employing a large number of hands on temporary basis for a long time without making them permanent. The profit-sharing bonus scheme was also inveighed against by the Union which, according to it, calls for revision. So the Union claims two months' wages as bonus, and also a production bonus scheme such as to ensure fair return to the workmen on extra production, and for making people permanent after 6 months' service.

The Company denies all the above allegations against it. It admits that it stopped overtime work because the Factory Inspector had taken exception to it. The Company, to supplement the deficit in the earnings caused by the withdrawal of overtime work, introduced a production bonus scheme. But it was made available only to the workmen in the foundry. The sweep moulders, who are not piece-rated, also claimed to participate in the said production bonus scheme. But the Company was not disposed to concede it. The matter came to a head on the 13th July 1955, when these workmen staged a "sit down" strike. The Assistant Labour Commissioner, Howrah, intervened in the matter, and at his instance the Company included the sweep moulders to have the benefit of the production bonus scheme. But these workmen again staged an illegal "sit down" strike on the 5th August 1955, without any justification. So the Company charge-sheeted 11 of these workmen for violation of the Company's standing orders. Then there was another strike on the 26th September 1955. This stay-in-strike lasted for one day, and it was followed by an agreement between the parties under which the matter was sought to be referred to a Tribunal for adjudication.

Regarding the specific issue in question, as it will appear from the above, the workmen had been given one month's basic salary for the year 1954-55 under the profit-sharing bonus scheme. They claimed two months' basic salary as bonus for the said year. The workmen also claimed for a revision of the said profit-sharing bonus scheme. This profit-sharing bonus scheme has been marked as Ext. 6. The old profit-sharing bonus scheme is embodied in the award of Shri P. R. Mookerji published in the *Calcutta Gazette*, dated the 17th July 1952. This scheme is still in operation in the Company. Under this scheme it appears that bonus has been made payable under 4 different grades, viz., A, B, C and D. Under the grade "A" four weeks' basic pay is payable on profits amounting to Rs. 1,00,000 or more, after making certain deductions. But in case the profits are less, the quantum of bonus has been scaled down to the extent of one week's basic pay for Rs. 25,000. So it is clear that whatever may be the profits beyond one lac of rupees, the bonus cannot exceed 4 weeks' basic pay. Now, 4 weeks' basic pay has already been given, admittedly, for the year in question. So under this scheme nothing more is payable. The profit-sharing bonus scheme is based on a contractual agreement. So long as the agreement subsists, the bonus will be payable according to the terms laid down therein. So, in this view, the claim of two months' basic salary as bonus cannot be sustained.

Regarding the claim for a revision of the profit-sharing bonus scheme, it is not tenable as the issue is not comprehensive enough to cover it. So I am not entitled to go into the question of revision of the existing scheme of profit-sharing bonus, as embodied in the aforesaid award, though I am disposed to find that it is going hard with the workers. The scheme, as it is, is rigid. It does not provide for payment of higher bonus in case the profits go beyond rupees one lac. Such rigidity can hardly be upheld. But I am helpless in the matter as the issue does not warrant any interference by the Tribunal. The workers are also not entitled to ignore the scheme, and claim bonus purely on profits because, once they received a certain amount as bonus under the profit-sharing scheme, based on profits, they cannot invoke giving of further bonus on the same profits. So the question of giving the workmen further bonus in excess of what is available under the profit-sharing scheme, cannot arise in the present case. So that contention is ruled out. In the result the claim for further bonus in excess of what has been given, viz., one month's basic pay, does not lie in the present case.

Issue No. 2: This issue relates to the production bonus. How this production bonus scheme came to be introduced in July 1955 has been set forth in the Company's version of the case, as already referred to. Overtime work was discontinued under the orders of the Factory Inspector. Mr. W. Robb, O. P. W. 1, who is the Manager of this concern, deposes before me that before March 1955 the moulders were working overtime. In February or in the beginning of March 1955 the Factory Inspector called at our factory, and he took exception to overtime work. So, because of his objection, overtime was stopped. The Exts. G and G1 show that the Factory Inspector did object to overtime in the Slip Way Department. Exhibits G2 and G3 further confirm this. So it is clear that the Company was forced to stop overtime work.

The Manager further says in his deposition before me that as a result of stoppage of overtime work they found themselves very much behind, and they could not finish work for giving timely delivery. In this state of affairs the production bonus was first introduced. The Manager says that he wanted to organise the coolies, and then to line up other people, viz., moulders, etc., in the scheme. This arrangement continued up to June 1955. The Manager could not extend the production bonus scheme to the moulders because, according to him, their nature of work did vary considerably, and also because that there were piece-rated workers in the said shop. This led to a strike on the 13th July 1955. The Assistant Labour Commissioner, Howrah, intervened, and the production bonus scheme was extended to the sweep moulders. But on the 5th August 1955 the moulders were told that they had earned no production bonus. This exasperated the sweep moulders, and they went on strike. The Company charge-sheeted 11 of the sweep moulders and placed them under suspension. Ultimately the Company decided to dismiss them. Thus, it is clear that this production bonus scheme was in operation for barely a month, i.e., from the middle of July 1955 to the first week of August 1955. Now, let us see why it was withdrawn. The notice, Ext. B1, relates to the withdrawal of the said production bonus scheme. I quote the relevant portion from that notice.

> "The scheme is now being withdrawn due to the fact that in spite of the Company's best endeavour the great majority of those who stood to benefit by this scheme have resorted to an illegal, and in the circumstances, quite unjustified strike. The Company in accordance with paragraph 8 of the Experimental Production Bonus Scheme, reserved the right to terminate or modify the scheme if the scheme did not work to the Company's satisfaction.

The Company, for the reasons explained above, do not consider the scheme has produced satisfactory results. The scheme is, therefore, withdrawn with effect from 31st August 1955."

This is dated the 18th August 1955. So it appears that the Company wants to stand on its right to rescind the production bonus scheme at any time it pleases. That is no doubt, provided in the scheme itself. If we consider the circumstances under which the scheme came into being, it will be difficult to justify the Company in its present action. Overtime was withdrawn resulting in diminution in the earnings of the workmen. The production bonus was introduced by the Company to maintain the production. It was extended to the moulders at the intervention of the Assistant Labour Commissioner, Howrah, much against the Company's will, as a result of the "sit down" strike by the workmen. Naturally, the moulders expected that they would earn some production bonus this time as a result of the step aforesaid. But when on the 5th August, which was a pay day, they were told that they had earned no production bonus, it made them furious. They embarked upon a "sit down" strike again. In such circumstances, the Company should have considered and revised the said production bonus scheme so that these moulders might earn some amount of promised bonus. But, instead of that, the Company withdrew the scheme altogether. The moulders did give increased production. They found that they got nothing in return for the extra labour rendered by them. So the withdrawal of the scheme by the Company, in the present setting, cannot be justified. I, of course, agree with the learned Advocate of the Company that it rests at the discretion of the Company to hold out the production bonus scheme to the workers. The workers may either take it or leave it. It cannot be thrust on the workmen any more than it can be thrust on the employer at the instance of the other side. This is no doubt true. But once it is introduced, the Company cannot take the benefit out of it; and deny the corresponding benefit to the workmen. Besides, the scheme was practically given no trial at all. One month or 6 weeks' time is hardly enough for the purpose. So I think this production bonus scheme must be reintroduced and given a fair trial—at least for 3 months. If it does not work satisfactorily, then the Company should try to reach an agreement with the workers in a bipertite conference just to see whether the target should be lowered down so as to make this bonus available to the workmen who put in a good amount of extra labour for production. If after that it is found unworkable, then it should be abandoned. None of the parties has placed before me data enough to enable me to remove lacunae, if any, in the said scheme. The reason for withdrawal of the scheme is, at all events, unacceptable. Exhibit B1 does hardly carry any conviction. The Company did not, as it should have had done, place before me the production chart just to show how much production these moulders did give under the scheme. Exhibit C shows how the production bonus was earned by the Foundry workers. It appears to me that the Company did not look with favour on this production bonus being made payable to the moulders. It preferred the piece-rate system. It wanted, presumably, to force the moulders who are time-rated, to work as piece-rated workers. That is certainly a step which cannot be supported by anybody. Regard being had to all these facts and circumstances, I give the direction to reintroduce the production bonus scheme, as it was framed, for 3 months for the present, after the award becomes operative, and then to modify it or scrap it as found expedient.

Issue No. 3: This issue relates to the question of permanency of workmen. Shri Kashinath Mandal, P. W. 1, who is an electrical welder in this Company for the last 9 or 10 years, and who is also the Secretary of the Union, has stated in his deposition before me "There are many

workmen in this concern who have been serving for a long period, but are still treated as temporary hands. People are admitted into the service of this concern after signing the printed form of agreement. Nobody is permitted to put in service beyond 3 months at a stretch. After 3 months' service the workers are discharged, and again after a week or so they are readmitted into the service. They are given different tickets. This continues all along. Workers are not made permanent. This system is in vogue for the last 4 or 5 years. Many complaints have been received by me in this connection". He refers to complaints as per the Exts. 2 and 2(a). He has prepared a list of temporary workers, as per the Ext. 3. In cross-examination he says "Temporary hands are mostly engaged in Slip Way Department. Since last 1 or 2 years the work in the Slip Way section is constant and pretty brisk". The Company contends that the Standing Orders of the Company provide against such contention. The Standing Orders provide that until a worker has been in the Company's service for six months he will be considered to be on probation, and that at the end of this period of six months he will be made permanent unless he is found unfit and as such discharged. The Company submits in paragraph 21 of its written statement that the above rule regarding probationers cannot be automatically applied to temporary employees, and different considerations must prevail regarding the absorption of temporary employees on permanent basis. From the above it is clear that the workmen have a definite grievance which, if true, is certainly a serious one. The Company's statement about its Standing Orders shows that the rules about probationers do not apply in the case of temporary hands. Separate considerations according to the Company must bear on this matter. But the Company does not suggest any remedy. If I turn to the Ext. 3, I get instances of particular men having been employed 30 times or 35 times, and having been given different numbers. This to a certain extent corroborates the Union's version of the matter. If I look to the Ext. F, I get that in the Slip Way Department the number of temporary hands varied during the year 1955, roughly, from 50 to over 100. This is against the permanent strength of 215 hands in that department. Thus, it is clear that in this department at least 50 men can very well be made permanent. This I say more or less roughly. The number of temporary hands in other departments, barring the Foundry Department, is not worth mentioning. In the Foundry also the number of temporary hands, as shown in the Ext. F, is very large from May to December 1955. So there is a good deal of substance in the contention of the workmen that the Company is averse to or reluctant to confirm its workmen in service. It prefers to keep them in the temporary roll as long as it can. In the result the workmen are being denied the legitimate benefits of permanent service. But to apply the rule of confirmation after six months' service, as is claimed by the Union, is difficult to concede. Probationers are appointed with an eye to permanent vacancies. So there is no difficulty in making them permanent in due course, provided they are found fit. But in the case of temporary hands, the position is different. When there is an influx of work, more men are necessary to cope with the work. But when there is a slump, and the work is dull, temporary hands are discharged. So, to determine the permanent requirement, the exact requirement throughout the year is to be ascertained, and also the average figure of last two consecutive years is to be taken. However, to safeguard the interest of the workmen, I give the following diretcions:—

A total period of 6 months' service as a temporary hand in this concern, no matter whether there are breaks here and there, will make a person eligible for being enlisted in a pool to be prepared by the Company at the end of each year, in consultation with the Union. They will be given preference in the matter of selecting men for temporary vacancies. At the

end of each year, the Company will examine and decide as to how many from among the temporary hands can be made permanent with an eye to the steady requirements during last two years. The Company will increase the permanent cadre by drafting men from the above pool. By this system, though the temporary hands do not get any immediate relief, yet they are assured of full consideration, and they may expect employment when they have put in a total period of six months' service in this Company. In this connection I must point out that in the Slip Way Department the permanent cadre has to be immediately increased because the number of temporary hands was pretty large throughout. So in the Foundry Department (*vide* the Ext. F). Beyond this I am unable to give any direction for making temporary hands permanent. If at any time the Company's business in any of the departments shows a decline such as the total strength cannot be maintained, then the remedy will lie, firstly, in not taking more men and, secondly, if it is unavoidable, to resort to retrenchment. Purely, contingently discharging temporary hands under the apprehension of bad time can never conduce to industrial peace, nor can it justify the Company's present state of things.

Issue No. 4: Out of the eleven workers mentioned in the issue, six are said to have resigned from their service under the Company, and are said to have taken their dues on giving receipts of full satisfaction of their claims. Those six workers are as below:

(1) Kristo Ch. Khara.
(2) Nanda Lal Sardar.
(3) Panchu Dolui.
(4) Tarapada Das.
(5) Utsab Soine.
(6) G. Manna.

The Union also does not press their claim. So I refrain from considering their cases.

Regarding the rest, I consider them in a group. There is no special feature in the case of any one of them. I have already stated under what circumstances these men were charge-sheeted, and why they were charge-sheeted. The charge against them is as per the Exts. A and A1. As per the Ext. A, I get that they were said to be guilty of "wilful disobedience, and interference with the work of other employees". As per the Ext. A1, I get that they were further charged for having refused to accept the charge-sheet after giving their signature, and also for having surrounded the Works Manager. For the latter reason they were not charge-sheeted. Exhibit A2 shows the Management's decision in the matter. The Management is said to have reached this decision after holding a full enquiry in the matter. The enquiry proceeding is Ext. H. The decision was to dismiss these people for "wilful insubordination and disobedience, and for interference with the work of other employees" (*vide* Ext. A2). No doubt, the above charges constitute a major misdemeanour under the Company's Standing Orders. Now, let me consider the charges in the light of evidence before me.

It is not disputed that there was an appeal pending before the Labour Appellate Tribunal regarding this Company. So the "sit down" strike on the 5th August 1955 was certainly illegal. Now, if it is assumed or held that an illegal strike in itself carries its condemnation then, of course, the justification need not be gone into. But if the offence is merely technically illegal, I think, it is open to the Tribunal to look into the circumstances under which the offence is committed. Even the Indian Penal Code provides for extenuating circumstances surrounding the commission of an offence. Such extenuating circumstances have a great bearing on the penalty to be

ultimately inflicted, and sometimes the circumstances may be such as may indemnify the criminal and totally exonerate him. If that is so, in a statutory code of law, I think the scope cannot be narrowed down in Industrial law which has a broader outlook. The interest of the industry as well as the interest of the workmen must be considered in a total view. I have already shown that the Company was not right in withdrawing the production bonus scheme all on a sudden. It should have been given a fair trial. Besides, by this withdrawal the workmen were deprived of the benefit of labour rendered for extra production. So the workmen were legitimately swarting under a grave injustice. In such circumstances, they embarked upon a "sit down" strike on the 5th August when they were surprised to find that their pay packet did not contain any production bonus. So I can very well hold that these workmen had ample provocation for launching a strike. A strike is not a condemned weapon in Industrial Court. Only it is restricted to be resorted to in the last instance. In the present case these people got exasperated and had recourse to strike. I do not support the strike, but I say that it was to a certain extent provoked. Next, they were given the charge-sheet and were asked to give their signature as a token of acknowledgment. They declined saying that they took it to be the notice of dismissal. There is no evidence that these charge-sheets which were in English were explained to them in a language intelligible to them. The workmen being illiterate as they are, should not be so strictly dealt with. Their case should be considered with a certain amount of sympathy. This does not, of course, mean that they should be guilty of indiscipline. They say that they did not know that they were suspended. They were not held up at the gate on the next day when they entered the workshop. So the order of suspension apparently was not communicated to the durwan at the gate. So the mere fact that they were found inside the factory premises cannot be taken to be a crime in itself. There is no evidence that they forced their entry into the factory or attempted to do it at any time after it. So I do not see that there was any wilful disobedience on the part of these five workmen. Regarding the charge of interference with work of other employees, the evidence is very meagre—almost nil. So that charge apparently is not brought home to these workmen.

This being the position, I award that these five men who have not resigned from their service and not taken their dues, should be reinstated when the award becomes operative. But as I find that they were guilty of some amount of misdemeanour, I do not allow them any compensation from the date of suspension up to the date of reinstatement. This period will also not count towards their service in the Company. So the order of suspension as well as the decision to dismiss these men are set aside, subject to above conditions. The names of persons to be reinstated are as follows—

(i) Kaloo Bachar.
(ii) Joydeb Nigal.
(iii) Anil Bag.
(iv) Bhacreswar Khara.
(v) Rakhal Nath.

Great Indian Motor Works, 33 Rowland Road, Calcutta-29, and their workmen represented by Bengal Motor Industry and Transport Workers' Union, 14 Moti Sil Street, Calcutta-13, regarding the matters specified in the schedule thereto was referred for adjudication to the Fifth Industrial Tribunal;

And whereas the said Fifth Industrial Tribunal has submitted to the State Government its award on the said industrial dispute;

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE

In the matter of an industrial dispute existing between Messrs. Great Indian Motor Works, 33 Rowland Road, Calcutta-29, and their workmen represented by Bengal Motor Industry and Transport Workers' Union, 14 Moti Sil Street, Calcutta-1. (Case No. VIII-201/56.)

BEFORE THE FIFTH INDUSTRIAL TRIBUNAL, WEST BENGAL

PRESENT:

SHRI G. PALIT, *Judge, Fifth Industrial Tribunal.*

Present for the Company: Shri P. R. Mookerji, Pleader, with Shri Bhowani Prosad Chakravorty, Pleader.

Present for the Union: Janab Hasan of the Union.

1. By Government order No. 3096Dis./D/10L-54/56, dated the 17th July 1956, the aforesaid dispute has been referred to the Fifth Industrial Tribunal, presided over by me, for adjudication, under section 10 of the Industrial Disputes Act, 1947 (XIV of 1947). The said Fifth Industrial Tribunal was constituted under section 7 of the Act by the notification No. 3581Lab., dated the 9th June 1951.

2. The reference was received here on 26th July 1956. The Union filed written statement on 20th September 1956. The Company filed written objection on 22nd November 1956. After several adjournments the case was taken up for hearing on 26th June 1957 when a petition of compromise relating to all issues excepting the issue No. 5 was filed by the parties. The issue No. 5 was left for adjudication by the Tribunal. The evidence was concluded on 27th June 1957. The award was reserved.

3. The issues contained in the schedule to the order of reference stand as follows:—

(1) Minimum wages and scale of pay for different categories of workers.

(2) Dearness allowance.

(3) Leave and holidays.

(4) Bonus for the year 1954-55.

(5) Service conditions.

(6) Retiring benefit.

(7) Whether the apprentices who had put in more than three years' service should be absorbed as permanent workers and what should be their total emoluments?

AWARD

4. I need not go into the facts that have led up to the present dispute because the parties have filed a joint petition of settlement covering almost all the issues under the order of reference, excepting the issue No. 5, and that also partially. I accept the said petition of settlement under compromise as disposing of the aforesaid dispute, so far as it goes, and I make it a part of my present award incorporating the same in the Appendix.

Issue No. 5.—As it will appear from the joint petition of compromise, the contention about service conditions was dropped excepting the question of working hours which alone I decide in my present award. As I find from the written statement of the Union, as per the Annexure A thereto, the Union claims the working hours in the factory to be limited to 45 hours a week, exclusive of one hour's recess on week days, barring the Saturday. The working hours claimed are to be from 8 a.m. to 12 noon on week days, viz., from Monday to Friday, with one hour's recess from 12 noon to 1 p.m., and then again from 1 p.m. to 5 p.m. On Saturday the working hours should be from 8 a.m. to 1 p.m. and no recess. The Company contends that the award of the Major Engineering Tribunal in 1948 should govern the working hours as it has been made to govern other items of claims in the present dispute. At page 125 of the award of the Major Engineering Tribunal of 1948 (*vide* the publication, "Award made by Major Tribunals during 1948, Vol III") where the issue No. 11 did relate to the working hours and spread over, the learned Judges observed as follows:—

"Under section 34 of the Factories Act, 1934, no daily worker shall be allowed to work in a non-seasonal factory for more than 48 hours in a week. Under section 36 no daily workers shall be allowed to work in such a foctory for more than 9 hours in a day. Section 37 provides for intervals or rest; It provides that no worker shall work more than 5 hours before he has an interval for rest for at least half-an-hour. Section 38 provides for spread over. .....The industrial concerns conform to the Factories Act. The Labour Unions jointly demanded that the weekly working hours should be reduced to 40 hours and that the maximum daily working hours should be 8 hours and further that the working hours should be reduced to 36 hours per week for shift workers. In support of this claim the representatives of the Labour Unions have referred to the International Labour Organisation Convention, and to the practice obtaining in the U.S.A. In America, however, the work is much more intensive, i.e., the pace of work is much higher. In India due to climatic and other conditions the pace of work is not nearly so high. Prior to 1946, the working hours in non-seasonal factories in India were 54. After the International Labour Organization Convention recommending a 40-hour week, the Factories Act was amended reducing the working hours in India to 48 hours per week."

The learned Judges even noticed that the amending Bill of the Factories Act also did not change this 48 hours a week. Therefore, they inferred that in the considered opinion of the Government, no change in the working hours and spread over was at that time necessary. They further observed

that the rules as to working hours ought to be uniform all over India, for industries in Bengal were subject to competition with industries in other provinces. Accordingly, the learned Judges turned down the claim for a change in the working hours. As it will appear from the compromise petition, the present industrial unit which was lagging behind was brought up in line with the award of the Major Engineering Tribunal which governed the entire engineering industry in the State. That being so, I find no reason why only in the case of working hours the said major Tribunal's award should be departed from. The Union contends that in several concerns, particularly in Automobile units, where the work is more strenuous, the working hours have been reduced to 45 hours a week. But the Union could not produce before me satisfactory evidence barring hearsay evidence showing reduction of working hours in any other Automobile units in this State. Even if it is so, it may very well be that those Automobile concerns are far bigger than the one before me. Besides, if the working hours are reduced by any mutual agreement, nobody can have any say in the matter. But if the Tribunal is to decide the matter, it has got to decide on broad lines. So in this view of the matter, I am unable to disturb the existing working hours in vogue in this concern. As the compromise petition will show, this concern has recently changed hands, and the present compromise in question has entailed greater financial burden on the Company than hereto before. Now, if the working hours are reduced, it will necessarily result in less production. The Company will be subject to attacks from both sides, and it may find itself in a great predicament to adjust itself to the new burden. So I turn down the present claim of the Union for reduced working hours.

ANNEXURE

In the matter of an industrial dispute existing between Messrs. Martin & Harris, Ltd., Mercantile Buildings, Calcutta-1, and their employees represented by Martin & Harris Employees' Union, 48 Indian Mirror Street, Calcutta-13. (Case No. VIII-140 of 1955.)

BEFORE THE SIXTH INDUSTRIAL TRIBUNAL, WEST BENGAL.

PRESENT:

SHRI SAILESH SENGUPTA, *Judge, Sixth Industrial Tribunal.*

Appearances:

For the Company: Mr. R. D. Lemmon, Director, with Mr. O. R. Surita, Personnel Relations Officer.

For the Union: Shri Jitendra Nath Banerjee and Shri P. K. Ghosh, Vice-Presidents of the Union.

The point referred for adjudication by Government order No. 4012Dis./D/11L-92/56, dated Calcutta, the 7th September 1956, lies within a narrow

compass. The workers' demand for bonus has given rise to the present dispute.

The point for decision as per schedule in the order of reference is—

Puja bonus for 1954.

At the time of opening of the case the Union representative submitted that the present claim is strictly limited to bonus due to the workers on the eve of the Pujah as a condition of their service. The workers are not laying claim to share the profits of the year in enforcement of their claim for bonus. The Company in the written statement alleged that bonus had all along been paid on the profits collected in the business. From 1947 to 1953 bonus was paid at varying rates depending on the trading results of those years. As the trading result of 1954 was unsatisfactory no bonus was paid and no claim can be advanced for any payment for that year. The Company was prepared to conduct the case on the footing that the claim was for bonus recoverable out of available surplus profits. When the Union confined its case to Pujah bonus as a condition of service exception was taken that no such case was made out or suggested in their written statement. On behalf of the Company protests were made that the Union should not be permitted to shift its ground and lay the claim on a new foundation at the eleventh hour.

The issue as framed does not indicate that the question of profit-sharing bonus is to be canvassed before the Tribunal. Pujah bonus is different from ordinary bonus. It is irrespective of any profit or loss of the year. Claim to such bonus may be made as a matter of right as a term of employment. This right is based on agreement which may be either expressed or implied. In the case decided by a Calcutta Bench of the Appellate Tribunal published in the *Calcutta Gazette*, dated the 8th March 1956, page 61, the observation appears at page 69 that the claim to Pujah bonus stands on a different footing than that of profit-sharing bonus and it is now well settled and established in various decisions that the claim to Pujah bonus depends on implied or expressed grant rather than on considerations of profit in business. That being so, a claim to Pujah bonus where established will depend on contract and it cannot be denied on ground of loss in business. The Company's objection to the Union being permitted to press its claim on the footing that Pujah bonus is due to the workers as a condition of service loses weight in view of the terms in which the point for adjudication has been formulated by the Government. The Union's written statement is not happily worded. Learned Union representative frankly admitted that the written statement bristles with shortcomings and does not fully reflect the case that the Union wants to place before the Tribunal. In paragraph 9 of the Union's written statement it has been stated that "the part of annual bonus as a matter of practice with this Company for a good number of years was paid at the time of Pujah and the residual portion was paid at the end of relative year before X'mas". In paragraph 14 the Union referred to an agreement which was reached on the 16th of July 1952 but was rescinded later. In paragraph 15 it is stated that if the Company had the right, on cancellation of the agreement, to revert to conditions prevailing in the pre-agreement period the Union can claim bonus according to the practice prevalent in 1952 and preceding years. Though in a skeleton form, these statements indicate that the Union was not claiming profit-sharing bonus but its claim rested on past practice. The Company also was not in any doubt about the real character of the Union claim. For, in paragraph 11 we find this statement "in particular it is denied that the employees have any right to claim bonus as a condition on the basis of any privilege existing before 1952

as alleged or at all or that any bonus paid prior to 1952 was a matter of privilege". The Company cannot make any grievance that a surprise was sprung by the Union unfolding at the hearing a case of a right to receive bonus as a condition of service. It had realised the true nature of the claim and hence the denial was given pointedly in this form in paragraph 11. It may further be pointed out that in the written statement filed before the Tribunal the Union did not make any reference to profits earned in 1954. Nothing appears in the written statement that profit-sharing bonus was in contemplation. I overruled, therefore, the objection that the Union cannot be permitted to make a departure from its case in the written statement.

The Company stoutly maintained that it had paid bonus at varying rates according to the fluctuation in the profits of the business. The register Ext. B starts with the year 1951. The heading in the first page is annual bonus in the year 1951. The heading of the entries for 1952 show some difference. Bonus for the year 1952 was the original heading which was altered to advance against bonus for the year 1952. Interpolations were made in several other pages in the same way. I am not sure what object the Company wanted to achieve by making these alterations in the heading. The expression "annual bonus" is fraught with significance. If bonus had been linked with profits there would be payment when the Company earned profits. It could not be an annual affair. In years of loss Company would not pay any bonus. Since the expression annual bonus appears, I am led to think that an established right is recognised to receive bonus every year and the right to receive the same was not connected with profits. That this is the right conclusion appears from another register produced the next day. As it was inspected by the Union I have treated it as part of the evidence and marked it Ext. B(1). Annual bonus paid in 1941 to 1951 finds place in this register. In between there are entries showing payment of special profit-sharing bonus for 1947 and 1948. There are therefore two distinct items. Annual bonus is something apart from profit-sharing bonus which was separately entered in this register under the heading "Special Profit Sharing Bonus". In 1947 one month's basic pay plus dearness allowance had been paid as annual bonus. In the chart Ext. A submitted by the Company 5⅔ months' basic pay plus one month's dearness allowance is said to have been paid for 1947. This was apparently made up of annual bonus equivalent to 3 months' basic pay and dearness allowance plus profit-sharing bonus at the rate of ⅔ month's basic pay. The register Ext. B(1) shows that profit-sharing bonus was paid at the rate of 2⅔ months' basic wages. In the statement Ext. A, 2⅔ months' basic wages were amalgamated and the consolidated amount was shown. As in the Company's own book Ext. B(1) we find profit-sharing bonus and annual bonus separately entered, there can be no doubt that they belong to different categories. Annual bonus could not by any stretch of fancy be said to be related to profits since there was separate provision for profit-sharing bonus. This conclusion is further strengthened by the admission made in the Staff Notice Ext. 1, dated the 17th December 1951. The Company had already paid one month's wages including dearness allowance by way of bonus. The Union apparently made a claim for some more bonus on the ground that the Company had made handsome profits. In reply it is stated in the Staff Notice that in that particular year no profits had been earned. On the final settlement of accounts the Company apprehended that a small loss would result. Still it was decided that a small profit-sharing bonus might be allowed to the Staff. In view of additional expenditure towards the end of the year the Company decided to pay further bonus of one month's pay plus dearness allowance though on the trading result there was hardly

any justification for this grant. On a reading of this Staff Notice the conclusion follows irresistibly that the question of profit-sharing bonus had been raised towards the end of the year. The Company made a sort of generous gesture to relieve the staff of embarrassing financial circumstances and granted some payment by way of profit-sharing bonus. This was unrelated to bonus which had been paid earlier in the year. That payment not being profit-sharing bonus may reasonably be held to have been made in satisfaction of the employees' claim to the annual bonus.

The question now is whether the Union has succeeded in substantiating its case that the workers are entitled to bonus at the time of Pujah as a condition of service based upon implied contract. Since there is no express contract we have to determine if the circumstances proved establish an implied contract.

On behalf of the Company advantage was sought to be taken of a statement made by P.W. 1 that the workers were entitled to Pujah bonus as a condition of service in terms of the agreement of 1952. Ext. 1(a) is a Staff Notice which adumbrates the points of agreement. As this was resiled from and both parties repudiated it in the reference proceedings before Shri M. N. Gan, as will appear from his award published in the *Calcutta Gazette* on the 19th August 1954, at page 2832, we need not linger over the terms of that agreement. The case of the Union is that even before this agreement the employees had a right to recover Pujah bonus as a condition of their service. The agreement being swept out of existence the workers are certainly entitled to fall back upon the right, if established, that they were entitled to receive bonus at Pujah time. Too much emphasis should not be laid upon the statement made by the witness which seems to suggest that there was no right independent of the agreement. That, in fact, is not the case of the Union. It is definitely stated that for a series of years Pujah bonus has been paid without a break.

An argument was advanced on behalf of the Company that the Hon'ble Supreme Court has ruled in the case reported in 1955, L.A.C., page 1, that bonus could be recovered only when there is available surplus on the trading results of the year. A similar argument was addressed in the case reported in 1955, L.A.C., page 408. Their Lordships have pointed out that the principle laid down in the case decided by the Supreme Court and some other cases cited before them apply to case of profit-sharing bonus only and do not apply to cases of customary of contractual bonus which does not depend on the large surplus and profits made by the Company. In the Mahalakshmi Cotton Mill's case reported in 1952, L.A.C., page 370, it was pointed out that the right to Pujah bonus is not based on the general principle that labour and capital should share the surplus left over after meeting the necessary and prior charges but, on the other hand, it rests on contract which may be implied. I find no force therefore in the Company's plea that the decision of the Supreme Court stands in the way of bonus being granted except out of surplus profits.

Past practice may lead to an inference of an implied agreement. It was held in the Mahalaxmi Cotton Mills' case that for implying an agreement the practice must be unbroken and for a sufficiently long period to exclude the hypothesis that payment had been made out of bounty. Whether in any particular case, the length of the period is adequate would depend upon the facts. If payments are made even in a year of loss that would be an important factor on the question as to whether the payments were mere acts of bounty or an obligation on the part of the employer. In this case, bonus according to the Company's chart, Ext. A,

was paid from the year 1943 without a break up to 1953. In 1943, half month's basic pay was paid. Thereafter sometimes two months' wages and sometimes three months' wages were paid. In 1953, one month's basic pay was paid. The period is sufficiently long to lead to an inference of implied agreement. In the Appellate Award published in the *Calcutta Gazette*, dated 8th March 1956, at page 61, a period of 5 years was deemed sufficient for such an inference. The Company's representative intimated that no loss has been sustained in any year. The question of payment in a year of loss cannot therefore arise. That would have been no doubt an important factor, but turning back to Ext. 1, one may say that in 1951, the Company was on the verge of loss. The Managing Director expressed the conviction in the Staff Notice that in that year, the Company, would have no profits but might, on the other hand, incur some loss. Even in that predicament the annual bonus was paid without demur. This, to my mind, is in its effect analogous to payment in a year of loss. In the case reported in 1955, L.A.C., page 408, payment from 1945-46 to 1951-52 was considered sufficient for establishing of a claim based on implied agreement. I have pointed out that the present case stands on a better footing as payment had been made without a break from 1943 down to 1953. The rates no doubt varied but payment of more cannot affect the right to receive the minimum. On behalf of the Company reliance was placed upon the cases reported in 1955, L.A.C., page 9 and page 283. In these cases, it was held that there can be no question of a custom or practice to pay bonus, for, grant of bonus to workmen is intended to enable them to participate in the prosperity of the concern in the relevant year. As in a later decision published in the *Calcutta Gazette*, dated the 8th March 1956, by another Appellate Tribunal has definitely taken the view that such a claim based upon implied agreement is tenable, I would prefer to follow the same. On the facts of this case, I am convinced that inference of an implied agreement is just and proper. The employees are entitled to claim Pujah bonus as of right irrespective of the trading results of the business. In this connection I may refer to an argument that for the years 1951 and 1952, the Union had claimed profit-sharing bonus which led to the reference made to Shri M. Gan. The award made by Shrijut Gan is published in the *Calcutta Gazette*, dated the 19th August 1954, at page 2831. The Secretary of the Union has explained that annual bonus had been paid by the Company in due time. Since the Company bagged enormous profits, the Union laid claim to profit-sharing bonus. That claim went up before Shrijut Gan on reference. The argument is untenable that because profit-sharing bonus was claimed towards the end of the year that would have any bearing upon the right founded on implied agreement in respect of which the claim of the employees had been satisfied earlier.

The next question relates to the amount. In the Mahalaxmi Cotton Mills' case their Lordships laid down that where rule for determining the amount is expressly laid down or can be inferred that rule is to be followed. Where there is no definite rule or nothing can be found, the Industrial Tribunal must hold that the workers are entitled to a reasonable amount as a term of employment and determine the amount. The amounts paid or rate at which payments were made would be a guiding factor. The Company appears to have paid half month's basic pay, one month's basic pay, two months' basic pay plus one month's dearness allowance and also three months' basic pay with dearness allowance. I have already pointed out that payment at a higher rate in some years does not cripple the right. To my mind one month's basic pay with dearness allowance would be a reasonable amount. I award accordingly

that for 1954, the employees are entitled to receive Pujah bonus at the rate of one month's basic pay with dearness allowance which is to be paid within 15 days of publication of this award in the *Calcutta Gazette*.

ANNEXURE

In the matter of an industrial dispute between Messrs. Katyayani Stores, Private Ltd., College Street Market, Calcutta-12, and their workman Shri Nikunja Behari Kar, represented by the Shop Assistants' Association of Bengal, 7 Padmapukur Road, Calcutta-20, referred under G.O. No. 1134-I.R./IR/11L-75/57, dated 11th April 1957. (Case No. VIII-C/11/57.)

BEFORE THE FIRST LABOUR COURT, WEST BENGAL

PRESENT:
SHRI N. C. CHATTERJEE, *Judge.*

Appearances:

For the Union: Shri Nikunja Behari Dutta, General Secretary, Shop Assistants' Association.

For the Company: Shri B. Roy Choudhury.

The Government of West Bengal, in the Department of Labour, by order No. 1134-I.R./IR/11L-75/57, dated 11th April 1957 referred under sections 7 and 10 of the Industrial Disputes Act, 1947 (XIV of 1947), the industrial dispute between Messrs. Katyayani Stores, Private Ltd., College Street

Market, Calcutta-12, and their workman Shri Nikunja Behari Kar represented by the Shop Assistants' Association of Bengal, 7 Padmapukur Road, Calcutta-20, regarding matters specified in the second schedule of the Act, to this Court for adjudication:—

Schedule

Whether the termination of services of Shri Nikunja Behari Kar was justified? To what relief including reinstatement is he entitled?

AWARD

Decision

The case of the Union is that Shri Nikunja Behari Kar was employed as an assistant salesman in the cloth deparment of Messrs. Katyayani Stores, Private Limited, during the period from 1348 B.S. to 1363 B.S. This Private Limited Company since changed hands and was purchased on 30th Shravan 1363 B.S. with all rights and liabilities by Messrs. Paul & Co. Private Ltd. On 3rd Agrahayan 1363 B.S., the services of Nikunja were dispensed with with effect from 4th Agrahayan 1363 B.S., without any notice, justification or reasons. On 5th Agrahayan 1363 B.S., the Management cleared all arrears of pay and dues to Nikunja but did not pay any gratuity for the long period of his services. The Union has, therefore, claimed Rs. 29-0-6 as his "hisabana" dues and usual gratuity at the rate of 15 days' wages for each year of 16 years' completed service, i.e., 8 months' pay. The total claim is thus laid at Rs. 397.

The Company states in their written statement that the dispute is not maintainable because Nikunja accepted all his dues including *ex gratia* payment in full and final settlement of his claim including reinstatement and, as such, he cannot be permitted to reopen the matter. It is further stated that Nikunja is a very careless and negligent worker and was warned several times for his negligence and discourtesy in the performance of his duties and letters of complaints against him were received from the customers and though he was repeatedly asked to mend his ways, he did not improve his method of work. His dismissal is therefore fully justified and he is not entitled to get anything from the Company.

For the Union only the dismissed workman was examined. In his statement he says that he was summarily dismissed with effect from 4th August 1956 for no fault of his. As the ostensible reason of dismissal he has stated that one silken lady's coat shown to the customers was not restored in its proper place but was lying on the floor of the shop after the customers refused to purchase it. The workman says that he was not in any way responsible for this. His duty was simply to supply goods to the salesmen. What he meant to say is that, if there were any fault the salesman is responsible for that and not he. He has further denied that any warning was ever conveyed to him or he was ever negligent in the discharge of his duties.

On the other hand, the Company has examined the Managing Director, Mono Mohon Babu, O.P.W. (3), the Manager, O.P.W. (1), and the Accountant, O.P.W. (2). The evidence on the side of the Company is uniformly consistent and goes to establish that the workman was incorrigibly negligent in the performance of his duties and that he was also guilty of unpleasant altercation at the bar of the shop in the presence of customers and that all the previous warnings were lost upon him and he continued to work as negligently and slovenly as ever before.

Really speaking, the Company cannot do with an assistant of the type of the instant workman. No Company can fairly be compelled to retain

in its service an inefficient workman against whom complaints were pouring in from customers very often. This is a small shop and apprehended loss in the business with such a workman foisted on it.

Having regard to the evidence on record, the discharge of this workman must be found to be justified on the ground of his continued inefficiency. On the question of relief, the evidence on behalf of the Company is that he was paid Rs. 81-14 and odd as his arrear wages and a month's salary in lieu of notice and salary on account of leave due to him. For the Company, it is affirmed that the sum of Rs. 81-14 and odd paid to the workman on 5th Agrahayan 1363 B.S., liquidated the entire dues of the workman and nothing further remained as his dues. The Company states further that the workman received the amount in full and final settlement of all his claims against the Company. One thing that was urged before me at the time of argument is that the payment of one month's pay in lieu of notice explained that his service was terminated and it is not a fact that he voluntarily gave up his job as urged on behalf of the Company. This payment of a month's salary in lieu of wages practically cuts both ways. It may be that the workman waived the notice as he was paid one month's pay and it may also be that the Company discharged him on giving him one month's pay in lieu of notice. It may be pointed out that during argument the Company offered to reinstate the workman provided he gave an undertaking to improve his work, but strangely enough the workman did not agree to give the undertaking as asked for by the Company. This shows that the action of the Company was not *mala fide* as the Company was agreeable to reinstate him even now on that condition. The cumulative effect of the evidence, oral and documentary on the side of the Company, leaves no doubt in my mind that this workman voluntarily gave up his job as the Company was not satisfied with his work due to his continued negligence and inefficiency. As regards his claim for retrenchment benefit under section 25F, my finding is that the discharge of workman for inefficiency cannot be held to amount to retrenchment as defined in section 2(00) of the Act, as it has been laid down in the ruling reported in L.L.J. 1957, Vol. I, page 334 (case Narsingirji Spinning and Manufacturing Co., Ltd., *vs.* Abdul Mohoddin), as his own inefficiency was responsible for his discharge. He cannot be granted the benifit of compensation as per section 25F(b). Moreover, as already found he accepted the aforesaid sum of Rs. 81-14 and odd in full and final settlement of his claim and the evidence unmistakably points to the conclusion that he voluntarily gave up his job out of disgust for his failure to improve his own method of work, especially as his paltry pay of Rs. 46 (including dearness allowance) was found utterly inadequate in these days of high cost of living.

In the circumstances, I find that the termination of the services of the workman is fully justified and that he is not entitled to any relief.

This is my award.

BEFORE THE FOURTH INDUSTRIAL TRIBUNAL, WEST BENGAL

PRESENT:

SHRI M. N. GAN, *Judge, Fourth Industrial Tribunal.*

For the Union: Shri Nanda Dulal Srimani.

For the Company: Shri P. K. Sen, Advocate.

AWARD

This is a complaint under section 33A of the Industrial Disputes Act by Shri Neta Ram, one of the workmen employed in Messrs. Sodepur Potteries, Ltd. (hereinafter referred to as the Company), against his employer, in which he alleged that he was dismissed most arbitrarily, without assigning any reason for it, and without express permission in writing from this Tribunal, where a dispute between the employees and the Company was pending for adjudication. It is also alleged that the complainant went home on leave from 22nd October 1956 and came back to duty on 22nd November 1956, at the end of a month's leave, when he was asked to come on the next day. The next day he was stopped at the gate by the Durwans and was refused work. Thereafter, he was informed that he was dismissed.

The contention of the Company, is that the complainant was guilty of misconduct, a major misdemeanour, for which he was charge-sheeted and, after his explanation, he was dismissed from service in the following circumstances:—

He went home on a month's leave on the expiry of which he duly reported for work. On his representation, he was allowed to take rest for the rest of the day on 22nd November 1956, on the ground of illness. The next day he rejoined his duties and was allotted a machine different from one on which he was working before proceeding on leave. He refused to work, and demanded the allotment of his former machine. He remained standing and did not work, notwithstanding the entreaties of the Manager. He staged a stay-in-strike from 1 to 5 p.m. with his other colleagues and he was charge-sheeted. On considering his explanation, the Management decided to dismiss him from service.

Points for decision

(1) Whether a *prima facie* case made out for punishment?

(2) Whether the employer was actuated by improper motives or resorted to any unfair labour practice?

(3) Whether the allegations in the complaint are true?

(4) To what relief, if any, is the complainant entitled?

Points 1 to 4: Shri Neta Ram and his two former collegues in the Making Department, have deposed in support of the allegations made in the complaint. Shri Narsingh, Manager of the Company, denies the allegations and deposes in support of the defence. Shri Neta Ram is said to be a member of the Union and he is not even very sure of that. He used to pay subscriptions and that is all. After he was refused employment, he went home and was staying there. His connection with the Employees' Union is so feeble that there could not be any remotest idea of punishing him for his Union activities. No such allegation was supported by any evidence in this case. Hence, no question of victimisation for Union activities or an unfair labour practice can actually arise in this case.

Shri Neta Ram was duly charge-sheeted to which he submitted a written explanation. Both were considered and the Management decided to remove him from service and this they did for his misconduct. This was done without permission of this Tribunal at a time when it was required under section 33 of the Industrial Disputes Act. So, there was a technical violation of the provisions of section 33 of the Industrial Disputes Act and this complaint lies.

Now, whether the Company has a *prima facie* case for punishment of the complainant. The complainant has, despite all questions put to him by me, refused to tell the truth about the matter in dispute. He said that he came back to duty on the appointed day and was asked to come on the next day. He was prevented to enter into the factory on that day, for reasons unexplained, and this was followed by a strike between 1 and 5 in the afternoon. Curiously enough, not a single witness on the complainant's side told the truth about the dispute, before this Tribunal. I fail to see why the Management should all on a sudden behave in this way with an employee who, according to his evidence, did not give them any cause for any grievance. On the contrary, the Manager said that the complainant, despite his request, refused to work

on a machine other than the one on which he worked before leave, stood by and arranged with other workers of his department a lightning stay-in-strike between 1 and 5 p.m. The employee acted against the provisions of the standing orders and his action was clearly unjustified. The Management has full discretion in the matter of distribution of work and the machines to work with. There is a long-standing practice in the Company that employees are transferred now and then from one to another machine according to the exigencies of work. I believe the evidence of the Manager on this point to be true. The complainant's story has been disproved. The Management, therefore, has not only a *prima facie* case for punishment of the complainant but also a case for taking action against him by dismissing him from service. It should have taken the express permission from this Tribunal, but then, in the circumstances of the case, want of leave would not make its action illegal. The Tribunal has considered the case on its merits and finds against the complainant. The issues are answered against him. His complaint fails and is dismissed.

Appearances:

For the employee: None.

For the Company: None.

This reference was made by the Government of West Bengal, Labour Department, under order No. 3990Dis./D/11L-52/55, dated 6th September 1956, to this Tribunal, for adjudication regarding the matters specified in the schedule below.

Schedule

Whether the termination of employment of Shri Gobardhan Ghosh, is justified? What relief by way of reinstatement and/or compensation is he entitled to?

AWARD

Notices were duly served on the parties, who filed written statements. This day was fixed for hearing of the case. It appears from the record that the notice of the date of hearing was also served on both parties. The Company at 10-30 a.m., filed an application praying for adjournment. That petition was duly considered by the Tribunal. But the prayer was rejected, and the Company's representative, who filed that application, was duly informed of this fact. He was given to understand that the case would be heard today. After this no further steps were taken by the Company. Neither the Union nor the worker concerned appeared before the Tribunal, though the Tribunal waited till 12-18 p.m. Even no good cause was shown by them for failure to appear before the Tribunal. So, under rule 15A of the Bengal Industrial Disputes Rules, 1947, the Tribunal has no other alternative, in the circumstances, but to submit an award to the Government on the footing that the industrial dispute under reference is no longer in existence.

In view of what has been stated above, it may be presumed that the worker concerned has no longer any grievance to press for redress. The dispute submitted to this Tribunal for adjudication has ceased to exist. The reference is thus disposed of.

In the matter of a complaint under section 33A of the Industrial Disputes Act, 1947, as amended by industrial Disputes (Appellate Tribunal) Act, 1950, filed by the workmen, Shri Sukhram Saha and 25 others against Messrs. BEFORE THE THIRD INDUSTRIAL TRIBUNAL, WEST BENGAL

PRESENT:

SHRI J. N. MAITRA, *Judge, Third Industrial Tribunal.*

Miscellaneous Case No. 14 of 1956, under section 33A of the Industrial Disputes Act.

Shri Sukhram Saha and 25 others ... *Petitioners,*

versus

Messrs. Dukharan Singh ... *Opposite party.*

Present for the workmen: Shri N. J. Burman, President, Calcutta Lorry Transport Workers' Union.

Present for the Company: Shri K. K. Guha.

AWARD

This is a complaint under section 33A of the Industrial Disputes Act by workmen Shri Sukhram Saha and 25 others. The petitioners alleged that they were members of Hindusthan Drivers' Union, at whose intervention the Government made a reference on 29th September 1955, in respect of an industrial dispute between the opposite party and their workmen to this Tribunal for adjudication. It was further alleged that during pendency of the said adjudication proceedings before this Tribunal, the opposite party demanded from the petitioners written declaration withdrawing their membership from the Hindusthan Drivers' Union, which they declined to do; that on this the opposite party became angry and stopped payment of wages from the month of November 1955 and that their wages for the months of November and December 1955 were thus withheld. Hence the complaint.

The opposite party contended that the complaint under section 33A did not disclose contravention of section 33 of the Act and as such was not maintainable. Besides, it was pleaded that out of the petitioners, petitioners Nos. 1, 2, 3, 5, 6, 11, 12, 13, 14, 17, 18, 20, 21, 22, 23 and 25 left the services of opposite party long before the date of the order of reference and as such have no *locus standi* to apply under section 33A.

Regarding remaining applicants it was alleged that applicant No. 7 started to absent from 1st January 1956, without any intimation and permission and thus his salary could not be paid and that other applicants Nos. 4, 8, 9, 10, 15, 16, 19, 24 and 26 were duly paid their wages.

DECISION

Complaint under section 33A can be sustained, if there has been violation of the provisions of section 33 of the Act. In the present case it has been urged on behalf of the opposite party that the allegations in the complaint do not show any contravention of the provisions of section 33 of the Act and as such the complaint is not maintainable. I agree that it is so. Non-payment of wages, if any, cannot be termed to be alteration in the conditions of service or punishment within the meaning of clauses (a) and (b) of section 33. This has also been so held in the case of National Coal Co., Ltd., *vs.* L. P. Dave and others, reported in 1956-57, Volume X, F.J.R. 255. There, it has been held that "non-payment of wages is neither an alteration in the conditions of service nor does it amount to any punishment. Such a case comes and has to be dealt with under the provisions of the Payment of Wages Act". It, therefore, follows that the complaint under section 33A is not maintainable.

Besides, from the evidence, it also appears that the petitioners Nos. 1, 2, 3, 5, 6, 11, 13, 14, 17, 18, 20, 22, 23 and 25 left the service of the opposite party long before the date of the order of reference (*vide* Ext. A). These applicants, it follows, have no *locus standi* to sustain a complaint under section 33A. Regarding remaining applicants, it appears that only wages of Ramfer Ahir for 28 days of December 1955 are in arrears while others received their wages in respect of November and December 1955. As to Ramfer Ahir, it appears that his wages for December 1955 remained unpaid as he did not turn up after 1st January 1956 and as he subsequently made another complaint under section 33A. In the circumstances, it is apparent that the workmen can make no grievance either. So, the petition of complaint must fail both in law and on merits. It is awarded accordingly.

Government of West Bengal, in the Department of Labour, by order No. 1137I.R./IR/11L-131/57, dated 11th April 1957, referred under sections 7 and 10 of the Industrial Disputes Act, 1947 (XIV of 1947), the industrial dispute between Messrs. H. Ghulam Mohamed and Brothers, 20 Chowringhee Road, Calcutta, and their workman Shri Abul Hossain, represented by the Hindusthan Drivers' Union, 3/1 Mangoe Lane, Calcutta-1, regarding matters specified in the second schedule of the Act, to this Court for adjudication.

Schedule.

Whether the dismissal of Shri Abul Hossain was justified? What relief is he entitled to?

AWARD

The case of the Union is that Abul Hossain was appointed as a ddiver under the Company in February 1925 and had put in about 31 years' service. He had a uniformly good record of service. He had no fixed hours of work and sometimes he was required to work from early morning till 10 o'clock in the night. His pay was Rs. 110 per month and one meal per diem. He was not allowed any leave, holidays, etc. On the 12th September 1955, his services were terminated without any notice, justification or reason. His dismissal is therefore unjust, unfair, *mala fide* and opposed to principles of natural justice. His prayer is therefore for reinstatement with arrears of wages for the period of his non-employment.

The Company states in their written statement that the instant dispute is an individual dispute and not an industrial one; so the reference is bad. It is further stated that the present Company came into existence in 1947 with two partners of the previous firm when the driver was appointed, and the original partnership firm is no longer in existence. In fact, this driver used to drive the private cars of the present partners with which the present Company has got nothing to do.

DECISION

The written statement of the Company gives rise to another point for determination as follows:—

"Is this an individual dispute or industrial dispute?"

The first point for consideration is whether the dismissal of this driver Abul Hossain is justified or not. The evidence of the driver is that he was all on a sudden dismissed on the 12th September 1955 without any notice, charge-sheet or enquiry at all as he wanted an enhancement of pay for longer hours of work and his pay was inadequate to his needs. *Prima facie*, as the evidence stands, no reason or justification has been shown for the dismissal of this driver, nor any misconduct alleged. So the conclusion is irresistible that the termination of the service of this workman is utterly unjustified and *mala fide* and nothing short of an unfair labour practice. The normal relief in such a case is reinstatement. On behalf of the Company, it is said that the partnership firm originally started with 4 brothers, viz., Md. Imamuddin, Md. Nawabuddin, etc. That original firm is not in existence now because on the death of two brothers, viz., Ghulam Rosul and Zubair, their heirs left the old firm wherein Md. Imamuddin and Md. Nawabuddin are partners now and thus a new partnership came into existence as evidence in Ext. B (certified copy). The learned Lawyer on behalf of the Company has advanced argument to show that the present new Company cannot be saddled with any liability in the shape of gratuity, etc., for the period of services rendered unto the predecessor partnership firm. It is also urged on behalf of the Company that the present Company has dwindled and cannot afford to retain in service more than one driver, but no evidence has been produced to show that the financial condition of the present Company has deteriorated. The question of apportionment of gratuity under section 25F of the Industrial Disputes Act does not arise in this case as the Court thinks it fit to grant the relief of reinstatement. Having regard to the evidence on record pointing unmistakably to the unjustified and unwarranted dismissal of the workman, I think, this is a fit case in which reinstatement should be granted. It should also be pointed out that the workman had an unblemished record of service, so in all fairness, he should be reinstated and dismissal should not be the reward of one with such a commendable record of service. The Company granted two certificates, Exts. 2, 2A, one as old as 23rd March 1924 and another, dated 13th November 1952, to the workman both of which have recorded the satisfactory services rendered by him. And this service is for a long period since 1924 up to 12th September 1955. Of course, as evidenced by the deed of partnership, the Company had changed hands since two deceased brothers' heirs have seceded and formed a separate firm. This poor driver, as is apparent, has been rendering services to the Company all the same and the change of partnership has caused him in fact very little concern. He has been under the impression and that not without reason, that he has been serving the same Company. A good employer should guarantee a sense of security of service to the employee in the interests of both himself and the employee and that gives an incentive to good work on the part of the employee. This workman is entitled to the relief of reinstatement against the present Company, whoever be the partners of the firm which dismissed him. Be it said before I part with the matter, that there is no evidence to substantiate the Company's plea that the driver served the partners of the firm personally.

As regards his pay, it is found that his monthly pay was Rs. 110 only. There is no satisfactory evidence to prove that he got also dearness allowance at Rs. 30 per month and a meal too.

Having regard to the evidence on record and the circumstances of the case the dismissal is found to be unjustified and opposed to principles of natural justice. Therefore the workman is found entitled to reinstatement.

Next, I take up the question whether it is an individual dispute or an industrial dispute. The workman has produced his membership card No. 3994, Ext 1, to show that he is a member of the Hindusthan Drivers' Union which is representing his case before this Court. As against this the Company examined O.P.W. (2), a workman of the Company, whose evidence was of no help to the Company as he did not make statements which were intended to be elicited from him disproving the case of the workman in this behalf. Therefore, the evidence of the workman practically stands uncontradicted. The learned Lawyer for the Company referred to the ruling reported in L.L.J. 1957, Vol. I, page 505, Bengal Club Limited and Santi Ranjan Samaddar and others, wherein it is laid down as follows:—

> "Where an individual workman is dismissed and his dismissal is not objected by any Union of workmen or by a majority of his fellow workmen, that is an individual dispute between the employer and an individual workman and not an 'industrial dispute' and never developed into one."

But it may be pointed out that the facts in this case are quite distinguishable. The ruling cited has no application in this case because the case of the workman has been taken up by the Hindusthan Drivers' Union of which he has proved his membership. So the instant dispute which was originally an individual one has developed into an industrial dispute as soon as the case was taken up by this Union. If any authority be needed reference may be made to the ruling reported in 1957 Supreme Court Appeals, page 390, Newspapers Limited and State Industrial Tribunal, U.P. and others, and the relevant portion is that a single employee's case might develop into an industrial dispute when it is taken up by the Trade Union of which he is a member and there is a concerted demand by the employee for redress.

To sum up, in the instant dispute the dismissal of the workman has been found to be unjustified and opposed to principles of natural justice and he is entitled to reinstatement. The Company must reinstate the dismissed workman and pay him arrears of his wages, if any, for 12 days of September 1955, including two months' wages at the rate of Rs. 110 per month for the period of his unemployment within a month of the publication of this award.

This is my award.

ANNEXURE

In the matter of an industrial dispute existing between Messrs. Anna Art Press Ltd., 26 Dr. Suresh Sarkar Road, Calcutta-14 and their workman named in the schedule below, represented by the Calcutta Press Employees' Congress, 12 Dedar Box Lane, Calcutta-16. (Case No. VIII-174/56.)

BEFORE THE SIXTH INDUSTRIAL TRIBUNAL, WEST BENGAL

PRESENT:

SHRI SAILESH SENGUPTA, *Judge, Sixth Industrial Tribunal.*

Appearances:

For the Company: Shri N. K. Mookherjee, Advocate.

For the Union: Shri Tanmay Bose, Pleader.

On this reference made by Government order No. 2567Dis./D/13L-3/56, dated 11th June 1956, this Tribunal is required to make adjudication on the following point.

Schedule

Whether the Management is justified in suspending Shri Stephen Hendricks indefinitely from 17th November 1955 for not working in the night shift? What relief is he entitled to?

Stephen Hendricks filed written statement alleging that he was a kingpin of the Union organised to unite the workers of the Anna Art Press Limited into a compact body. As a leading official of the Union he had to take part in activities which were distasteful to the Management. His activities had caused resentment and annoyance to such an extent that the Management had strong inclination to turn him out by any means. From July 1955 Stephen Hendricks was suffering time to time from gastric troubles. He had to skip duty at intervals on account of this ailment. On the 1st of October 1955 the Manager Mr. Hallen issued an order transferring some of the workers from night shift to day shift and some from the day shift to night shift. Stephen Hendricks had all along been working in the day shift from 9 a.m. to 5 p.m. He was placed in the night shift. There was never before any tranfer from one shift to another. The transfers were to take effect from the 15th October. On the 13th Stephen Hendricks had an aggravation of his complaint which forced him to apply for a day's leave. The Company intimated that leave could not be allowed unless a certificate was obtained from the Panel Doctor appointed under the provision of the Employees' State Insurance Act. The required certificate was supplied. Illness however continued up to 17th November. Thereafter Hendrick reported for duty with a recommendation made by the State Insurance

Doctor that night duty must be avoided. Notwithstanding this recommendation, the Manager insisted on his attending to duty in the night shift. He was not allowed to work in the day shift. Since then Stephen Hendricks reported for duty on numerous occasions. He was not however permitted to resume duty. Virtually he was under suspension from 17th November 1955. It is against this suspension that Stephen Hendricks has moved for relief.

In its written statement the Company denied that the Management bore him any grudge for his membership of the Union or his activities in furtherance of its objectives. Stephen Hendricks was studying medicine in a College of Homoeopathy. To give him facilities for attending classes there the Management permitted him to work from 1-30 p.m. to 9 p.m. with half-an-hour recess. But this arrangement resulted in overlapping of portions of the two shifts. The Union brought this irregularity to the notice of the Inspector of Factories and at this instance the Manager had to rearrange the working hours withdrawing the special indulgence that was so long shown to Hendricks. In the usual course of internal administration, a group transfer from night shift to day shift and day shift to night shift was made which was to come into operation on the 15th October 1955. On the 13th October Stephen Hendricks applied for leave for the day and thereafter furnished certificates from the State Insurance Doctor. On 17th November 1955 he came to resume his duty and was directed to join the night shift. He refused to do so on the ground that the Medical Officer had advised him to avoid night duty. On 24th November 1955 a charge-sheet was issued for absenting from duty without leave or permission and for disobedience of the order to work in the night shift. On 26th November 1955 Hendricks appeared again and prayed for permission to work in the day shift. The Management directed him either to report for duty in the night shift or to submit to medical examination by the Company's doctor. The Medical Officer of the Company examined Hendricks and advised X-Ray examination by a radiologist. X-Ray examination did not disclose any ulceration in the stomach or in the duodenum. On the 11th of January 1956 the Management wrote to him that in the opinion of Company's doctor and radiologist there was no ulcer in the stomach or duodenum. He was accordingly ordered to report for duty in the night shift. This order was not complied with. There was actually no order of suspension passed by the Management. On the other hand, the employee refused to take up duties allotted to him in the night shift without reasonable grounds.

DECISION

The issue framed in the order of reference takes it for granted that the Management had placed Stephen Hendricks under suspension from 17th November 1955. In fact the Management did not issue any order directing suspension. All that had happened was that he was directed to work in the night shift known as the B shift and Stephen Hendricks was firm in his refusal to take up work in that shift. His case is that according to established usage the team working in the day shift remained tied to that shift. There was never any occasion before for transfer from one shift to another. But having taken a prominent part in the activities of the Union he had drawn upon his head the wrath of the Management.

The stock plea that on account of his Union activities Stephen Hendricks was a marked man whom the Management wanted to kick out has very little substance in this case. The workers of the Anna Press have no Union of their own. They have enrolled themselves as members of a wider organisation known as Calcutta Press Employees' Congress. Stephen Hendricks gives evidence that he had become President of the Congress. It however

appears that with regard to matters concerning the workers of this Press there was no agitation engineered or conducted by Stephen Hendricks. He had no occasion to come into conflict with the Management. On the other hand, the Management granted him the unusual privilege of attending duty from 1-30 to 8-30 p.m. so that his studies might not be interrupted. Admittedly the classes are held from 7 a.m. to 9 a.m. The work in the day shift commenced at 9 a.m. Anna Art Press is located at 26 Suresh Sarkar Road. The institution which Stephen Hendricks had been attending as a pupil is in Bowbazar Street. He used to attend in the morning classes from 7 a.m. to 9 a.m. It was physically impossible for him to report for duty in the Press on the stroke of nine in the morning. The Company's case is that on his request he was allowed to work from 1-30 to 8-30 p.m. Stephen Hendricks made a half-hearted admission that he had approached the Management in August 1955 for permission to work from 1-30 p.m. to 9 p.m. According to his testimony the Management asked him to submit an application to be forwarded to the Chief Inspector of Factories. Exhibit A(1) is said to be that application. In this application Stephen Hendricks made the statement that he was so long attending his duties in the Press from 1-30 p.m. to 9 p.m., but as the Management had done away with this period of duty, he was in difficulty. By way of explanation Stephen Hendricks stated in his evidence that he had not actually attended duty from 1-30 p.m. to 9 p.m. but this statement was dovetailed in the application on the suggestion of the Manager. I am afraid that I cannot accept this part of his evidence. The impression is liable to be created from Stephen Hendricks' self-portraiture that he was not in the good graces of the Company because of his Union activities and he was also a man who knew his own business. He would not accept a suggestion made by the Manager to incorporate a false statement in his application to the Inspector of Factories. The conclusion follows irresistibly that he was in fact wroking from 1-30 p.m. to 8-30 p.m. He could not otherwise attend the classes for his lessons in Homeopathy. The fact that such extraordinary favour was shown to him thoroughly disproves the allegation that the attitude of the Company towards him was hostile.

Stephen Hendricks gave evidence that he was suffering from abdominal pain from time to time. Somehow or other he had got the bee in his bonnet that this pain was due to gastric ulcer. When the Management directed transfer of a number of employees from A group to B group and from B group to A group by the notice Ext. B, Stephen Hendricks had aggravation of his complaint. The transfer was to come into force from 15th October. On the 13th he submitted an application, Ext. 1, praying for one day's leave. I may pause here to mention that the Management had every right to make transfers. The Manager Mr. Hallen offered evidence that transfers had taken place on other previous occasions. Even assuming that no such transfer had been made before, the right of the Management to make transfers cannot be denied. That is an item of internal management in regard to which the Company had unfettered powers. There was no undertaking given to Hendricks that his services would be utilised in the A shift alone. Even assuming that he was working in the A shift that was a mere accident. He might be in the B shift from the very inception of his service period. No point can be made by the employee that his transfer to night shift was in excess of the authority of the Management. Coming back to the question of his illness, we find that even so far back as the 12th September 1955, the Company had informed Hendricks that leave on medical ground could only be granted on certificate from the State Insurance Panel Doctor (*vide* Ext. A4). Hendricks furnished the certificate Ext. 2 of the Panel Doctor. Thereafter three other certificates Ext. 2(a), 2(b), 2(c) were furnished. The evidence is rather inconclusive as to the state of his health after the 13th

October. Stephen Hendricks did not give evidence that the aggravation on the 13th of October continued unabated down to 17th November 1955. In the Panel Doctor's certificates 2(a) and 2(b) nothing was stated as to how long the employee was required to take rest and when he could be declared fit to resume work. The spaces provided in the certificate for noting these particulars were left blank or crossed out. The Tribunal has been given no material to draw the conclusion that during this period Stephen Hendricks was unfit for duty. He was sent to the Calcutta Medical School Hospital by the Panel Doctor. Exhibit 3 is the discharge certificate and Ext. 3(a) is a requisition form for a bottle of Horlicks. No prescription either from the Panel Doctor or from the Hospital had been called for or produced. No papers have been obtained from either sources to show that any treatment on an experimental basis had been started. In the last certificate Ext. 2(c) the doctor made the remark that he should lead a regulated life, take adequate food and avoid night duty. The sting, if I may say so, is in the tail. So far as I can see it was not the business of the Panel Doctor to make any recommendation that night duty should be avoided. His duty was either to declare the patient fit for resumption of duty or to say that he was unfit. He could not declare him fit for day duty and not so for night duty. Secondly, it was fairly clear that this remark was thrown in by the Panel Doctor at the request of the patient. In fact, Hendricks did not at all join the night shift. He must have informed the doctor that the Management wanted him to work in the night shift. The doctor, I believe, was requested by him to put in this remark which might be used to avoid night duty which Stephen Hendricks appears to thoroughly detest. The Company took up a reasonable attitude. Stephen Hendricks was required to appear before the Company's doctor which he did in the first instance under an assumed name. His explanation is that he had an apprehension that the doctor might, on the instruction to the Company, queer his pitch and declare him sound in body. The doctor suggested X-Ray examination after Barium mea (*vide* Ext. 5). Exhibit C is the report of X-Ray examination. There was no ulcer either in the stomach or in the duodenum. Chronic colitis with hepatitis was suspected. The Company wrote to Stephen Hendricks the letter Ext. A on the 11th January 1956 informing him that on the X-Ray report and the report of the Medical Officer Dr. Dharamdas Chakravarti, there was no ulcer. He was directed to report immediately for duty in the B shift. True to form Hendricks refused to comply. I can find no justification for this refusal. Night shift started from 5 p.m. and ended at 12 midnight. Stephen Hendricks ought to have joined as directed and if any difficulties were experienced he might make representation to the Management. Disobedience of the order by him was entirely wrong. On a review of the whole set of facts and circumstances the Tribunal comes to the conclusion that there was no order of suspension by the Management but perverse refusal by the employee to carry out the lawful order of the employer. The stand taken by the Management was perfectly correct. Stephen Hendricks is not in the circumstances entitled to any relief.

This is my award.

Taken at my dictation and corrected by me.

For Bonomali Transport Co.: None.

For Malda Motor Workers' Union: Shri B. K. Sanyal, Secretary to the Union.

This reference made by Government order No. 3526Dis./D/4L-23(A)/56, dated Calcutta, the 10th August 1956, and subsequent addendum No. 4229-Dis./D/4L-23(A)/56, dated Calcutta, the 20th September 1956, relates to

disputes betwen their employees and five Transport Companies carrying on business through buses and trucks owned by them respectively.

The points for adjudication have been formulated in the following terms in the order of reference:—

(1) Whether, according to the agreement, dated 8th May 1954, the workmen employed in the different Public Motor Transport Companies of Malda, are entitled to trip and/or halting allowances, exclusive of minimum wages?

(2) What should be the wage structure for the different categories of workmen employed in the different Public Motor Transport Companies in Malda?

(3) Whether the workmen employed in the different Public Motor Transport Companies in Malda, are entitled to their wages for the strike period from 22nd May 1956 to 29th May 1956?

The Union representing the employees of these companies had presented a charter of demands followed by a notice of strike. The Assistant Labour Commissioner, Darjeeling, intervened and held conciliation proceedings. In the long run an agreement was arrived at on 8th May 1954. The terms of settlement were embodied in a document signed by representatives of four of the five companies and Shri B. K. Sanyal, the Secretary of the Malda Motor Workers' Union. The Local Agent of Malda Motor Transport Co., Ltd., not having the requisite authority to ratify the agreement a reference was made to the Managing Director at Calcutta. The Managing Director accorded approval to the settlement which thereupon became binding on all the parties concerned. The present reference has been made on the basis of a subsequent agreement, dated the 28th May 1956, as there was acute difference in regard to interpretation of one of the terms of the earlier settlement. This relates to the claim of the workers to have trip and halting allowance over and above the minimum wage payable under the agreement, dated 8th May 1954. The Union also agitated for settlement of a wage structure for different categories of workmen but the companies did not meet their demand in this respect. Before the parties agreed to have a reference made to a Tribunal the workers had gone on strike from 22nd May 1956 till 29th May 1956. Wages for the strike period were paid by four of the companies. The North Bengal Trading and Transport (Private) Ltd., refused to follow suit and disallowed wages for the aforesaid period.

The Union's case is that according to the terms of the agreement, dated 8th May 1954, trip and halting allowance are payable over and above the minimum wages due in conformity with Government notification under the Minimum Wages Act. With regard to the wage structure, the Union's case is that the different categories of workmen are being paid wages at a miserable rate. There is no fixed scale of increment. These questions should be placed on a sure basis on the Tribunal making an award building up a wage structure applicable to the different classes of workmen. In regard to the wages for the strike period, the Union's case is that the terms of settlement have not been fully implemented. The Union tried unsuccessfully to secure fulfilment of the terms. Failing in its efforts in this direction a strike was resorted to which was perfectly justified. Excepting North Bengal Trading and Transport (Private) Ltd., all the other companies recognised the justice of their claim and made payment of the dues for the period.

The case of the contesting companies, viz., Malda Motor Transport and North Bengal Trading and Transport (Private), Ltd., generally speaking is that trip and halting allowance were made part of the minimum wages. The Union's claim for payment of these allowances as separate items is

wholly untenable. Regarding settlement of pay scale, their defence is that the workers are handsomely remunerated. They have been granted increments on a liberal scale. Besides, the financial conditions of these companies is precarious. Losses have been incurred and there is also encroachment on their preserve by the State taking up some routes. In the present state of their finances and future prospects being gloomy, no long-term burden can be imposed without the risk of total annihilation.

The North Bengal Trading and Transport (Private) Ltd. refused to pay wages for the strike period on the plea that the strike was hastily resorted to without justifiable ground and hence it had every right to withhold payment of wages for the period.

Hindusthan Transport, Carrying Contractors, filed written statement that it had closed its business and paid off the workers their full dues. It did not appear at the time of hearing.

Bonomali Transport Co. was served with notice but it did not file any written statement or turn up at the hearing.

On the case being opened the Secretary of the Union informed the Tribunal that there was no subsisting dispute with Behani Brothers as that Company had implemented the terms and did not maintain any position conflicting with the interests of the workers.

Issue No. 1

Over and above the monthly wages drivers and conductors were being paid two kinds of allowances—trip allowance and halting allowance. Trip allowance was being paid at a certain rate for each completed trip. Halting allowance was paid for halt at an outstation at night. The evidence shows that the North Bengal Trading and Transport (Private) Ltd. did not differentiate the two kinds of allowance so far as nomenclature is concerned. In their account books the two kinds of allowances were treated as halting allowance. There was some discussion as to whether before the agreement, dated 8th May 1954, these allowances were paid in addition to monthly wages. The crucial point in fact is whether according to the terms of the agreement these allowances form part of the minimum wages or they are exigible separately. I may point out an admission in the written statement of North Bengal Trading and Transport (Private) Ltd. in paragraph 6 wherein it was stated that this Company used to pay a consolidated sum to its employees inclusive of dearness allowance. Over and above this consolidated sum the drivers and conductors used to get trip allowance and halting allowance, both being described in the books of accounts as halting allowance. The Malda Motor Transport Co. was more guarded in its written statement. In paragraph 10, sub-paragraph (d), the statement appears that halting allowance was paid in rare case in cases of outstation night halt to defray expense there as special cases. On a proper construction this statement implies that the allowance was apart from the monthly wages. According to the agreement the existing practice was to continue. Strictly speaking this would mean that the existing practice of paying trip and halting allowance apart from the monthly wages would continue.

Exihibit A(1) is a copy of the agreement, dated 8th May 1954. Exhibit B is another copy of the said agreement. Paragraphs 7 and 8 provide that the existing practice of paying trip allowance and halting allowance will continue. On behalf of Malda Motor Transport Co., Ltd., and the North

Bengal Trading and Transport (Private) Ltd., reliance was placed on paragraph 11. That paragraph runs thus:

> "Wages including allowance to the Motor Transport Employees will be paid according to the Minimum Wages Act notification No. 5454-Lab., dated 29th August 1951. In case of North Bengal Trading and Transport Co., half the halting allowance now paid to the running staff will form part of minimum wages."

The rest of the paragraph is not material. Since the paragraph stipulates that wages including allowance will be paid according to Minimum Wages Act notification the argument was advanced that the trip and halting allowances were included as integral parts of minimum wages. I am not impressed that this construction is correct. Had it been the intention to include these allowances within the minimum wage the purpose could have been easily achieved by a categorical statement in paragraphs 7 and 8 that these allowances would continue but only as forming part of the total wages. Instead of doing that the parties expressed there in the agreement that the two types of allowances would continue. The best and to my mind, the most reasonable reconciliation between paragraphs 7 and 8 and paragraph 11 can be effected on reference to the notification issued under the Minimum Wages Act. In the schedule it is stated that the following shall be the minimum rates of wages and dearness allowance payable to the employees in Public Motor Transport. The categories of employees mentioned are cleaners, assistant mistries, conductors and drivers. The notification was in regard to minimum wages and dearness allowances. Dearness allowance was not treated as a component part of the wages. It was kept separate. In paragraph 1 of the agreement reference being made to wages and allowance as prescribed by the Minimum Wages Act notification, the reasonable inference is that the allowance dealt with in this part is dearness allowance, for, the notification made provision separately for dearness allowance. To my mind therefore the parties agreed to have wages including dearness allowance to be regulated by the Government notification. The allowance referred to in paragraph 11 is not trip or halting allowance regarding which clear provision was made in paragraphs 7 and 8. According to the evidence of the Secretary of the Union, some concession was made with regard to North Bengal Trading and Transport (Private) Ltd., because of its weak financial position. In paragraph 11 there is a clause in the case of this Company that half the halting allowance would form part of the minimum wage. Similar concession was not made in regard to the other companies. So it appears that in regard to the other companies the trip and halting allowance were payable separately and did not form part of the minimum wage to any extent.

My attention was drawn to Ext. A(2) which is the agreement reached after the strike in 1956, for reference of some of the disputes to a Tribunal. In paragraph 5, sub-paragraph 1(c), it is stated that nobody should receive less than the notified minimum wage inclusive of trip allowance and ad-interim increment as mentioned in paragraphs 1(a) and 1(b). Since minimum wage was described here as inclusive of trip allowance the argument was advanced that in consuming paragraph 11 of the earlier agreement trip allowance should be held as included in the wage. This argument does not carry any weight. This paragraph was incorporated in a different context. Sub-paragraph 1(d) is a saving provision, stating, as it does, that the above clauses were without any prejudice to the right of any party when the case comes up before the Tribunal. There is no scope for any doubt or obscurity as in the paragraph 2 of Ext. A(2) it has been specifically expressed that the question as to whether employees are entitled to trip allowance inclusive of minimum wages as defined under the Minimum

Wages Act would be referred to a Tribunal for adjudication. My finding therefore is that trip and halting allowance are exclusive of the minimum wages. Only in the case of the North Bengal Trading and Transport (Private) Ltd., half the halting allowance forms part of the minimum wage. Though evidence has been given on behalf of the North Bengal Trading and Transport (Private) Ltd. that trip and halting allowances were both described as halting allowance in their books and at present whole of the trip allowance is being deducted from the wages and halting or night allowance is being separately paid, no variation or modification of the terms of the settlement can be made. The distinction might have been indicated in the agreement. Not having taken care to do so at the time the terms were settled this Company cannot plead for inclusion of anything other than half the halting allowance in the minimum wage.

Issue No. 2

The Union Secretary stated in his evidence that Malda Transport and North Bengal Trading and Transport (Private) Ltd. were the two premier companies in the district. He had however admitted that the financial position of the North Bengal Trading and Transport (Private) Ltd. is weak. On this account half the halting allowance was made to form part of the minimum wage. North Bengal Trading and Transport (Private) Ltd. suffered losses in the business. Transport busines is now passing through a critical phase. For running buses and trucks the companies have to take out licence. Previously licence used to be granted for five years but now it is limited to three years. The North Bengal Trading and Transport's licence will expire in 1958. It may not be renewed. The Malda Motor Transport Co., Ltd., has put in a statement, Ext. E, showing that it suffered loss in 1951-52 and 1952-53 though in 1953-54, 1954-55, and 1955-56 it earned profits. The loss incurred previously has not yet been made up. The audited balance-sheets were produced to show that the statement in Ext. E is not a concoction. Evidence was led that Malda Motor Transport was refused renewal of licence for an inter-district route over which it had been plying its vehicles. The State is running its own buses over that route. In two other routes also State buses are now running. There is thus encroachment upon the close preserve of these companies affecting their income. The rates of fare have also been reduced by the Government (*vide* Ext. D). The true position therefore is that the future of the companies hangs in the balance. Nobody can foretell whether licence would be renewed for the routes still used or whether the State would introduce its own buses. Since nationalisation of transport service is in the plan of future State activities bus owners are naturally uncertain as to their future. Considering all these different aspects it seems to me that the time is not propitious for framing a wage structure which would be a long-term arrangement. My decision therefore is that having regard to the financial position of these companies and uncertainty as to their future no wage structure can be fixed up at present.

Issue No. 3

The workers were on strike from 22nd May 1956 to 29th May 1956. Excepting the North Bengal Trading and Transport (Private) Ltd., all the other companies have paid wages for this period. Malda Transport alleged that the Secretary of the Union having expressed regret by his letter Ext. C wages were paid as an act of grace. The North Bengal Trading and Transport (Private) Ltd. tried to establish that the strike was unjustified and illegal being in contravention of section 23(c) of the Industrial Disputes Act. A strike during any period in which a settlement is in operation would be illegal if it is in respect of any of the matters covered by the

settlement. The Union case is that the strike was resorted to because of the non-implementation of some of the terms of the settlement. If that is established sub-section (c) of section 23 cannot be availed of. Admittedly some of the terms of the settlement have not yet been given effect to. They relate to issuing of appointment letters, and framing of service rules. The Company produced the charts Exts. F to F(2) showing the pay scale of the workers. Referring to Exts. F(1) and F(2) the Union Secretary pointed out that minimum wages allowed to some employees were not raised to the level fixed by the Government notification before the date of the strike. According to the notification cleaners and assistant mistries are to receive Rs. 30 as basic pay and Rs. 25 as dearness allowance in Zone IV which is the zone we are concerned with. Abid Hossain and Manjur Ali were being paid Rs. 30 in all including dearness allowance. Mr. Mostakin was being paid Rs. 25 only. Their pay was raised to the proper level after the strike, as will appear from the chart Ext. F(2). Learned lawyer for the Company made a grievance that the charts filed by the Company were used by the Union Secretary at the time of argument without giving the Company's witness an opportunity to offer his explanation. The charts were produced by the Company. If there is anything wrong requiring explanation it should have been forthcoming when the witness was examined-in-chief. The Union Secretary was entitled to avail of shortcomings in the Company's documentary evidence. It appears therefore that in some respects the terms of the agreement, dated 8th May 1954, were not implemented within a reasonable period. The Union was compelled to take drastic action by way of strike. I am not prepared to hold that the strike was unjustified or illegal.

Since the other companies have paid there should be uniformity for the sake of industrial peace. I hold that the workmen are entitled to wages for the strike period.

For the Company: Mr. S. C. Chakravarti, Mr. M. M. Ghose, Mr. M. Mukherjee, and Mr. Goswamy.

The Government of West Bengal, in the department of Labour by order No. 1463-I.R./IR/8L-27/57, dated 10th May 1957, referred under sections 7 and 10 of the Industrial Disputes Act, 1947 (XIV of 1947), the industrial dispute between Messrs. Dunbar Cotton Mills, Shamnagar, 24-Parganas, and one of their workmen Shri Sunil Kumar Mukherji represented by Metiaburuj Textile Labour Union, 35B Wellington Street, Calcutta, regarding matters specified in the second schedule of the Act, to this Court for adjudication:—

Schedule.

Is the dismissal of Shri Sunil Kumar Mukherji justified? Is he entitled to reinstatement and/or compensation?

AWARD.

The case of the Union in brief is as follows:

Sunil Kumar Mukherji was employed as a clerk in the Doubling Godown of Mill No. 1 of Dunbar Cotton Mills for the last 12 years. He had a clean record of service. His duty mainly is to record the weights of the loaded bags that are weighed for delivery to the customers. The coolies load the bags on the scale and after weighment the Sardar Coolie marks the bags thus weighed with certain green marks and then these bags are stored in a godown whence they are loaded on to the boat for shipment to the parties. Six copies of chalans are made of which four copies are meant for parties and two for the boatman. The details of the goods despatched are noted in the pucca gate pass. Sardars see to it that the bags are loaded on to the boats. The incident leading to the dismissal of the workman took place on 2nd August 1956 between 1-30 p.m. and 2-30 p.m. when the goods were loaded in boats, and it was detected on reweighment that 9,150 lb. of Selvedge yarn instead of 8,611½ lb. as per orders were shipped. As the result of excess delivery, the Company suspended Shri Mukherji for misconduct, under sections 17(c) and (j) of the Standing Orders of the Company. An enquiry was held on 9th September 1956 when Shri Mukherji explained that he was not responsible as the goods were loaded on the boat during his absence and that many unmarked bags were found mixed up with goods loaded on the boat. It is therefore urged that the clerk was dismissed without any justification or reason and the Union seeks his reinstatement with arrears of wages, etc.

The Company put in a written statement traversing the material allegations in the written statement of the Union and contends that the nature and scope of the work of the dismissed workman has been

misdescribed. His duty was to get the bags loaded with doubling yarn of the required quality, to weigh them in the scale, to note the weights of the bags in a ledger maintained by him, to get identification marks painted on the bags, to prepare chalans for the parties, to supervise shipments and finally to explain to the Sardar Majhi the number of bags to be delivered to parties. This clerk is responsible for the weighing of the bags and loading the exact quantity of doubling yarn to the boat as per chalan prepared in conformity with the order of the party concerned. A Coolie Sardar and a few coolies were there simply to carry out the clerk's instructions. The loading of the bags on the boat was made in the presence of this clerk at about 4 p.m. on 2nd August 1956. On the morning of 3rd August 1956 a surprise checking of the loaded boat was made in the presence of the clerk who witnessed the unloading of the bags, counted and identified them which when weighed revealed that the weight of the bags was 538½ lb. in excess (9,150 lb. gross instead of 8,611½ lb. net weight). The clerk has in vain attempted to explain away the excess weight by various misstatements. In fact, the bags were marked with green ink and Shri Mukherji identified them at the time of unloading on 3rd August 1956.

A charge-sheet Ext. A, under sections 17(c) and (j) of the Standing Orders of the Company was made on 3rd August 1956 and the clerk submited his explanation and an independent enquiry was held by the Manager wherein he was given due opportunity to defend himself in all possible ways. The Manager found that the charges were proved against the clerk who was therefore justly dismissed with effect from 3rd August 1956.

It is also contended that the dispute is not an industrial dispute.

DECISION.

The case as conducted before me gives rise to another point for determination, namely, whether it is an industrial dispute or individual dispute. This point will be taken up after the determination of the issue stated in the order of reference.

Shorn of verbiage, the case for the Company is that there were orders for (1) 3,500 lb. Selvedge yarn to Champdani Wellington Mill, (2) 2,000 lb. to Champdani Account, (3) 1,800 lb. to Hooghly Mill and (4) 1,000 lb. to Victory Jute Products, in all 8,300 lb. There is no dispute that the dismissed workman Sunil Mukherji was working as the Doubling Godown clerk in Mill No. 1 of Dunbar Cotton Mills and he had put in there about 12 years' service. In short his duty was to supervise the weighing of the goods, note the weights in the ledger book, prepare chalan, put distinguishing marks on bags, give a time card to the boatmen and finally to see that these goods were properly conveyed to the consignees as per orders. The Company now states that these goods as per aforesaid orders were encased in 78 bags according to both parties for delivery to the parties. The Manager of the Company Mr. Raja Gopal O. P. W. (1) states that on the evening of 2nd August 1956 he got clue that some excess goods had been loaded in those 78 bags surreptitiously by the clerk in collusion with two other Majhies, namely, Sewnandan and Ramji. So in order to recheck the goods, a strict guard was kept on the boat throughout the night and next morning the goods were unloaded and reweighed in the presence of the clerk and the excess weight of 538½ lb was detected. This was followed by a charge-sheet and an enquiry was duly held and the clerk was suspended and then dismised with effect from 9th August 1956. The suggestion on behalf of the workman is that he

sat at a distance of 15 feet from the place of weighment and noted the weights in his ledger book as given by the Sardar and then prepared the chalans and took all usual steps leading to the despatch of the goods in boat. His explanation is that he did not carefully supervise the weighment and that these goods were loaded in the boat during his absence between 11-30 a.m. and 2-30 p.m. while he went home for lunch, and that several unmarked bags were mixed up with the goods delivered which explains the excess weight said to have been delivered by him in collusion with coolies with a dishonest motive.

Now it is for the Court to decide which version of the case is true. On behalf of the Union the sole testimony is of the workman alone. As against this we have got the evidence of the Manager O. P. W. (1). The Manager in his evidence deposed that he had a suspicion from before that great irregularities were going on in respect of despatch of goods and he had also received complaints from various parties about irregularities in weights and two Majhies had also been dismissed previously for similar misconduct. On the night of 2nd August 1956, the Manager said that he got a clue that nearly 7 maunds of materials had been delivered in excess over the materials specified in the various chalans (Exts. B—B7). So he sent for his Labour Officer and issued instruction to him to guard the place throughout the night with the help of a retinue of Durwans and not to allow the boat to go out at the usual hour, i.e., about 4 a.m. in the early hours of the morning of 3rd August 1956. According to the Manager's order the boatmen were prevented from drifting the boat from the shore at 4-30 a.m. on 3rd August 1956 and at the same time he ordered that the goods inside the boat should be left intact, until Sunil Babu came to work at 6-30 a.m. On his arrival Sunil was asked to go inside the boat to see if the bags were intact and after he certified that the bags were untouched, they were unloaded and brought back to the bank and reweighed in separate lots meant for separate consignees and about five hundred and odd pounds were found to be in excess. The aforesaid evidence of the Manager leaves no loop-hole in the entire chain of evidence for the workman to escape. The evidence of the manager before the Court has been very consistent and straight forward, and I have absolutely no reason to disbelieve it. All that the workman has deposed to in the Court goes only to create some sort of faint suspicion in the mind of the Court that perhaps some extra bags were planted inside the boat to implicate him falsely in the matter, but that suspicion has been substantially dispelled by the evidence adduced for the Company. The workman has further tried to aggrevate this suspicion by pointing out that a portion of ledger book Ext. F. was torn at the top. But really speaking this has been a futile attempt on the part of the workman because chalans Ext. B series are already there to show the real weights. The weights of goods inside 78 bags should have aggregated to 8,300 lb. and these goods when reweighed next morning (3rd August 1956) revealed an excess weight thus: 89 lb. was revealed by 10 bags (bearing "X" cross mark) meant for Messrs. Victory Jute Products, an excess weight of 179½ lb. in 17 bags (bearing "O" circle mark) meant for Messrs. Hooghly Mills, Co., an excess weight of 9½ lb. in 18 bags (bearing circle mark with a cross inside) meant for Champdani, and an excess weight of 278 lb. in 33 bags remained unmarked, thus a total excess weight of about 538½ lbs. was detected.

It is argued for the Company that 8611½ lb. gross should have been the weight of 78 bags with goods inside and minus the bags and bobbins, the weight should have been 8,300 lb., but on reweighment the goods were found to be 9,150 lb. gross and the excess weight was 538½ lb. and its price was said to be nearly Rs. 1,000. On behalf of the Union an attempt

has also been made to explain away this difference in weight by saying that the bags were reweighed by an average scale whereas at the time of delivery they were weighed by a hanging scale. But the Manager has said that there is no difference in weight when an article is weighed either by an average or hanging scale. On behalf of the Union no attempt has been made to substantiate their contention. Though the workman tried to show that there was some bungling in respect of the goods during the night in his absence and some extra bags were put in just to show excess weight and to inculpate him, but this atetmpt has been utterly frustrated by the evidence of the Manager and the admission of the workman in his cross-examination that he was present when the bags were reweighed and that he signed a paper Ext. D series expressly recording therein that the weights were taken in his presence. These papers Ext. D series bearing the signature of the workman with all other details about the weights found on reweighment disproved the contention of the workman altogether. I must find that these excess goods to the extent of 538½ lb. was delivered in 78 bags causing wrongful loss to the Company and wrongful gain to the workman in collusion with the two other Majhies who were also admittedly charge-sheeted and dismissed. In this connection, it may be pointed out that on behalf of the workman a further attempt was strenuously made before me to show that this clerk sitting as he did at a distance of 15 feet while the weights were being taken on 2nd August 1956 could not properly supervise the act of weighing by the coolies, nor did he see the loading of the goods in the boats, nor was it physically possible for him to ascertain what actually happened throughout the night of 2nd August 1956 so as to fix the guilt on him without any reasonable doubt. But the evidence on the side of the Company indicated clearly that the clerk is responsible to see the goods being correctly weighed, the correct weighment being noted in the ledger book leading to the preparation of chalans, marking of bags in ink, and to give that distinctive mark meant for separate companies, etc. In fact, the workman was a responsible clerk who was entrusted with the duty in this behalf and he cannot escape the responsibility by simply saying that he could not exercise proper vigilance and that if he sat closer to the place of weighment and if the bags were loaded in his presence, this irregularity would not have been possible. This argument is nothing but an eye-wash. The clerk must be held responsible for the irregularities, and the excess weights delivered to the boat.

It is now necessary to state what followed when the excess weight was detected. The Manager said that the workman was suspended with effect from 3rd August 1956 and charges were framed against him as per Ext. A in which his reply is also embodied. The charge recites: "While on duty you, in combination with the Sardar Ramnath, M/C No. 769 and cooly Sitaram M/C No. 242, weighed 9,150 lb. instead of 8,611½ lb. of 3/16 Selvedge yarn (i.e., 538½ lb. more than required) for 4 parties and got the same loaded in D. M. Boat No. 2—which are misconducts, under sections 17(c) and 17(j) of our mills certified standing orders."

In short, his reply to the charge is that he recorded the weights from a distance of 15 feet from the place of weighment and the weights were recorded as reported to him by the coolies and that their report might be wrong but he suspected no foul play about it and that he had no dishonesty or fraud in his mind and that he has put in about 12 years' service without any warning. The evidence is that the Assistant Manager held an enquiry and recorded the evidence. Exhibit G is the deposition of Sunil Babu recorded during the enquiry and he attended the whole enquiry, cross-examining the witnessess produced by the Company and he also

adduced evidence on his behalf and the statement was signed by him and that it is not a fact that any pressure was brought to bear upon him in obtaining his signature on his deposition. At this stage, his statement before the Enquiry Officer may be referred to. It is admitted by him in this statement that he was present when the bags were taken out of the boat on 3rd August 1956 and they were counted and found to be 78 in total and they were reweighed in his presence but the clerk has said that these bags did not bear the marks which he had put on them. But the fact remains that the whole consignment was found to be 538½ lb. in excess on reweighment and the total value thereof was stated to be nearly Rs. 800. It is further admitted by the clerk that if he had more vigilance in respect of weight, the mistake would not occur. During the enquiry he examined two witnesses Moni Babu and Kali Babu but none of them were examined in this Court to support his case. During argument the enquiry has been challenged on the ground that the record of enquiry was made in Hindi characters which the workman said that he did not understand. The Labour Officer has stated that the clerk understands Hindi and he cross-examined the witnesses during the enquiry and his evidence was signed by the clerk. If the clerk did not understand Hindi, it was open to him to put in a petition of objection when the deposition of the witness was being recorded in Hidni. Having omitted to object to the evidence being recorded in Hindi at that stage he cannot be permitted to raise this objection at the time of the trial in Court. Moreover it is admitted by the clerk himself that the Labour Officer interpreted the depositions in Bengali to him. That being the case, it cannot be said that the enquiry was vitiated simply because the evidence was recorded in Hindi. The enquiry cannot also be said to be one-sided because the clerk participated in it and cross-examined the witnesses for the Company and also examined his two witnesses Kali Babu and Moni Babu but these witnesses had not been produced before me. In the circumstances it is too late in the day to argue that the enquiry was not conducted properly or that it was substantially unfair to the workman and that it resulted in failure of justice as the report of the enquiry was not furnished to the workman.

All the requirements of law that departmental proceedings are required to satisfy, namely specification of the charge, investigation of the charge, and finding and the punishment, have been fulfilled in the present case and no irregularities are noticed in the entire proceedings of the enquiry. In this connection a reference was made to the ruling reported in 1954, L.L.J., Vol. I, page 327, Madras Electric Tramways, Ltd. and Madras Tramway Workers' Association. In that case the dismissal of an employee on the result of an oral enquiry was held unjustified and perverse and the thus dismissed employee was found entitled to reinstatement with full pay, etc. The facts are clearly distinguishable in the present case.

Now I come to the question of punishment. It has been seriously contended on behalf of the Union that as the excess goods were not actually lost to the Company but as there was simply an attempt at theft, if it were theft at all, the punishment of dismissal is too severe and utterly disproportionate to the gravity of the offence committed. In support of this argument a reference was made to the ruling reported in 1950, L.L.J., Vol. I, page 318. In that case a workman was found guilty of negligence at the enquiry held by the employer and consequently he was dismissed from service without considering his past blameless record of service. The punishment was held to be too severe and the workman was reinstated.

But the facts in this case are also distinguishable. In this case the Company has found that the workman is responsible for the excess weight delivered with a dishonest motive. It cannot be said that the excess weight was delivered through inadvertence or negligence or a *bona fide* mistake on the part of the workman. The Manager had said that he had previously received complaints from other consignees about irregularities in weight and that he had cautioned this workman more than once and warned him too. So this is not the only instance of his misconduct but a repetition of misconduct meriting an appropriate punishment.

For the Union it has been brought to the notice of the Court that once at the time of annual check up, the stock was found to be 4,000 lb. in excess and thereby the Company gained. Truly speaking this does not reflect credit on the workman. This also unmistakably points to either carelessness or dishonesty on the part of the workman. For the discrepancy in stock either way, the clerk must be held responsible because he is entrusted with the duty of checking the correct quantity of goods to be delivered to the consignees from start to finish. So the finding of four thousand pounds in excess in stock of the Company does not go to extenuate the gravity of the misconduct committed by him on other occasions also. The Company has found him guilty under their standing orders Nos. 17(c) and (j) which warrant summarily dismissal even and I should call it a gross misconduct and the Company in their discretion has thought it fit to dismiss him because in their opinion he is unfit for the position and trust reposed in him. It has been held by the Supreme Court of India in the case of Caltex (India), Ltd. and Engene Fernandes and another reported in Labour Law Journal 1957, Vol, I, page 1, that the Industrial Tribunal has no jurisdiction to consider whether the punishment sought to be meted by the employer to the workman is harsh/or/excessive. The measure of punsihment to be so meted out is within the sole discretion of the employer who is to judge for himself what is the punishement commensurate with the offence which has been proved against the workman. The only jurisdiction which the Tribunal has is to determine whether a *prima facie* case for the meting out of such punishment has been made out by the employer and the employer is not actuated by any malafides or unfair labour practice or victimization. An Industrial Tribunal has no power to substitute another punishment for the one which was meted out by the employer. This Court is therefore not to sit in judgment upon the punishment inflicted by the Company because it is their own discretion and the offence is grave. In this case the offence committed is misconduct falling nothing short of theft with a view to cause wrongful gain to himself and this Court therefore does not think it fit to interfere with the punishment.

It may also be said in this connection that the two other coolies who were parties to this misconduct, since it is they who weighed the goods and loaded them on to the boat, were similarly charge-sheeted and dismissed. Thus the clerk responsible for this gross misconduct had been similarly dealt with and was dismissed.

Next, I come to the question of relief. The relief in the shape of reinstatement is wholly out of the question, having regard to the offence committed by the workman. It is admitted by the Company that Rs. 531 by way of Provident Fund and Rs. 18 for his overtime work is due to him. So all that he is entitled to comes up to Rs. 531 as his own Provident

Fund contribution and Rs. 18 for his overtime work, in all Rs. 549 only. According to the award made by Major Tribunal in case of Cotton Textile Mills of West Bengal, "the full contribution of the employers shall be available to workmen only on retirement, resignation or dismissal *except on the ground of misconduct* after full 9 years' service. A workman retrenched for no fault of his in the event of death, his legal representative shall also be entitled to the full contribution irrespective of the length of his service. For the uncovered period enterior to the introduction of the Provident Fund Scheme (either by this award or otherwise) the workmen shall get a gratuity. This shall be, for each year of service of the uncovered period, at the rate of ½ month's basic pay calculated at the rate they would be drawing on the date of the award. This amount will be available to the workmen in full or in part on the same conditions and under the same circumstances as the employers' contribution for the compulsory Contributory Provident Fund", but as in this case the workman was dismissed for misconduct he forfeited the gratuity otherwise admissible to him under the Major Cotton Textiles Award (*vide* pages 177 and 178 of the Major Tribunals' Award, 1948, Vol. III). So he cannot claim Company's contribution to the Provident Fund for the uncovered period of service.

Next, I take up the question whether this is an industrial dispute or an individual dispute. In this connection it is necessary to refer to the evidence of the workman. In his cross-examination he has stated that he has no paper to show that he pays any subscription to the Union or to show that any workman of the Dunbar Mills pays subscription to the Union, nor has he been able to produce any paper to show that any workman of the Dunbar Mills is a member of the Metiaburuz Textile Labour Union who is representing his case before the Court. That being so, there is nothing before me to show that the case of this workman has been taken up by any Union of which he is a member or by a number of workmen. It has been recently laid down as follows, *inter alia*, in the case of Newspapers Limited, appellants, and the State Industrial Tribunal, U. P. and others, respondents, reported in 1957, Supreme Court Appeals, page 390:

> "The expression 'industrial dispute' conveys the meaning to the ordinary mind that the dispute must be such as would affect large groups of workmen and employers ranged on opposite sides. But at the same time, having regard to the modern conditions of society where capital and labour have organised themselves into groups for the purpose of fighting their disputes and settling them on the basis of the theory that in union is strength, and collective bargaining has come to stay, a single employee's case might develop into an industrial dispute, when it is taken up by the trade union of which he is a member and there is a concerted demand by the employees for redress."

The Union refered to a ruling reported in L.L.J., 1957, Vol I, page 212 (Bharat Glass Factory and Shri H. P. Vidyarthi and others) wherein it is held that an individual dispute could be an industrial dispute if it satisfies other conditions. But in the aforesaid case of the Supreme Court Appeals, it has been held that the decided cases to the extent that they take a contrary view, i.e., an individual dispute is comprised in an "industrial dispute" must unless there is something peculiar to the facts, be held to have been wrongfully decided. That being so, having regard to the evidence as already referred to, it is found that it is an individual dispute. So the reference is incompetant.

Thus both the points are found against the Union. In this case the dismissal of the workman is found justified and he is not entiled to reinstatement or any relief. The Company may, however, be good enough to pay Rs. 549 being the admitted dues of the workman.

This is my award.
